

Chapter: 2354

After hearing his words, everyone suddenly realized that it was Situ Jing who had given Lin Ziming the medicine!

What's more, it was poison, enough to kill a super master.

Chen Xuejuan opened her eyes wide. She looked at Situ Jing's crazy appearance, and she couldn't understand why Situ Jing did this!

This is Lin Ziming, the best and most promising man in China.

Although she didn't know Lin Ziming before, after she learned about Lin Ziming's deeds, she knew that Lin Ziming was the hope of the entire Chinese nation, and she would definitely be the one who would ascend to the pinnacle of power in the nation in the future.

However, for such a person, Situ Jing dared to kill him, and yet he could not bear to kill him?

Immediately, after her nerves reacted, she went over and slapped Situ Jing severely, and shouted, "Situ Jing, you beast! This is Senior Lin, and the third God-transforming state in our country. Master, he is the hope of our country! You actually, you actually poisoned!!"

Chen Xuejuan was mad. Although she had no affection for Situ Jing before, her impression of Situ Jing was generally good. After all, Situ Jing was also a very good man.

But now, Situ Jing actually did such a frenzied thing.

However, Situ Jing was not angry after this slap in her face. Instead, she laughed loudly, extremely loudly and madly, "Hahahaha! The hope of China? Who said he is China." Who said it? Even if he is the hope of China, so what? Who made him offend my Situ Jing and grab a woman from Situ Jing! In this world, if there is really a genius, then so too? It can only be my Situ Jing!"

When he said this, his face flushed, and his eyes widened, he was completely crazy, it was a kind of extreme excitement.

To be able to poison Lin Ziming to death was really a very exciting thing for him, enough to make him so excited that his whole body was trembling.

The others also stepped back quickly now, looking at him fearfully.

At this time, Lin Ziming stood up slowly on the ground. His face was pale, and blood was bleeding from the corners of his mouth, but he didn't die. He just looked sluggish and dying.

Even so, he stood up hard, stared at Situ Jing closely, and said, "Just because I beat you, you are going to poison me to death?"

When he asked this sentence, there was not much change in his expression on his face, and he still felt very calm, and he was not panicked because he was poisoned now, and Situ Jing's madness was formed. A sharp contrast.

Situ Jing's brows jumped fiercely twice. He especially hated Lin Ziming's appearance. In contrast, he seemed to be a villain, a clown!

It is obvious that Lin Ziming is younger than him, so why is he so much better than him?

Besides, he is the real genius, and he should be the hope of China! As for Lin Ziming, from his point of view, it was nothing more than shit luck!

He has already found out clearly that the original Lin Ziming was just an ant. At the beginning, if Lin Ziming was not on the snow-capped mountain and ate the spirit fruit of heaven and earth, there would be no bandit dreams. If it were not on the Kung Fu Cup, he would get the energy of the Chinese nation, it would not be in such a short time. Within, he would break through to a half-step through the god realm, and he would not be qualified to go to the secret realm and break into the god realm!

In his opinion, Lin Ziming was originally a mud-legged man, and in terms of identity, he was far less noble than him.
