

Chapter: 2394

After Lin Ziming heard it, he suddenly realized that his feelings were that after he stepped into the realm of Communism, the aura that he unknowingly exuded was too strong, even if he didn't deliberately rise to power, the subordinates around him would feel it. To the great pressure, which further feared him.

In fact, at this stage of Lin Ziming, he didn't worry about anyone betraying him at all, because his strength had already reached a certain level.

Anyone who dared to betray him also had to measure whether his head was hard enough or not enough for him to punch him.

Anyway, Jiang Liqun was an old man who had been with him for a long time, and there was no need for him to make Jiang Liqun tremble so much in front of him.

He patted Jiang Liqun on the shoulder and said with a smile: "Don't worry, I'm still the former chairman. As long as you do well, I won't do anything to you."

It may be that Lin Ziming's current smile is very contagious, or it may be that Lin Ziming's current aura has eased a lot, which has reduced his pressure a lot. But of course he would not say that he is not afraid of Lin Ziming, and even his awe of Lin Ziming has become more profound. He knows how powerful Lin Ziming's current strength and influence are, and it is completely comparable to a small country. Up!

"Thank you Chairman." Jiang Liqun saluted.

After a pause, Lin Ziming said again, "By the way, it won't be very peaceful these days. You, Lao Wang and Lao Han, try to go out as little as possible and have more bodyguards by your side. You must pay attention to your own safety, you know? If something really happens, you can call me as soon as possible and I will help you solve it."

Hearing these words, Jiang Liqun was even more grateful. He knelt directly on one knee, extremely moved and solemnly said: "Thank you, Chairman! I will definitely pay attention!"

"Ah That's good."

Lin Ziming nodded, and after that, he chatted with Jiang Liqun for a while, and by the way pointed out Jiang Liqun's skills, and immediately let him start, and he was even more grateful to Lin Ziming.

When the time was almost up, he started to go home.

Since Chu Fei was taken into captivity, he actually rarely went home. Firstly, Chu Fei was not there. Secondly, because of his special status, coupled with the outbreak of the war, he could go home as little as possible, so as not to get hurt. Two elderly people at home.

Now that something has happened to Chu Fei, he must protect the safety of his father-in-law and mother-in-law no matter what.

In addition, he also specially arranged a number of Innate Realm masters to guard his father-in-law and his mother-in-law, and he could know for the first time what happened.

However, after he came out of Jiang Liqun, he suddenly received a call that made his heart sink!

The call was made by a bodyguard of the Innate Realm. When Lin Ziming received this call, he immediately had a bad feeling.

After answering the call, sure enough, I heard an unfamiliar voice on the phone, "Lin Ziming?"

This is a man's voice, full of air, and the voice is very hoarse, the typical smoky voice, the tone is full of strong oppression and murderous aura!

Hearing this sound, Lin Ziming's eyes suddenly became sharp.

This is a master, and also an absolute super master, with at least the third rank of the God-Through Realm!

You know, after stepping into the realm of Tongshen, there are only three stages in total, that is, the first rank, the second rank, and the third rank.

Although they are both in the realm of the gods, the gap between them is extremely huge!

Take Tuoba Liang as an example, he is a first-level master of the gods, and a master of the third-level gods, there is not much difference from a half-step master of the gods.
