

## Chapter: 2424

In the past few days, the scale of the war between the martial world and the secular world has become larger and larger, and the scope of its impact has become wider and wider.

During this period of time, some small countries with not very strong national power have completely fallen into the hands of the martial world.

This is a battle of ideas, it is also a great cleansing of mankind, and it is also the era of the birth of heroes.

In this battle, I don't know how many people died, how many eloquent stories were born, and how many heroes were born, how many families were destroyed, and life was lost on the battlefield forever and ever.

It can be said that more than two hundred countries in the world can still fully maintain their sovereignty. There are few countries that have been violated.

And Hua Guo is one of them.

In addition, even some powerful countries in the West will inevitably be implicated.

It stands to reason that in today's era, the development of science and technology is very powerful, and there is no way to fight against high technology by relying on manpower alone.

However, the powerhouses in the sect world are really too powerful, not to mention the innate realm powerhouses, there are as many as a feather, even if they are in the spirit realm powerhouses, there are many.

Before that, no one would have thought that there would be so many strong people in the martial world, especially those strong in the realm of spirits, which would have caused a huge impact on the secular and the major countries!

Regardless of the secular world, the major countries are very advanced in science and technology, their weapons are very advanced, and their lethality is great, but they also have to be able to play well.

Not to mention, the sect world disturbs the people's minds by walking around the country and practicing exercises. It can be said that in addition to this two-pronged approach, the major countries are retreating steadily, internal and external troubles, and it is impossible to stop the iron shoes of the sect world. !

Even some Western countries call these top powerhouses in the martial world the existence of superheroes, similar to the Superman, Iron Man in those sci-fi movies...

This situation can be said to be extremely unfavorable for all major countries.

Therefore, more and more countries have begun to ask China for help, asking China to extend a helping hand to them.

Under such circumstances, China did not stand by and sent its own elites to provide support.

However, the effect achieved is not very good.

Many of them focused on Lin Ziming. For them, Lin Ziming was their savior.

Only Lin Ziming himself can solve the dilemma in front of him.

But where did Lin Ziming go?

They couldn't find Lin Ziming for a while.

Since killing Qingyuntian, Lin Ziming has entered a state of retreat.

Defeating Qingyuntian this time was a big gain for him.

The biggest gain is that from Qing Yuntian, he knew the true identity of Chu Fei's father.

Tian Jue, the supreme master of the Sect of Heaven, is also the number one person in the world.

To be honest, when Lin Ziming learned this message, he was still shocked.

It's not that he is afraid of Tian Jue. On the contrary, he knows very well that there will be a battle between him and Tian Jue. It's just that he didn't expect that there is such a coincidence in the world, his natural opponent, will actually be his father-in-law.

He knows that Tian Jue will definitely not let him go, not to mention that he is now a strong man in the world, who has killed so many strong men in the world, it is he who killed Gong Chunqiu and Gong Chunqiu in the secret realm. Xiaoyao King, Tian Jue couldn't let him go.

And he never thought that Tian Jue would actually be Chu Fei's father.

Now that Chu Fei is in Tian Jue's hands, Lin Ziming can't help but worry.
