

## Chapter: 2456

However, the result was far beyond his expectation. He had just shot, and immediately afterwards, there was no specific way to see Lin Ziming's movements. After that, he felt that he was being taken by a quick The high-speed train hit the same, and directly knocked him into flight.

That is a force he can't resist at all!

He was defeated just by a face-to-face meeting, and he was defeated so thoroughly.

In an instant, he could feel that his chest was hit hard and his ribs broke directly! An unprecedented pain swept through his whole body, causing him to scream uncontrollably, and when the person was in the air, he even vomited a large mouthful of blood.

But relatively, what was even more horrified was his heart. He never thought that with one move, one move, he would be defeated, and he was defeated so thoroughly, so simply, so without the slightest counterattack. Power!

This is simply impossible.

You know, he is not an ordinary person, but a super powerhouse of the Second Stage Tongs Divine Realm. Even if you look at the whole world, although he is not the top, but he is still rare.

However, in the hands of Lin Ziming in front of him, he was so vulnerable. He couldn't accept this kind of thing at all.

Fast, it was too fast, causing many people around to react to it for a while.

Although they knew that Lin Ziming was very powerful, and even Qing Yuntian died in Lin Ziming's hands, but in any case, Lin Ziming is not in a free state now, and he has even carried a woman on his back. This is a burden. Press Logically speaking, it is absolutely impossible to exert all strength.

But in the end, it was all a dignified second-tier god-level powerhouse, unable to handle even a single move!

After Lin Ziming knocked his opponent into the air with a single punch, he didn't have any stops, but continued to rush to kill him, and completely kill this second-tier god-level master!

It's not that he is cruel, but in this case, he must be like this!

On the one hand, it can kill a powerful opponent, and on the other hand, it is also to kill the chicken and the monkeys, so that these people around them look terrified, and they can't exert their absolute strength.

After all, he is really fighting one hundred against one hundred. This is not a joke. What's more, he also carried a Chu Fei on his back. The strength that he can really display when Chu Fei can't be harmed is actually not much.

Therefore, he must make a quick decision!

When this thought came out, he didn't have any pauses. With a bang, his

body, like a high-speed cannonball, rushed towards the second-level power god realm master. The speed can be said to be yes. Almost to the extreme, it can no longer be described as surpassing the speed of sound. His current burst speed can even catch up with a fighter!

Chu Fei couldn't even bear it on his back!

Such a huge acceleration, if she were a master of the innate realm, or an ordinary person before, then her internal organs would now be unable to bear it and fester!

At such a high speed, in the blink of an eye, Lin Ziming had already chased the person in front of him, and under the other's fear and inconceivable expression, he blasted a punch again. This punch can be described as a fist. It's a shocking work, it seems to be a punch from the god of death, coming out of hell to claim the other party's life!

"No!!!"

Under this circumstance, the second-level power god realm master felt a huge crisis of death, causing the goose bumps all over his body to stand up. It was an unprecedented fear. He knew that he was under this punch. It might be dying.

He didn't want to die, he really didn't want to die.

He wanted to desperately beg for mercy. At this moment, he had endless regrets. He had known that Lin Ziming's strength was so terrifying that he was already at an inhuman level. Even if he was given a hundred courage, he would not dare. I can't do this early bird!
