

Chapter: 405

Chu Fei and Lin Ziming have been married for so long, and they have never seen Lin Ziming show such an expression. No, it should be said that she has never seen anyone show such an expression! To use an idiom to describe it, is that all thoughts are lost?

The moment she saw Lin Ziming's expression, she was severely pricked with a needle in her heart. The pain made her nose sore and tears flowed out in despair.

She didn't know what happened to Lin Ziming, but she knew that Lin Ziming was not such a fragile person. Even if Lin Ziming was insulted, he would not be so disheartened.

In other words, Lin Ziming must have experienced something that made him desperate and painful just now.

So she opened the car door without thinking about it, and rushed towards Lin Ziming.

“Chairman!!”

The secretary in the car exclaimed that if Chu Fei rushed out in such heavy rain, she would get wet all at once.

But Chu Fei still rushed out. In fact, she didn't understand why she did this. Obviously she and Lin Ziming were already divorced. Strictly speaking, they weren't even friends now.

Soon, she rushed to Lin Ziming, grabbed Lin Ziming, and shouted loudly: “Lin Ziming! What happened to you just now, why did you do this?!”

Lin Ziming stopped. His face was full of rain now, and his eyes were red and swollen. Hearing Chu Fei's voice, his soul slowly returned to the body, and he began to have some consciousness, and said, “Chu Fei ?It's you?”

He saw Chu Fei's appearance clearly, and it was strange when he arrived, but at the next moment, he came back to his senses, it turned out that he was in the rain.

And Chu Fei quickly got soaked, shivering with cold.

Chu Fei felt cold as soon as she came out, and was trembling even more with the rain.

“Lin Ziming, you... are you being bullied...” Chu Fei spoke, her teeth trembled, and her lips began to pale.

Lin Ziming reacted now. He knew it was bad when he saw Chu Fei's appearance. If he went down, Chu Fei was about to catch a cold. He took off his clothes, opened them, and put them on Chu Fei's head, and said angrily: “What are you doing out? It's easy to catch a cold! Hurry up and take a hot bath in a nearby hotel!”

Chu Fei clenched her teeth, Lin Ziming's first reaction was actually for her sake, this bastard!

“My car is there. Go to the car to hide from the rain.” Chu Fei took Lin

Ziming's hand and walked into the car.

Immediately, after getting in the car, both Lin Ziming and Chu Fei felt very warm, and there was a warm air in the car.

Next, the driver was also nonsense. Using the fastest speed, he found the nearest hotel and stayed in first, let Lin Ziming and Chu Fei take a hot bath, otherwise they would catch a cold soon.

Lin Ziming had been in the rain for a few minutes, and now he finally felt the cold. Fortunately, his physique was very good, far surpassing ordinary people, so it was just hot, but he still didn't have a cold.

But Chu Fei was different. She was an ordinary person or a woman, and her physical fitness wasn't that strong. In addition, she hadn't been able to rest well in the past few days, and she immediately caught a cold.

After she came out of the shower, she sneezed a few more times.

The secretary is very sensible. At this time, she quit early, leaving her private space for Chu Fei and Lin Ziming.

As a result, the two of them were left in the room.
