

Chapter: 346

It's not that he is playing big cards, but that he also has a temper. Just now the Guo family treated him like this, he saw it, and the Guo family was already giving Guo Junyi a lot of face.

"Wait a minute!" Guo Junyi hurriedly stopped Lin Ziming.

"What else?" Lin Ziming asked.

Guo Junyi blushed a little when he stared at him, and said softly, "You have done me a great favor, but I still don't have any meals, or just stay and eat."

Guo Yuanjia immediately walked out and said enthusiastically: "Yes, Ziming, thank you for your help tonight, stay and have a meal."

He talked to Lin Ziming like a future father-in-law, and the love and excitement in his eyes couldn't be concealed. Just kidding, this is Chairman Zi Qiong, the capital crocodile, and the person behind the Ugly Lord. At such a young age, the future can be said to be limitless! If this really becomes the son-in-law of the Guo family, then the Guo family will rise to heaven in one step.

Lin Ziming couldn't see what Guo Yuanjia was thinking. He smiled contemptuously and said, "I don't have to stay to eat. I'm not hungry."

Guo Yuanjia said quickly: "Ziming, it was my uncle's fault just now. Please don't have the same knowledge as your uncle. Uncle's vision is narrow and you can't see your identity. Uncle punished himself for three cups and asked you not to accompany you."

He said that he ordered someone to pour him wine.

Lin Ziming smiled ho ho, and said, "I don't need to pay for it. I am coming tonight purely for the help of my friends."

"This..." Guo Yuanjia was a little embarrassed holding his wine glass, but he drank it anyway.

Lin Ziming didn't look at him, but continued to say to Guo Junyi: "Well, it's getting late, I have something to do, so I won't stay, you can rest."

Guo Junyi still wanted to keep Lin Ziming, but Lin Ziming refused. In desperation, she had no choice but to give up. Seeing Lin Ziming disappear into her sight, she was particularly lost in her heart, as if something had been taken away, she sat sullenly. Froze on the chair.

The banquet hall that can accommodate thousands of people now has more than 30 people in the Guo family. It looks particularly empty and the atmosphere is strange. So many of the Guo family members didn't speak, but the shock that just happened to them was still too great.

Everyone's eyes were on Guo Junyi, Guo Yuanjia also had the majesty just now, he moved a chair and sat down next to Guo Junyi, and asked expectantly: "Junyi, when did you meet Ziming? Yeah? Why didn't you tell your father in advance? As long as you tell your father that he is chairman Zi Qiong, your father won't arrange this marriage for you."

Guo Junyi didn't speak, she propped her chin in a trance.

If Guo Junyi ignored him like this before the change, Guo Yuanjia would have been angry, but now, he didn't dare, so he had to lick his face again and said: "Junyi, Dad knows that this matter has misunderstood you and made you wronged. Now, Dad apologizes to you. When do you think you will invite Ziming over to our house for a meal?"

Guo Yuanjia said the voice of all the Guo family members. It would be great for a young man with such a big background to become the son-in-law of their Guo family.

"Aren't you all repelling me to be with him? Why have you changed your mind now?" Guo Junyi said with a sneer.

Guo Yuanfeng immediately stood up and said, "Hey, we don't know his identity, Junyi, too, and you have found such a powerful person to be a boyfriend, so I didn't tell us."

Others also persuaded Guo Junyi with one word and one word, and they did not hide their flattery and flattery to Guo Junyi in their words.

Looking at the faces of these elders, Guo Junyi suddenly felt a little sick, and said in a weird manner: "You have figured it out clearly. He is the son-in-law of the Chu family. You are not afraid that he will lose the face of the Guo family."

What this said made them very embarrassed. Guo Junyi, the girl, really didn't give them any face to their elders.

Guo Yuanjia coughed twice and said, "Yes, how did someone like him become Chu's son-in-law?"
