

## Chapter: 425

“Take me directly to the most expensive villa in Yulong Bay.”

Lin Ziming looked for a while, but found nothing satisfactory, frowned, and said to the agent.

The intermediary looked lazily and said: “In order to prevent some people who are not able to buy a villa, deliberately look at the house on the grounds of viewing the house, so the real estate agent here has formulated a rule to look at Yulong Bay. For the most expensive villas, you must pay a deposit of 200,000 yuan. If you can’t get it out, you can’t visit it.”

“There are still such rules?” Lin Ziming frowned. He has lived in Huacheng for so long, and he has never heard of any real estate that requires a deposit before opening a house, and he has to pay 200,000 yuan in one breath. Come out, this is too much.

Seeing his reaction, the agent was even more sure that he was pretending to be forced. The corners of his mouth raised slightly, showing a little sarcasm and sneer, “Yes, for some poor people, deliberately took pictures of friends with the reason of buying a house. Folding is forced. After all, Yulong Bay is the most luxurious and high-end community in China. Those who can live in are all status symbols. If any poor people can come in and visit, it will also affect the normal life of the owners here, and Lower the style of Yulongwan, don’t you?”

In fact, the intermediary said that there are true and false. The most high-end villa area in Yulong Bay does have such a rule, but the amount of the deposit is less than 200,000, and it only needs to pay 50,000.

The intermediary said this only because it was not pleasing to Lin Ziming and wanted him to retreat.

However, he didn’t expect that Lin Ziming said without hesitation: “Okay, where can I swipe the card?”

When the intermediary heard Lin Ziming say this, he was obviously taken aback, his eyes widened, and said, “Are you sure? If you want to pay out 200,000 in one go, and Yulongwan doesn’t support credit cards!”

How could Lin Ziming not know that the intermediary was deliberately letting him “retire”? He didn’t bother to explain this kind of thing, and said impatiently: “Who said I am a credit card, hurry up and take me to swipe the card? , I am anxious to buy a house these two days, so there is no time to delay.”

The agent choked on Lin Ziming, his face was a bit unsightly, and his heart was uncomfortable. He secretly slandered a few words, and then took Lin Ziming to the real estate agent to swipe his card.

Although he does not believe that Lin Ziming really has the ability to buy a house, as a real estate agent, if his attitude is too bad and he is complained, it will still affect his career a little.

After a while, the intermediary took Lin Ziming over to swipe his card, and before Lin Ziming spoke, he winked at the front desk of the real estate agent and said, “Arrange for this guest to pay a deposit of 200,000 yuan. He wants to see Yulong Bay Phase 8. Villa area.”

The front desk was very winked, she nodded, took out the poss machine, and swiped the card for Lin Ziming.

However, just as Lin Ziming was about to swipe the card, at this moment, there was a sound of footsteps from behind, accompanied by some familiar voices, “My dear, I really never dreamed of it in my dreams. Buying a house in Longwan is great! It is my dream to live in Longwan, thank you for helping me realize it!”

Then there was another voice, “Yes, Rong Min, it’s really a blessing for Chu Xuan to know you.”

Chu Yuan?

Hearing these two words, Lin Ziming was stunned. Isn’t this Chu Fei’s cousin?

He looked back curiously, and sure enough, he saw a bunch of Chu family members walking in.

At the same time, they also saw Lin Ziming...
