

## Chapter: 2371

So many countries have reached a consensus.

Because it is conceivable that if all the people practice martial arts, resources will be a huge problem.

“Instructor Lin, what do you think?”

At this time, Shangguan Wei An looked at Lin Ziming and asked.

Now, Lin Ziming is no longer the young man he used to be. He is in China and has a certain amount of weight to speak.

Everyone looked at him.

Lin Ziming said indifferently: “They are using Yangmou, and we must also attack with Yangmou.”

“Instructor Lin, do you already think of a countermeasure?” Shangguan Wei’an immediately lit up.

Others also brought expectant eyes.

Lin Ziming said, “Well, just do what they said, let them all cultivate their martial arts.”

“Ok?”

When everyone heard this sentence, they thought they had misheard, Shangguan Wei’an frowned and said, “Instructor Lin, I heard it wrong, right? You mean, ignore it?”

Lin Ziming shook his head and said with a smile: “Of course, it’s not that we ignore it, but we still have to add to the flames.”

Hearing his words, the expressions of everyone present changed even more severely.

An angry color appeared in the eyes of many of them, and they looked closely at Lin Ziming. If Lin Ziming was not in his current position, then they would definitely have to scold Lin Ziming in public!

However, they have to endure it now.

Tuoba Liang said, “Brother Lin, are you sure you are joking?”

Everyone’s expressions were serious, and for a while, I wondered what Lin Ziming’s purpose was for saying this.

Now that everyone knows how bad the consequences of cultivating martial arts for the whole people are. Everyone is looking for ways to prevent this from happening.

However, if Lin Ziming didn’t think of a solution together, he would add to the flames?

To be honest, if it weren’t for Lin Ziming’s birth problem, they all thought that Lin Ziming would also be a member of the sect world.

Lin Ziming smiled and said under everyone’s gaze, “Speech like Bu Jingyun’s can’t be curbed. There will be schools from all over the world sending out such speeches. This is their plan. It’s their biggest way to invade us! Because they know that if they rely on force alone, their martial world

power is definitely not enough to defeat us. Even if they have more masters, we have a lot of high-tech weapons. .”

When everyone heard his words, they all fell silent, thinking that his words made sense. But what does this have to do with Lin Ziming’s contribution to the flames? On the contrary, now that you know the tricks of the martial world, shouldn’t you have to stop it with all your strength?

At this moment, Huangpu Road, who had been silent, suddenly lit up and said, “Ziming, you mean, is it better to block?”

Lin Ziming nodded and said: “Exactly, because they are working at the same time, and they are premeditated, we rely on our own strength, there is absolutely no way to stop it! Besides, the sect world confuses the seeds of all mankind. It has been planted. At this time, we want to stop it and cannot stop it. So, simply let them develop, and wait until the critical moment, and then we will take action. At this time, what we have to do is to preserve our strength, and, Unite.....”
