

Chapter: 506

Lin Ziming was taken aback when he heard the surprise in Chu Fei's tone, and then nodded: "Well, I just got downstairs, you come down by yourself or I go up?"

Chu Fei said, "I'll go down, you wait a moment."

"Great."

After hanging up the phone, Chu Fei said to Long Feiyu: "My husband is here, Mr. Long, I will be separated first."

The corner of Long Feiyu's mouth twitched slightly, Chu Fei's performance tonight was a blow to him, and she even began to doubt her charm at one time.

As a man, he stood up and said, "Since your husband has already come, let your husband come to meet and get to know each other, you may also want to join this circle."

Long Feiyu said this sentence with playfulness and ridicule on his face. He did not lie. The fact is that in this circle, there are several pairs of legal couples, each playing their own way, and they are very open.

But for Chu Fei, this is too subversive. She thinks that Long Feiyu is molesting her, and her face changes now, and she says: "Mr. Long! Please take care of yourself, I am not the kind of watery flower you imagined. A woman with a moral bottom line, my husband does the same!"

She said this a bit loudly, and the women around her heard it. She frowned and became unhappy. A woman said in a bad tone, "Hey, Chu Fei, what do you mean by that? Feelings. Are we women with no moral bottom line?"

"It's really outrageous! We made an exception for Sister Hong's face, so we made an exception to let you come in. Your land was good, and when you came here, we ate our meal, but you installed it there? If you were clean, you would run to us. Come here?"

"It's really unlucky. I thought that everyone would be so crowded tonight, so I could have fun, but I didn't think it would be a disappointment to meet such a person!"

"When she looks like this, she knows that she is a vixen, and she has already worn many green hats to her husband secretly, and she still has a face in there."

"That's right, when I look at my looks, I know it's a prodigious character."

"How do you say that sentence? I remembered! Being a bitch and setting up an archway, is she talking about people like her?"

"Hahaha..."

What Chu Fei said just now aroused public outrage and became the target of many women around. These women are people who have been in the circle for a long time, and they are extremely dirty. They are instinctive to a chaste woman like Chu Fei. Of exclusion.

Hearing these words made Chu Fei extremely uncomfortable. She has always been chaste, and apart from Lin Ziming, she has never had any intimate behavior with other men, let alone flirty! She even said that she has been married for many years and still maintains her innocence. These women have slandered and insulted her nakedly!

“You nonsense! I have never done anything to be sorry for my husband. I am not like you. I am obviously married, and I have come out to steal men and betray my husband!” Chu Fei burst out with excitement.

Her words were undoubtedly a declaration of war to these women on the scene, pushing herself to the opposite side.

“What are you talking about, kind of say it again!”

“Who are you scolding, you are looking for death!”

“What are you doing so much with her, sisters, teach her, give her some color to see!”

“Yes, didn’t she say that she was chaste, we just stripped off her clothes and let her show it to so many men!”

When so many men present heard these words, everyone’s eyes lighted up, showing green light, and they nodded and said okay, okay, their breathing became much faster, and they kept looking at Chu Fei.

When Chu Fei heard these words, she was immediately scared, stepped back two steps, and said in a panic: “Don’t mess around!”
