

Chapter: 2405

Qing Yuntian's idea was very good, but Lin Ziming was still too underestimated after all.

I saw Lin Ziming's expression without sorrow or joy, and was not touched by Qingyuntian's assassin. When he shouted from Qingyuntian's lion roar, his ears seemed to be alive, and his two earlobes were tightly closed. It stuck to his own ear hole, blocking Qingyun Tianyinbo's attack.

Otherwise, no matter how strong his physique is, his eardrums will definitely be deafened.

In fact, it is not the first time that he has faced this kind of lion roar. He can be said to be familiar with the road. It is just that Qingyuntian's lion roar is even more powerful, more domineering, and powerful. Two steps were blown back fiercely.

Qing Yuntian saw that Lin Ziming was able to defend himself, and his eyes flashed some surprises, but it was nothing more. For him, he had already guessed that Lin Ziming would do this.

However, this was not his goal. He had originally planned to be able to use the Lion Roar skill to injure Lin Ziming so easily. His real assassin was the next step.

I saw that his figure stepped out, as if traveling through the sun and the moon, stepping over the stars, and under his feet was no longer the land of China, but the vicissitudes of life. It was a gesture that surpassed space and distance.

Lin Ziming couldn't help being shocked at this moment!

He had never seen a move like this before.

No matter how careful he treats Qingyuntian, he still thinks that Qingyuntian is underestimated. At this moment, Qingyuntian really seems to be his name. The immortal from Qingtian struck his most powerful punch.

Under this punch, Lin Ziming saw destruction, life and death, and time.

He knew that if he received this punch, he would really be seriously injured!

He knew he wanted to hide, but Qing Yuntian's speed was too fast. When he reacted, Qing Yuntian's fist was already in front of him.

Moreover, Qing Yuntian's spirit level still locked him tightly.

At that moment, Lin Ziming's pupils suddenly became white, and many pictures appeared on the pupils.

He walked so far, and finally got here today. If he were to be defeated by Qing Yuntian today, then he would never accept it!

In his body, there are still too many responsibilities. In his heart, there is still a person who is always thinking about. If he is allowed to die here, how can he be willing?

At this moment, seeing Qing Yuntian's punch, he was about to hit him, and suddenly, he closed his eyes.

In an instant, he entered a mysterious state.

He can't die!

In any case, he can't die here.

He admitted that he had underestimated Qingyuntian, he didn't expect Qingyuntian to strike such a shocking punch!

He swallowed a hundred fruits in the secret realm. He originally thought that when he came back to the earth, it must be a transcendent existence. The facts proved that he was too small to look down on the people of the world.

Although one hundred fruits really helped him a lot, it was a pity that he was still too young, and time was too harsh for him, so he didn't have much time to practice, in the realm, and these veteran powerhouses. , There is an insurmountable gap.

However, this does not mean that he will admit defeat! !
