

Chapter: 2370

Similar things are happening in many places around the world.

Although Bu Jingyun's words were full of bewitching, they sounded very beautiful.

However, as long as you are sane enough and think about it carefully, you will know that if everyone really goes to practice, then it will not take long before the world will collapse directly!

Because this is not an alarmist thing.

Cultivation is not like doing business. It does not mean that once those businesses fail to do well, they will still go back to work obediently.

Once ordinary people come into contact with spiritual practice, they will definitely no longer want to return to ordinary people's lives. They simply forget to be practical, and forget their responsibilities. The most important thing is that they will forget their position and have too much expectations and confidence in themselves!

Moreover, if the whole people really practice cultivation at that time, public security will also have a huge impact!

First of all, for ordinary people, if they really practice cultivation, it is not difficult to improve their strength in a short period of time.

Moreover, after they practiced for the first time, they felt their own strength and increased speed, and they would have an illusion about themselves, thinking that they were very powerful, and their strength was much stronger than those of the athletes.

This is not the most critical thing. The most critical thing is that when they first enter the realm of the martial artist, their personality will also change, becoming violent, arrogant, and arrogant.

And what is the result of this is that the whole society will collapse!

Once such a thing happens, then national power cannot stop it when that happens. Especially when there are ghosts among people in the sect world.

It can be said that after Lin Ziming heard Bu Jingyun's words, he immediately thought of this, and his face became gloomy.

He can completely imagine that when the time comes, the scene of the entire world will be a scene of life and death!

And these are the goals of those guys in the martial world.

Although he still doesn't know, what is the meaning of this way in the martial world, is it trying to drag everyone to die together?

Or, do they think that there are too many people on the earth and want to have a great purge?

Like raising Gu?

All in all, Lin Ziming must prevent this from happening anyway.

Tuoba Liang, who was on the side, smashed the TV directly when he was angry, and said angrily: "This step is stunning the clouds. It is simply

damaging sentient beings! What he wants to do, what do they want to do, yes Want to drag everyone to die together!”

Whampo Road next to him didn't finish talking, he frowned, looking very sad.

And Shangguan Wei'an also said angrily: “It's unreasonable! It's unreasonable! What do these martial world guys want to do! Is this what they want to do? Is it to destroy the entire world?”

He was very angry. In fact, it was not just him and Tuoba Liang, but many senior officials in China were also very angry now, because they were not stupid, so naturally they would understand the dangers of national practice.

In fact, there are so many countries on the earth who don't talk about spiritual practice. It's really not that they are stingy, and it's not that they are selfish and want to sit firmly on the hegemony.

But they understand that if they do, then that country will not be far from collapse.
