

## Chapter: 355

He has learned about Shengke Lighting. Since the investment of 100 million yuan, she has now come back to life, and the scale is getting bigger and bigger. As Chu Fei, as the chairman of Shengke Lighting, she can't come here alone.

Chu Fei smiled and shook her head, and said, "I'm here with the secretary. Here, she's already here."

Mr. Xiao looked in the direction of Chu Fei, and saw a woman wearing glasses walking with a briefcase in her hand. After walking, she said to Chu Fei: "Chairman, I will buy your medicine. ...."

"Ahem!" Chu Fei immediately coughed twice, interrupted the secretary's words, and gave her a wink, and said, "Mr. Xiao, since I've come here, then find a place to sit down and talk about cooperation, you What do you think?"

Mr. Xiao naturally heard what he said just now, and he kept a heart in his heart. On the surface, he naturally pretended not to hear him. He smiled and said, "Mr. Chu is full of sincerity and came here to discuss business with me. Good President Chu. I know that there is a clubhouse with a particularly good environment and stylish decoration. It is very suitable for us to discuss business. Why don't we go there to discuss business? President Chu, what do you think?"

Chu Fei smiled and said, "Ms. Xiao just makes an idea. I can do whatever you want."

Then, Chu Fei and the secretary got into Mr. Xiao's car.

Lin Ziming just stopped by the side, he opened a line of windows specially and listened to what they were saying.

Chu Fei actually came here to discuss business, and brought the secretary over. Apparently, she came here by car. This is in line with Chu Fei's character. She was originally a very economical person. Although she is now the chairman of the board, she can really do this kind of thing.

After thinking about it, Lin Ziming decided not to return to Lin's house for now, and followed up to see what was going on.

Just now he saw bad intentions in the eyes of the surname Xiao, it was obvious that it was Chu Fei's idea!

Even if he has divorced Chu Fei now, he can't do it if he can't save Chu Fei. So he didn't think about it too much, so he just dropped his head and followed up.

President Xiao's Maserati drove for twenty minutes in front, and arrived at a very high-end clubhouse with a unique name, called Tingfeng Pavilion.

Almost all the cars parked in front of this club are luxury cars. The lowest grade is also the BMW 5 Series, and the highest price is directly to the Bugatti Veyron.

After Lin Ziming drove up to follow him, his expression was a bit weird. Looking at the three characters Tingfengting on the sign, he felt like a world away.

Because before he was expelled from the family by the Lin family, he often came to Tingfeng Pavilion to drink tea, because this is one of the Lin family's industries, which was established by his grandfather at the time and was dedicated to serving the rich and powerful in the circle. Not limited to Hwaseong and Fengcheng, many big figures in the surrounding cities like to come here to discuss business.

Because Tingfeng Pavilion is notoriously quiet, and there is never a camera here, the bank drain can also be hidden, and you can enjoy absolute security here.

However, Tingfeng Pavilion has a feature that it is only accepted by members, and the member's request is to recharge five million in. After recharge of five million, the balance in the membership card is only two million, which is equal to three hundred. Ten thousand is due to membership, and still have to pay these three million every year. As far as this is concerned, many people have already been dissuaded.

Unless he is a rich boss, he will give up this money.

Mr. Xiao was also a while ago. In order to step into this circle, he gritted his teeth and recharged five million into it, so he immediately invites Chu Fei to come here to talk about business and pretend to be forced.
