

Chapter: 491

Liu Suhong is a person with strong vanity. At this moment, she feels that she is the pinnacle of her life and earns enough face. Many ladies who looked down on her before are also chatting with her in a low profile. So cool!

So she has fallen into the vanity brought to her by living in a big villa, and has forgotten the matter of Lin Ziming just now.

When Chu Huaxiong saw his wife's beauty, he couldn't bear the commotion in his heart. He also posted a similar circle of friends. It really caused a great sensation. Suddenly, many people came to envy him and wanted to come and find him. He drinks tea and sees and sees a big house of forty million.

Of course, the most shocking is the group of people from the Chu family. They were confused when they saw Liu Suhong and Chu Huaxiong's two circles of friends, and they didn't understand at all. Just now, the son of the Kunlun Group was still looking for Lin Ziming. Is it troublesome? Why did you live in the Yulong Bay Villa after only a few hours?

Is it possible that this matter has been resolved?

After entering the villa, Liu Suhong and Chu Huaxiong were even more shocked by the luxurious atmosphere inside. They kept taking out their mobile phones to take pictures, too excited.

The praise of Lin Ziming is endless.

When Lin Ziming saw that the two of them had not seen the world before, he felt a lot of vanity in his heart at this moment. After being a son-in-law for so many years, it was the first time he was praised by his father-in-law and his mother-in-law.

If he didn't divorce Chu Fei, that would be even better.

Chu Fei came in and saw the luxury of the villa, she was also a little surprised, but that was all, she was completely opposite to Liu Suhong, she was not vanity at all, and she had no great pursuit of material things.

Lin Ziming saw that she had been absent-minded all the time, and was full of thoughts, and knew this matter, he wanted to explain to Chu Fei.

Sure enough, Chu Fei couldn't help it. When Liu Suhong and Chu Huaxiong went upstairs to pick their room, she took a deep breath and said to Lin Ziming, "Can you talk?"

Lin Ziming nodded and said, "Okay."

When they walked to a place convenient for chatting, Lin Ziming said, "Feifei, actually..."

Chu Fei waited for him to finish, and interrupted him directly, staring at him tightly, and said, "Are you really Chairman Zi Qiong?"

In fact, Chu Fei had countless doubts just now that she wanted to ask Lin Ziming. She thought of asking this question first, but when she asked it out, she couldn't help but say this sentence. This is also the question she cares

about most. .

Lin Ziming was silent for a while, he didn't even think that Chu Fei would ask this question first.

Seeing that he hadn't answered for a long time, Chu Fei's face was a little dim, and she tried her best to squeeze out a smile, and said, "It's not convenient for you to answer."

Lin Ziming looked at her and said, "It's not that it is inconvenient to answer, but I answered. Will you believe it?"

In fact, this sentence already said the answer, Chu Fei bit her lips tighter, "I believe it."

Lin Ziming said very solemnly: "I am."
