

Chapter: 2357

Having said that, he shook his head with a look of regret, "It's a pity, you wasted this opportunity."

Hearing this, Situ Jing's bad premonition became stronger, and his brows were constantly beating!

There is an urge to escape.

However, he was firmly suppressed again.

"Lin Ziming, you are dying and want to continue to defraud me? I have given you the opportunity, since you don't cherish it, then go and die!" Situ Jing's face appeared a bit hideous, and then he started directly to Lin Ziming. Shot.

What Lin Ziming said just now really scared him. If Lin Ziming can really resist the poison, then this consequence is not something he can bear. So at this time, he couldn't continue to pretend to be coerced, and he would kill Lin Ziming directly, lest the night would have many dreams!

I have to say that his strength is still very strong. At this age, being able to cultivate to a half-step through the Divine Realm is indeed an advantage.

His speed was so fast that everyone present couldn't react. The dagger and the tip of the knife in his hand were already in front of Lin Ziming!

Just wipe Lin Ziming's neck, he wants to kill him!

At this moment, Lin Ziming didn't react too much. He just lowered his head gently, looking like he was nodding, and even directly caught Situ Jing's stunning knife on his chin and chest!

Moreover, it was like pouring concrete, so that Situ Jing's dagger could not go further.

At the same time, there was also a clanging sound of metal intersecting, and one could hear how powerful the collision is!

However, in fact, it was Situ Jing who did not kill Lin Ziming, but was directly stuck!

This scene is extremely shocking for everyone.

As for Situ Jing himself, his scalp was numb, and the goose bumps all over his body were erected!

He has found out now, Lin Ziming is not injured!

But why is it so? Is that cup of poison fake?

This is impossible!

Or, is Lin Ziming's physique really strong enough to be such a superman?

These thoughts flashed through his mind, no matter what, he now realized that his actions had failed.

Fortunately, he has also experienced countless battles, and he reacted extremely quickly. If he missed a hit, he immediately retreated, turned and ran.

It's a pity, can he still run away in front of Lin Ziming?
