A LIFE UPSIDE DOWN

## Chapter: 2411

Not to mention Qingyuntian, even if he is the top powerhouse in the world, he is not afraid at all. This is not his arrogance, but his faith, his reason after swallowing a hundred fruits!

As he and Qing Yuntian continued to fight, there was nothing in this area, within two or three kilometers, and it turned into a ruin. There was no way, but their destructive power was really too great. Fortunately, no one is here, otherwise, even the masters of the innate realm will have to be affected.

Qing Yuntian felt that something was wrong more and more, this Lin Ziming's strength was actually even more powerful than at the beginning!

Let's not talk about the more stamina, especially Lin Ziming's martial arts and moves are constantly evolving. It feels like Lin Ziming is constantly learning and becoming stronger through the battle with him!

From the beginning, Lin Ziming's realm, cultivation base, and strength were all inferior to him. The reason why he was able to persist was mainly because of Lin Ziming's strong physique.

But now, that's not the case anymore. Lin Ziming's cultivation base and strength have obviously increased a lot, and his physical strength is like a bottomless pit, inexhaustible.

After he discovered that something was wrong, cold sweat continued on his forehead. He was not stupid. On the contrary, he was one of the few smart people in the world. He immediately realized that he might have been unable to beat Lin Ziming!

If he continues to stay, he will most likely capsize in the gutter and die at Lin Ziming's hands.

He is very unwilling to believe this fact, but when the fact is in front of him, he has to believe it again!

He gritted his teeth and finally made a decision, intending to drive away!

At this moment, Lin Ziming's consciousness was fully open, and his state reached the peak state. After Qingyuntian moved to the idea of escaping, he had immediately sensed it and reacted.

He snorted coldly and said disdainfully: "Huh, I just thought of running now? It's too late!"

After saying this, his speed was actually a bit faster than before.

In addition, there was a screaming sound in his whole body. Originally he was more than 1.8 meters tall, but he was actually raised out of thin air, and the whole person became even taller!

In less than a second, he has become a two-meter five giant!

"Heaven and earth?!"

Qing Yuntian saw this scene, his pupils suddenly enlarged, and that

appearance, as if he had seen a ghost, was completely horrified, full of shock, and deep fear! ! !

Heaven and earth, this is martial arts only in the legend, it is almost the same as the exercises that can only be practiced by immortals.

He had only heard what his master had said before, but he had never seen it before, and at one time thought it was nothing but a boast of his predecessor. But now, the facts are in front of him. Lin Ziming, who was originally shorter than him, suddenly turned into a two-meter-and-a-half-meter giant like a gasp!

This kind of picture, for him, the impact is really too big, making his scalp numb, and no longer have the idea of resisting, without any hesitation, he just turned around and ran away.

Don't say anything, such a Lin Ziming is absolutely impossible for him to win, and he also has a strong hunch that if he leaves later, it is very likely that he will die here.

He can't die here anyway!

Facing his escape, Lin Ziming didn't have any fluctuations, stretched out his hand to grab it, and quickly grabbed Qing Yuntian's neck and lifted him back.
