

Chapter: 2403

Qing Yuntian's momentum suddenly changed, and at the same time, he began to attack Lin Ziming, stepping out in one step, he could not hear any sound, and he was already in front of Lin Ziming. His speed was so fast that the air was shaken out of the water. Like ripples.

The next moment, Lin Ziming heard the sonic boom in his ears.

Qing Yuntian's shot this time was even more fierce and unmatched than in the villa just now.

In Lin Ziming's feelings, it seemed to be a huge meteorite, which hit him and was about to be destroyed at any time.

Lin Ziming was very confident in himself, but he had to admit that he would still underestimate the heroes of the world, just a blue sky, so terrifying strength.

Moreover, according to Whampoa Road, the strength of this Qingyuntian is still not among the top five in the world.

One can imagine how terrifying the strength of the five powerhouses in front has reached?

This thought only flashed through Lin Ziming's mind, and it had no effect on his actions at all.

He was completely fighting instinctively, counterattacking Qingyuntian's offensive.

This time, he didn't have any hands left. Facing a master like Qing Yuntian, he took it seriously from the beginning and confronted Qing Yuntian head-on.

It is not that he is not Qing Yuntian's opponent, nor is he afraid of Qing Yuntian, but that he wants to see where his limits are. Against a master like Qingyuntian, how long will it take to defeat Qingyuntian at the earliest!

"Good job!"

Lin Ziming yelled and raised his eyebrows. At this moment, he became full of energy, and his whole person was full of spirits, thoroughly showing his demeanor and pride as the son of the day's choice!

He didn't have any retreat, his knees sank slightly, lowered his center of gravity, and faced Qing Yuntian's attack.

Bang bang bang bang...

They met in an instant, and a huge sound wave erupted from their center immediately, and the ground under their feet was also shaken by an earthquake.

Fortunately, they are far away, otherwise, it will definitely cause great agitation.

But even so, the people living nearby also noticed the horrible movement from afar. Many people were kneeling down and praying, hoping that such horrible destruction would not affect them.

Qing Yuntian is tall, obviously half a head taller than Lin Ziming, and his muscles are also much stronger. From a distance, the two of them are not of the same level at all.

However, the energy that Lin Ziming exploded was no less than Qingyuntian!

Even, his fists didn't let Qing Yuntian in the slightest, and he even beat Qing Yuntian back continuously.

Just kidding, although his current cultivation level is not as good as Qingyuntian, his body, after experiencing a hundred fruits, has long been tough and messed up!

It is no exaggeration to say that now he, even if the bullet of a sniper rifle, does not penetrate his skin, the only thing that can hurt him is to hit him in the eye.

Although the Qingyuntian cultivation base is higher than Lin Ziming, but in terms of physical fitness, it is definitely not as good as Lin Ziming.

The more he fought with Lin Ziming, the more surprised he became!
