A LIFE UPSIDE DOWN

## Chapter: 2392

It's just that she didn't have to tell Chu Fei with these words, it was not necessary, so as not to cause Chu Fei's sadness, she could see that Chu Fei did have a deep feeling for Lin Ziming.

Next, Nangong Wushang stayed and chatted with Chu Fei a lot, trying hard to awaken Chu Fei's memory, but looking at it, Chu Fei no longer remembers many things, and she also had a sense of belonging to the Heavenly Sect Sect. , This made her feel quite disappointed.

After Lin Ziming carried out the beheading operation, the offensive on the side of the martial art world immediately eased a lot, especially, they did not dare to gather in such a high profile, for fear that they would be attacked by Lin Ziming.

Although they have always looked down on the worldly people, thinking that these people in the world have neglected their own practice because they are too superstitious about technology, but they also have to admit that Lin Ziming is a well-deserved superpower in this world. .

Has greatly threatened their existence.

Let them also have to watch out for Lin Ziming.

Of course, no matter how good Lin Ziming was, they would only be on guard at best, and they would be completely afraid of Lin Ziming if there was any truth.

Because they knew that the most powerful person in this world could not be ranked as Lin Ziming.

Among other things, Tian Jue, the Sect Master of Killing Heaven Sect, is a mountain that stands in front of everyone.

Let everyone admire it, insurmountable, even if it is a genius with amazing talent like Lin Ziming, there is no chance of winning in front of Tian Jue.

Next, Lin Ziming made another move, smashing the dens of several sect worlds, so that the offensive of the sect world was further eased.

In addition, there are also strong men from the world, from major countries, also taking actions one after another.

In this battle, the sect was originally intended to involve ordinary people, but under Lin Ziming's beheading action, the birthplace became a fight between the sect world and the high-level powers of the secular world, and the strong.

In fact, it is a disadvantage for the world to roll the battlefield from ordinary people to high-level ones.

However, if you don't do this, many, many ordinary people will die. The price is too high. Even if you win the war in the end, you will lose.

Of course, among the secular forces, the most important combat force, in

addition to the strong practitioners, is more to cooperate with high-tech weapons, firearms, rockets, and even missiles!

This is the world's biggest bargaining chip.

This is a huge war. In just two months, there are already countless people who died on both sides.

And Lin Ziming, in this war, also felt the trampling of human nature, the cruelty of the war, and the worthlessness of human lives.

Of course, even if the war was fierce, he never forgot to investigate Chu Fei's information!

Two months have passed, and he still doesn't have any information about Chu Fei. If he is not in a hurry, it is impossible.

However, even if he was anxious, he didn't show it, he just used all his methods to inquire about Chu Fei's information.

Finally, on this day, let him wait for useful information!

"Chairman, I have heard some messages from my wife."

Today, Lin Ziming was practicing, and suddenly Jiang Liqun came to the door and said softly.

In an instant, Lin Ziming opened his eyes, as if it would shine, and the originally dim room suddenly became brighter.

In an instant, Jiang Liqun felt an overwhelming aura and pressed him against him, making him unable to stand still at all. He fell to the ground suddenly, and his brain was blank.

The heart thumped and thumped.
