

Chapter: 2282

Everyone thinks that Lin Ziming is dead. Only Shangguan Shuyao's eyes are firm. He looks straight at Lin Ziming on the screen, and mutters softly: "He won't be defeated, he won't be lost, he promised me that he will come back smoothly, he will not lie to me..."

Although she said so, her fist was clenched tightly, and her heart was obviously very nervous.

Lin Ziming was the first man she fell in love with over the years, and the only man she fell in love with. She couldn't accept the fact that Lin Ziming had died!

In the secret realm, Lin Ziming saw King Xiaoyao and was not able to win the pursuit. He slowly stood up straight, and gently wiped the blood from the corners of his mouth. There was no such thing on his face as he expected. Kind of panic and despair.

Instead, the corners of his mouth are now slightly raised, revealing a slight smile.

Yes, at this time, he could still laugh. Everyone watching the live broadcast in front of the computer saw this scene and thought that Lin Ziming must have gone crazy. Only a madman would laugh at this time. Come out.

After Xiaoyao King saw it, he felt extremely unhappy. In his opinion, Lin Ziming was already his defeated man. He should show despair and panic. It was the right thing to kneel down and beg him for mercy. In doing so, he laughed, which was a huge provocation and disrespect to him at all!

Yes, now Xiaoyao King has regarded his identity as a realm higher than Lin Ziming. In his mind, Lin Ziming is already a dead person, and he is the first level higher than him.

"You can actually laugh. It seems that you don't see the coffin or cry." Xiaoyao Wang snorted and spoke very proudly. At the same time, the momentum on his body began to condense again.

Lin Ziming just received a punch from Xiaoyao King. He was indeed injured. Although his physique was extremely strong, it was completely comparable to the powerful Shentong Realm. But after all, King Xiaoyao was also a super evildoer of the same level, the power of King Xiaoyao's fist was extremely powerful, and this punch still hurt him.

But even if he is injured, so what?

If the King Xiaoyao chased him just now and tried to kill him in one go, then he really might not have any chance. It's a pity that King Xiaoyao is too arrogant and regards himself as the number one in the world. It was the opponents like Lin Ziming who didn't take Lin Ziming to heart and gave Lin Ziming a chance to catch his breath.

Was Lin Ziming really lost to King Xiaoyao in the fight just now? This is not necessarily true, Lin Ziming just didn't make a move just now, he

wanted to see Xiaoyao Wang's routine clearly.

Obviously, he has now figured out the characteristics of Xiaoyao Wang Kungfu, even if the price is a punch from Xiaoyao Wang, what about it?

Lin Ziming shook his head and said, "King Xiaoyao, you are too arrogant. If you didn't stop and pursued aggressively just now, then I might really be defeated by you and die in this secret realm. It's a pity. You overestimated yourself and underestimated me too much. Now that I breathe out, then you have no chance."

When Lin Ziming finished saying this, his breath had already returned to stability, as if he hadn't been injured.

In this scene, all the strong people watching the live broadcast on the earth were obviously taken aback when they saw it. They couldn't figure out why Lin Ziming obviously got a punch from Xiaoyao King, and it only took a few seconds to return to normal. ? This is totally unscientific.
