

Chapter: 2319

Uncle Wang nodded seriously, and said very solemnly: “He must be a master of the psychic realm, and according to his performance in the secret realm, he is still the best in the psychic realm! It’s a pity that there was no time just now. It’s a shame to recognize his identity and not get acquainted with him well!”

Having said this, he sighed heavily, only feeling extremely sorry.

.....
At the same time, Lin Ziming left the hotel without staying, and walked directly in the direction of his home.

He only wants to do one thing now, and that is to see his wife, Chu Fei, quickly.

During this time, what he missed most was Chu Fei.

In the secret realm, he can be described as a life of nine deaths, especially the last battle with Xiaoyao King, and his swallowing of the fruit, if not his will is strong enough, at the last moment, I thought of Chu Fei, and thought of so many relatives and friends. My friend, he really couldn’t hold on anymore.

So he finally came back now. The first thing he wanted to see was Chu Fei, who personally told her that he had succeeded and that he was now a master of the God-Sound Realm!

Have enough ability to protect the family.

I believe that Chu Fei will be very happy after hearing it.

The smile on his face is bright and happy when he thinks of this picture.

However, no matter what he would have thought, Chu Fei, whom he had been thinking about, was actually no longer at home.

Because the place where he landed was not in Hwaseong, but another relatively remote city, thousands of kilometers away from Hwaseong. At his speed, it would take some time for him to return to Hwaseong.

At his current speed, even if he was running, he would not be much slower than the plane, so he chose it directly and ran back directly.

He borrowed a phone call from the local area, first called Wang Shougui, told them that he had come back, and asked them to arrange a sum of money to come over as quickly as possible. After he bought a mobile phone, he opened the navigation. Go straight back.

After he got the phone, he didn’t even call Chu Fei, because he wanted to see Chu Fei in person and gave Chu Fei a big surprise.

On the navigation, it is constantly displayed that he has exceeded the speed limit.

Yes, now that he has broken through the God Realm, he only feels that he is completely different. In his eyes, the whole world has become different.

His speed is too fast to be displayed on the navigation.

Because his speed has already greatly exceeded the speed of sound. More than a thousand kilometers away, in less than an hour, he had already returned.

It can be said to be reaching the extreme!

If someone sees it, they will definitely be frightened, even if they are a master of the gods, they will be frightened by his terrifying speed.

Moreover, the most terrifying thing is that after running for so long, he actually didn't produce a single drop of sweat. It can no longer be described as a metamorphosis, but has completely exceeded the limit of human beings and reached another level.
