

Chapter: 2432

Lin Ziming has long been like thunder for Killing Tianzong.

It is no exaggeration to say that this is the world's largest power, and its strength is even greater than that of many countries.

Even if a big country like China, it doesn't necessarily have any advantage in the face of Tianzong.

Especially, there are super powerhouses like Tianjue and Kunlun, and there are so many powerhouses in the entire Tianjue Sect. In the real fight, Hua Guo is not an opponent of the Tianzong Sect.

Lin Ziming also knew that sooner or later there would be a collision between himself and Tianzong.

It's just that he didn't even think that this day would come so soon.

If he is given enough time, three or five years later, he actually has a lot of confidence to stand in front of the Heavenly Killing Sect.

Only now, time is still too hasty for him.

But there is no way, he already has no chance to choose, he must go to Killing Heaven Sect.

Although neither Chu Fei nor Tian Jue had told him the specific address of Tianzong, this matter was not difficult for him.

Three days later, he was already standing in front of Heaven Killing Sect.

He raised his head and looked at the towering mountain gate, covering a huge area, giving people an absolute oppression and deterrence. He had to admit that the power of Killing Heaven Sect was beyond his expectation.

In particular, he can clearly feel that here in the Killing Heaven Sect, a huge amount of luck is spreading, showing a thriving scene.

Lin Ziming didn't need to look for it, and he could clearly feel that in the Heaven Killing Sect, the breath of a lot of powerhouses came.

Among them, the innate realm is innumerable, and the degree of concentration is the most he has ever seen!

You know, when he first stepped into the innate realm, no matter how excited and proud he was, he thought that the world was so big that he couldn't go anywhere.

I thought that after stepping into the innate realm, he would be the Master of Humanity, standing on the pinnacle of the world.

Looking back now, his vision at the time was still too limited.

After experiencing so much, he now understands that in fact, the innate realm is really nothing, it can only be regarded as an introduction.

As long as there are enough efforts and methods, it is not very difficult for ordinary people to step into the innate state.

Only through the realm of the gods, is the real fish leaping dragon gate.

In Heaven Killing Sect, he can feel that there are a large number of masters of the innate realm in it, and there are many masters of the gods!

I have to say that Heaven Killing Sect, as the world's largest power, really has his reason.

Because Lin Ziming had also been to the Luotian School, the Luotian School was far from enough to kill the Tianzong in terms of talents.

Standing in front of Heaven Killing Sect, Lin Ziming couldn't calm down. He knew what was waiting for him once he stepped in.

It is a sea of swords and flames, an absolute danger, if you are not careful, you will lose your life in minutes!

However, even if there are more difficulties and obstacles ahead, he has to go in.
