

Chapter: 2290

Chu Fei's current appearance really scared all three of them.

Especially for Qin Huayue, she panicked all of a sudden, quickly supported Chu Fei, and said in a panic: "Feifei, Feifei! How are you Feifei, don't scare mom!"

Tao Sanniang is also in a panic now. She knows that Chu Fei has been doing things for this period of time, but that is only a nightmare at most, and there is no major problem with her body.

But now, Chu Fei's vitality is madly lost, this is basically about to die!

She couldn't imagine, if Chu Fei really had some shortcomings, what would she do, and how should she explain to Lin Ziming?

The person with the same idea is Qin Huayue. She is also Liushen Wuzhu now. She hugged Chu Fei tightly and kept saying: "Fei Fei, what happened to you? Did you get sick? I'll take you. Go to the hospital! You have to hold on, you have to hold on!"

When Qin Huayue saw Chu Fei's appearance, her eyes were red immediately and she cried. Chu Fei is her daughter-in-law. She can be very satisfied with Chu Fei after getting along during this time.

She had already treated Chu Fei as her own daughter. If Chu Fei really had something to do, then she really couldn't explain to Lin Ziming. And she also knew that Lin Ziming and Chu Fei had a very good relationship. If Lin Ziming had gone through thousands of hardships and finally returned from the secret realm, only to find that Chu Fei had an accident, how painful would it be? And how did she explain to Lin Ziming!

So no matter what, she can't let Chu Fei have an accident!

Nishang was relatively calm, she immediately reacted to Chu Fei's pulse.

However, when she and Chu Fei got her pulse, she was also shocked by Chu Fei's pulse. In fact, Chu Fei's pulse was too weak and disordered, and her vitality was madly lost!

At this speed, even if Chu Fei is a master of the congenital realm, and has far better physique than ordinary people, it will not take long, and she will die alive soon!

She raised her head abruptly and said, "Your vitality is losing rapidly. How could this be? What happened?"

Tao Sanniang's eyes were already full of tears, and she said in a pleading tone: "Sister Nishang, please save Feifei back! If something happens to Feifei, then how can we explain it to Ziming!"

Hearing these words, Qin Huayue's eyes became even more red, and even the neon clothes flashed sadly.

On the contrary, at this moment, Chu Fei tried his best to squeeze a smile and said, "I'm having trouble, don't worry, I'm just tired, just go take a rest."

However, the way she is now, not only did the three of them relax, but it was even more sad. Tao Sanniang stared at her and said: “Feifei! It’s all this time, you are still hiding from us, do you think Do we spend our whole life in guilt! No, we have to take you to the hospital!”

Qin Huayue also said solemnly: “Sanniang is right, Feifei, you have to be sent to the hospital in your current situation, and you can’t delay it.”

However, Chu Fei just shook her head with a wry smile, and said, “It’s useless. It’s useless to go to the hospital. I’m not sick. The doctor can’t save me...”
