

## Chapter: 2452

Anyone who knew about this thought that Lin Ziming was dying, and there was no chance of surviving!

It's not that they don't believe in Lin Ziming, but that the Heavenly Killing Sect is too strong. As the largest of the four sects, it can be said to be the largest power in the world. Its strength is not worse than that of many big countries. There is even a place to win.

The simple truth is that if Lin Ziming is in the beautiful country alone, and with a burden, facing the encirclement and suppression of the whole country, is it possible to leave successfully?

It is very difficult, almost impossible.

Moreover, under this circumstance, the threat posed by the Killing Heaven Sect was much greater than that of the Beautiful Country. Therefore, everyone was not optimistic about Lin Ziming, thinking that Lin Ziming was completely seeking death this time.

Therefore, many people regretted, and even complained, thinking that Lin Ziming was too willful and had no idea about the overall situation at all! As the first person in China, he was the most important person in this war, especially Lin Ziming, who also embodies most of China's national fortune. It is conceivable that if Lin Ziming comes, he will really be Falling into the Sect of Heaven, then, what a blow to China and even the entire secular world!

However, there are also a small group of people who still hold hope for Lin Ziming. After all, Lin Ziming has created too many miracles for them. Deep down in their hearts, they still believe that Lin Ziming can also escape smoothly this time. To create a miracle.

As for Lin Ziming himself, he didn't know that the matter of his trapped in the Killing Heaven Sect had already spread all over the world, and so many people's eyes were here. In terms of his character, even if he knew it, it would not have any influence on him, because when he really made this decision, he had already considered it, no matter what the front is, what is waiting for him. , He accepted it frankly.

Now, since he chose to break through the encirclement in an open and fair manner, he can clearly feel that more and more powerful auras are rushing towards him, forming a huge encirclement, trying to drain the water that surrounds them.

There is no panic or fear on his face, but he also knows in his heart that it is already very difficult for him to break through this time. At least, it is almost impossible to retreat all over his body. .

However, this does not mean that he will give up. In fact, he has already made a plan, even if he is seriously injured, and desperately, he will take Chu Fei out safe and sound!

Even if he took ten thousand steps and said, even if he really fell here, then he would make Heaven Killing Sect, and even the entire martial world, pay a heavy price!

Before he died, he would bring many people to bury him with him.

With his current strength, he is no longer the same Wu Xia Amon. As long as he spreads out with all his strength and kills, there are only a handful of people who can stop him, looking at the world. In other words, there is only one heaven.

Soon, in his line of sight, many people appeared and surrounded him. These were all superpowers in the Great Perfection of the Innate Realm. Among them, there were some masters in the God-Communication Realm. This lineup, no It's not luxurious. If you change to an ordinary person, you will be trembling with fright when you see this scene.

But for Lin Ziming, he just frowned a little, and even his expression hadn't changed.

Then, he didn't continue to run, but stopped, put Chu Fei down, and then squatted down in front of Chu Fei and said softly: "Fei Fei, lie on my back, I will lead you to break through."

Chu Fei's face was already full of tears. She shook her head and said in an almost imploring tone: "Ziming, it's no good. There are too many people, too many people. If you can't beat them, you'll die. Here!"

Chu Fei is really nervous, worried, and worried. She is no longer the ordinary person who didn't know anything before. Now she is also a master of the innate realm. She is very clear about these powerhouses of the Heavenly Killing Sect. She is so powerful that everyone who comes out can easily crush her. In her opinion, a master at this level is already out of the scope of human beings.

If it's one or two, it's fine. The key is that now so many people have come out, the same hatred, staring at Lin Ziming murderously, and even if Lin Ziming is more powerful, his two fists are harder than four hands, how can he continue to resist? Too!
