

Chapter: 2457

But now, there is already a chance...

With a loud bang, accompanied by the sound of broken bones, Lin Ziming's punch hit the opponent's face without reservation, causing his head to explode directly.

He died on the spot.

However, Lin Ziming's speed was very fast. After he finished this punch, he immediately jumped away, and there was no blood stain on his body.

Quiet.

The audience suddenly fell silent, and no one thought that the battle would end so quickly!

The total amount of time is only a few seconds, right? A battle that was thought to be a big battle ended like this?

unbelievable.

This is what everyone thinks.

Not only them, but even Chu Fei opened her eyes wide at this moment. She knew that Lin Ziming was great, but she did not expect that Lin Ziming's strength was already so strong.

She was behind Lin Ziming, with Lin Ziming's back on her chest, and she could clearly feel Lin Ziming's heartbeat, his strength, and his determination! It made her eyes moist.

She knew very well that Lin Ziming did this entirely for her. Originally, with Lin Ziming's strength, he was completely capable of fleeing herself easily. It's just that Lin Ziming didn't want to abandon her, so he accompany her in the risk.

This life is worth it, really worth it.

Lin Ziming's fighting spirit is now strong. After he killed a second-tier god-level master with two punches, he didn't have the option to stay. Instead, he continued to shoot and rushed towards the person next to him.

He intends to use violent means to open a breakthrough from here. Only in this way can he have a better chance of breaking through.

He knows that the entire Tianjue Sect can really pose a threat, only Tianjue and Kunlun are the two. As long as he is fast enough to fight the siege before the two arrive, then he still has a chance. Fleeing like this with Chu Fei.

And the key to this is one word, fast!

Recklessly fast.

The man was stunned for a moment, and saw Lin Ziming moving towards the shot, his face no longer had the initial arrogance and contempt, and now he has a serious face, even with some panic and fear.

He is also a god-passing realm master, and his strength is extraordinary in the entire martial world. At the same time, his character is not as arrogant

and arrogant as the god-passing realm master just now. Therefore, after seeing Lin Ziming's shot at him, he immediately reacted. He had no choice but to fight hard. Instead, he said loudly: "Go together, leave him here!"

At the same time, he also began to move closer to the master of the God-passing Realm next to him, not giving Lin Ziming a chance to defeat them one by one.

I have to say that his decision was very wise, but in front of Lin Ziming, it was still not enough.
