

Chapter: 358

Xiao Cheng's expression immediately changed when he heard this, and he became gloomy, "What is meant by a temporary upgrade? What do you mean by this?!"

To be honest, Xiao Cheng is very upset now. He specially brought Chu Fei to the Tingfeng Pavilion, in order to pretend to be forced in front of Chu Fei, to conquer Chu Fei's heart, so that Chu Fei can be taken down. As a result, the guard now tells him that he is not qualified to come in for consumption? What a joke!

Besides, he paid five million for the membership for real money.

When Chu Fei heard these words, she also showed some weird expressions. To be honest, she is not stupid. How could she not know that Xiao Cheng drove so far here, and on the way she kept talking about how high a Tingfeng Pavilion is and how many big people are members here. This is what Xiao Cheng is doing to her. Show off. She doesn't take these too seriously, for her, it's the same wherever she talks about business.

But now that she heard the doorman's words, she was still quite surprised that even the five million members who bought it could not come in? Is this Tingfeng Pavilion really so good?

The doorman said respectfully: "Mr. Xiao, we are also very sorry about this. We also just received the board of directors' instructions, saying that Tingfeng Pavilion has suddenly been upgraded this week. Black gold card members will not be allowed to come in this week. Listen to Fengting's consumption. Mr. Xiao, so I'm really embarrassed, and I would like to ask Mr. Xiao to understand and come back in a week."

Xiao Cheng's expression was even more ugly. What does that mean? He brought Chu Fei to pretend to be forced. He had boasted so much on the road just now. As a result, now he can't even enter the door of Tingfeng Pavilion, so where is his face going?

If in normal times, he can endure this kind of thing, forget it, after all, the big man behind Tingfengting is the Lin family, the absolute overlord of Hwaseong.

But things are different now! There is Chu Fei standing next to him. If he walks away in a desperate way, wouldn't his image in Chu Fei's mind be dark?

So he straightened his face down and said in a deep voice: "What a joke, I am a black gold member who has spent five million recharges. I have a distinguished status. I can come to listen to Fengting and enjoy the service at any time... .. Forget it, I don't understand with you as a security guard, you call your manager over, I want to see, when did Feng Ting treat black gold members like this!"

Then he explained to Chu Fei: "Chu Fei, wait a moment, don't worry. This

Tingfeng Pavilion is too big, with many employees, and it is prone to errors. It must be the security guard who has heard the wrong message. I am honorable. The black gold members can enter at any time.”

Chu Fei frowned slightly. She is currently busy with her work and has a lot of things to be busy with. This time she set out to talk to Xiao Cheng for cooperation. The schedule was quite in time. She didn't care where to discuss business, as long as it was A quiet place is fine.

So she said: “Mr. Xiao, in fact, you don't have to talk in the wind pavilion. We can find a quiet place anywhere.”

Xiao Cheng's expression became even more determined when he heard Chu Fei's words. He shook his head vigorously and said, “How can you be like this? You are my important business partner. You must talk in the Tingfeng Pavilion to show that I treat you.” Sincerity.”

“This, really don't need...”

Chu Fei still wanted to speak, but Xiao Cheng interrupted him immediately. He was determined to take Chu Fei in: “Chu Fei, you can wait a while. I know their manager very well, and when their manager comes out, We will be able to get in right away.”

And he gave the guard a stern look and snorted: “When the manager arrives, I have to ask him to fire this blind guard! There is no wink at all, even me. Dare to stop, such an idiot will be ashamed of Tingfengting to stay in Tingfengting.
