

## Chapter: 426

Liu Suhong is very annoying recently. In the past few days, Han Xuefen rarely showed off in front of her, saying that their baby daughter Chu Xuan found a rich boyfriend. At a young age, he established an Internet company. Earning 20-30 million, the profitability is stronger than that of the Chu family's Shengke Lighting, and he also bought a tens of millions of villas in Yulong Bay and gave it to Chu Xuan to use as their wedding house for their marriage.

Han Xuefen is the wife of Chu Huaxiong's younger brother Chu Huacheng and Chu Xuan's mother. She usually has a lot of intersection with Liu Suhong. Liu Suhong himself is a face-loving person. When she hears this, how can she stand it? My daughter is now the chairman of Shengke. How could I lose to Han Xuefen, so when Han Xuefen asked her to come to Yulong Bay to inspect the house, she immediately agreed.

Moreover, she cut first and played later. After coming to Yulong Bay with Han Xuefen's family, she called Chu Fei and told her to come to Yulong Bay and buy a villa.

When Chu Fei heard these words, she was dumbfounded on the spot. What's the situation? The family has a house in Hwaseong and lives well. Why do they want to go to Yulong Bay to buy a house? Besides, Yulong Bay is full of villas, and the lowest is tens of millions. How can their family get this money!

So she immediately said, "Mom, what are you doing? We have a house and live well, why are we going to buy a house in Yulong Bay? There are all villas over there."

Liu Suhong said: "You are now the chairman of the board, and you have the most shares. It is more than enough to buy a villa in Yulong Bay, okay!"

She deliberately said loudly, and was heard by Han Xuefen's family, emphasizing that her daughter is also the chairman of the board, not worse than anyone else!

Chu Fei frowned and said, "Now that the company has just returned to its tracks, it still hasn't turned a profit. What if I have more shares? How can I get so much money at once?"

It just so happened that Liu Suhong was using PA, and Chu Fei's remarks were immediately heard by Han Xuefen's family. She burst into laughter at the moment, and Han Xuefen said, "I said Suhong, you came from the countryside, I don't know the director. There is also a difference between the chairman and the chairman of the board. Although some people say that they are the chairman, they can actually make no money, and some chairman can earn 20 to 30 million yuan a year, such as our family's honor. Min."

Liu Suhong heard this, her face turned green right now, she cursed a few

times in her heart, switched the PA, stepped aside, and said to Chu Fei: “I don’t care, you come here now, otherwise you won’t call me in the future. Damn it!”

After speaking, she hung up the phone directly.

When Chu Fei listened to the busy tone on the phone, she felt very helpless. Fortunately, she had a little time today, which was not too busy. To prevent her mother from coming up with another moth, Chu Fei had to rush over.

Seeing Liu Suhong approaching, Han Xuefen joked, “Well, Chu Fei still can’t afford to buy a house? But Chu Fei also said that you also have a small 100-square-meter commercial house in Hwaseong, enough for your family. I lived with four people. After all, the villas in Yulong Bay are too expensive. It costs more than ten million for anybody. Not everyone can afford it, ho ho.”

Chu Xuan immediately continued: “Mom, that’s not what I said. Now Chu Fei is the chairman of Shengke Lighting, and her status is very noble! Even grandpa has to listen to her, she is so awesome. Isn’t it easy to buy a villa in Yulong Bay? Madam, don’t you think?”

Chu Xuan’s remarks were irritating. The two mothers and sons mocked and ridiculed her, making her mad, gritted her teeth, and snorted heavily, and said, “Of course, our family Chu Fei is now the chairman of the board. Wouldn’t it be easy to pay more than ten million? But if you come to Yulong Bay to buy a villa, wouldn’t you also mortgage like the poor?”
