

Chapter: 2350

He is as respectful as he is now, and his attitude is very sincere. He is really apologizing to Lin Ziming and confessing his mistakes, completely like a junior.

The appearance of him shocked all the people present who knew him, especially those in the circle. Everyone who knew him was stunned now, thinking that they were mistaken.

You know, Situ Jing is not a small person, not to mention his strength, the main Situ Jing has a very arrogant personality, I have never heard of Situ Jing to whom such respect.

If you say that the other party is a well-known senior, the man in front of the key looks very young, even younger than Situ Jing. How could he receive such a solemn apology from Situ Jing?

I have to say that now Situ Jing's appearance is indeed very sincere, and people can't pick out the thorn. Even Chen Xuejuan next to him was deceived by him and felt very happy.

At the beginning, she was a little worried. With Situ Jing's character, would she not admit defeat? She was embarrassed to Lin Ziming at this banquet and found the place back. Now it seems that her worry is unnecessary. She underestimated Situ Jing, Situ Jing's heart was still very broad.

But only Lin Ziming, his mouth raised slightly, revealing a meaningful smile, others can't see it, how can he not see it?

Now, his realm has reached a level that mortals can't understand, and any thoughts of Situ Jing can't escape his eyes.

He dare to conclude that there must be poison in this glass of wine, and it is also a very toxic super poison, enough to poison a master of the gods!

However, he still took the wine glass and didn't pierce it. It wasn't that he had been supporting it, it was that he had such self-confidence.

His current physique is not something that an ordinary God-passing realm master can compare.

He swallowed a hundred fruits. After thousands of hard work, he now has reached a level that surpasses all people, and faintly has reached a level that surpasses humans.

No matter how poisonous it is, it is impossible to kill him.

Besides, there is another reason why he did this. By the way, he could test his body to what extent it was tough. After he drank this glass of poisoned alcohol, what side effects would he have?

Situ Jing was still a little nervous at first, but he was not afraid of exposing his horse's feet. It was impossible. For this moment, he had been preparing for a long time. He believed that he could be pure and pure. No matter how powerful Lin Ziming's eyes were, It may be seen.

What he was worried about was that Lin Ziming would be a petty kid and

would not forgive him.

Fortunately, after Lin Ziming took the wine glass, he breathed a sigh of relief. He was right. Lin Ziming, as a master of the God Realm, would not be stingy in public.

However, as long as Lin Ziming swallows the poisoned wine, then Lin Ziming will be dead, because in this glass of wine, he has poured enough poison to poison a master of the God-passing realm alive. !

He was extremely excited when he thought of that scene.

You must know that Lin Ziming is the hottest big man now. Since Lin Ziming killed King Xiaoyao in the secret realm, he has been recognized as the chosen son of this era. He will definitely have unlimited achievements in the future and become the number one in the world. People are not impossible!

And such a person, in front of him, made him feel desperate. He knew his weight, if it was a normal practice, he would not be able to catch up with Lin Ziming in his whole life, and he would even be thrown away. Coming farther and farther.
