

Chapter: 2264

If it was changed, Tuoba Liang would definitely refute this sentence when he heard it, expressing his disdain. In his opinion, the title of the world's strongest person is not something that can be taken carelessly!

There are too many strong people on the earth. Don't look at it now, there are not many strong people known to the public, but in fact, many top-level strong people are hidden. These strong people are also called old monsters!

But now, after he met Lin Ziming and saw the horror of Lin Ziming with his own eyes, he agreed with Huangpu Dao's statement, nodded and said: "Yes, Lin Ziming is too bad, as long as Give him enough time, and he has a chance to become the number one in the world!"

Huangpu Road asked again: "Why don't others come out with you?"

Tuoba Liang said: "He hasn't come out yet, and he will continue to look for fruit."

Huangpudao suddenly widened his eyes and said, "He has collected eight fruits, is he still not satisfied?"

Tuoba Liang said with a wry smile: "Yes, he is not satisfied with the eight fruits. He has to continue to collect the fruits, saying that he has to collect ten before he is willing to swallow them."

Ten fruits, this is too difficult, too difficult, even in the Huangpu Road, he would not dare to say such big words!

You must know that he only swallowed three fruits at the beginning. He couldn't imagine how huge the impact of swallowing ten fruits at one time would be. He was afraid that he would explode and die directly?

He shook his head and said, "Lin Ziming is bigger now, with ten fruits. This is only theoretically feasible. In fact, no one has done this. Even the first genius at the beginning, the Tianzong Tianzong Absolutely, he has only swallowed seven fruits, and he can already cross the world."

Tuoba Liang didn't have a word. If he changed, he would be more jealous when facing a good peer like Lin Ziming, but now, he is totally jealous, only envy and awe.

"I also asked him, and he said he was confident."

Tuoba Liang said so.

After Huangpudao heard it, he shook his head and said, "It's simple to say, but how can it be so easy? If Lin Ziming died in the secret realm, then it would be a huge blow to our country of China! Besides, In the near future, the world of sects and the four sects will call on all sects to attack the secular together. At that time, there will be no Lin Ziming. I am afraid it will be difficult for China to deal with!"

Even he himself didn't realize it. Before he knew it, Lin Ziming had grown into the backbone of the Chinese nation. Even as the god of China, he had expectations of Lin Ziming.

Tuoba Liang's expression changed a lot when he heard this. He said, "The world of martial art is about to start a war so soon? For so many years, martial art and the secular have been in good condition. Why are they attacking the secular this time?"

Huangpu Road said gravely, "What else could be the reason, it's just to grab resources and power. They think we are taking the wrong path. If we continue to develop like this, all mankind will go to extinction. They think their path is Yes, we must lead all mankind. This is a war of ideas, and it is inevitable."

Tuoba Liang said with an ugly expression: "But this way, many people will die."

Huangpudao sighed and said, "Yes, many people will die..."

Speaking of this, for a while, both of their brothers and sisters felt excited at the beginning.

The mood became heavy.

At the same time, lively discussions arose in all areas of the world.

Because the super arrogance in the secret realm returned to the earth one after another, some of them were on the street. Unexpectedly, with the rippling of space, there was suddenly one more person on the street.
