

Chapter: 2285

On the Hua country side, they were also shocked. They were already desperate for Lin Ziming, but now they saw that Lin Ziming was able to fight against Xiaoyao King without any damage, so they immediately turned around. Mind slowly recovered some hope.

“Could it be that instructor Lin, is it really possible to defeat King Xiaoyao?”

After the words fell, no one answered for a long time. It was not that they heard it, but that they didn't know how to answer. They didn't even dare to think deeply, for fear that after hope, they would be desperate again!

At first, some people couldn't bear to watch it, but after hearing this sentence, they couldn't help but look at the live broadcast on the screen. They saw it immediately. After Lin Ziming collided with Xiaoyao King, there was no stopping. Continue to fight with Xiaoyao King.

Their movements were so fast, it was so earth-shattering and dim that they couldn't see clearly the moves between Lin Ziming and Xiaoyao King.

It's just that you can probably see that Lin Ziming is not at a disadvantage this time, but is on par with Xiaoyao King.

But how is this possible? Isn't Lin Ziming injured just now?

Because of the huge movement they caused, that piece of land, within a hundred miles, felt the huge movement, and it was constantly accompanied by earthquakes, as if there were two ancient giant beasts roaring and fighting inside.

Some natives in the secret realm were also shaken, and many natives approached, but when they heard these movements, they were all pale with fright and didn't dare to approach them at all!

Many natives even knelt down, thinking that these two gods were fighting!

Yes, in their opinion, only gods can make such a terrifying movement.

Not to mention some indigenous people, even the strong in the secret realm, after feeling the huge energy collision inside, was terribly frightened, and didn't dare to move forward at all, even if they knew that inside, Those who have a lot of fruit do not dare to have any coveted thoughts.

Lin Ziming is now fighting the King of Xiaoyao like a raging fire, and it has already reached a fever pitch!

Those who are watching the live broadcast can no longer see them. They can only see that most of the picture is full of thick smoke and dust. In this thick smoke and dust, you can only vaguely see Lin Ziming and Xiaoyao. The Wang's figure constantly tossed and collided inside, and this level of battle was completely sparks hitting the earth.

It has greatly exceeded the realm that humans can reach!

They can only judge that they are still fighting by hearing the movement, and there is no clear winner.

However, even so, they don't even know who has the upper hand, and who can win this battle!

Xiaoyao Wang is now more and more frightened.

In his opinion, Lin Ziming's moves are too weird!

No, to be precise, it should be that Lin Ziming's whole person is too weird.

Isn't it? Lin Ziming had already received a punch from him, so he should have been injured, but now, in the fight against Lin Ziming, he can't feel Lin Ziming's injury at all, it seems like the punch just now didn't hurt. There is the same fight.

But how is this possible? !
