

Chapter: 2331

At this moment, they all felt an instinctive suppression.

The horror is really horrible. The horror stops their thinking and forgets to think.

But what is strange is that they didn't have any fear, they just felt terror and pressure.

This shows that Lin Ziming didn't have any murderous intentions against them.

"Do you feel it? This is the God-Communication Realm." Lin Ziming quickly recovered his aura and said with a slight smile.

The scene was quiet for a while, and then a huge wave erupted, and everyone screamed, very excited.

They kept shouting again, Instructor Lin, Instructor Lin, Instructor Lin!

And they finally determined that Lin Ziming really has reached the realm of Communism...

God-passing realm, this is the realm that everyone dreams of reaching. Looking at the entire country of China, there was only one person from Huangpu Road before. Now there is one more Lin Ziming, which shows that Huaguo really wants Rise...

Peng Zhuo and others were also extremely excited.

Then, they pulled Lin Ziming in and asked him what happened inside.

And Lin Ziming didn't have any concealment either. Although he is now a master of the God-Throughout Realm, he is still a member of Xuanyuan's three places, so naturally he wouldn't show up in front of these old colleagues.

After listening to him talking about these experiences, they all squeezed a sweat. While worried for Lin Ziming, they admired them incomparably.

Zhao Xia was immediately frightened, "Instructor Lin, you are so bold that you swallowed a hundred fruits directly! Don't you think you are afraid of exploding and dying?"

Other people looked at Lin Ziming in the same way.

Lin Ziming smiled bitterly and said, "I didn't think so much at the time."

Suddenly, he thought of something, and then he started to ask: "By the way, what is the source of that mysterious live broadcast website? What information did the country investigate?"

After talking about this topic, everyone in the conference room frowned and became serious. Peng Zhuo shook his head and said, "I can't investigate. This live broadcast website that suddenly appeared is too weird. There are no traces. Now, even the money paid in the past has no traces, which is very strange. I don't know when such a mysterious force appeared on this earth."

Lin Ziming didn't have any surprises when he heard these words, but his heart became even heavier, because this shows that there is still a force in

this world that he doesn't know! This is not a good thing. Moreover, it will soon be a world war. At this time, if a mysterious and powerful force comes out again, then it must be influential.

Then, he stayed in Xuanyuan No. 3 for two days, and taught these agents well, doing his responsibilities as the chief instructor.

Under his guidance, the strength of these agents has increased a lot.

Even Zhao Xia broke through directly under his direct control.

Even Peng Zhuo successfully broke through to the Innate Realm and Great Perfection Realm. It can be said that the overall strength of Xuanyuan's three places has improved a lot at once.

After finishing this, Lin Ziming left the three places in Xuanyuan, preparing to go to Yandu.

He has a hunch that the storm is gathering...
