

## Chapter: 582

Back at the clothing store, Chu Fei had already bought the clothes. She was waiting for him, and when she saw him coming back, she greeted him with a smile and said, "Is the chat finished?"

Lin Ziming nodded and explained, "Feifei, Tao Sanniang and I have something, you must not..."

Before he finished speaking, Chu Fei gently blocked his mouth and said with a smile: "No need to explain, I believe you."

Lin Ziming was taken aback, and said with some disbelief: "Feifei, why do you believe me so?"

Chu Fei's too much trust made him feel uneasy, Tao Sanniang is also a superb stunner, and a smile is a sultry gesture. It is difficult for a man to resist Tao Sanniang's temptation.

Chu Fei said: "Why can't I believe you? After four years of marriage, we sleep in the same room every day. You never cross the thunder pond. Is there anyone in this world who is more Liu Xiahui than you?"

Uh.....

Lin Ziming had nothing to say about this, and always felt weird. Is Chu Fei complimenting him or hurting him.

But Chu Fei already believed him, so he didn't have anything to worry about. Anyway, he wasn't afraid of the shadow leaning, it would be fine if he had a clear conscience.

Next, they didn't have to go around for too long and returned to Yulong Bay, because today Chu Fei came to relatives, and Lin Ziming had no choice but to hold Chu Fei to sleep.

The next day, they got up early in the morning and went to the Civil Affairs Bureau to remarry.

When he went to Ziqiong Company, Lin Ziming held a high-level meeting and asked the company's management to report to him the current Ziqiong Company's progress and how the financial income was.

The market value of Zi Qiong has now exceeded 8 billion, which can be described as an exaggeration. The monthly income is very considerable, but all shareholders with a few shares have made a good profit.

And all of them know very well that the reason why Ziqiong Media can be today is not to say 100%, but at least 80% of the credit comes from Lin Ziming. In fact, many of the decisions Lin Ziming made were so beautiful, not only allowed Zi Qiong to ride the wind and waves, but also avoided several crises, making them bigger and bigger.

They believe that under the continued leadership of the chairman, Ziqiong Media will definitely do better, and it is not impossible to even become the largest media company in China!

Looking at the chairman on the main seat, they made no secret of their

admiration and awe of the chairman. After everyone reported their work, they waited for the chairman's speech.

However, what Lin Ziming said next shocked all of them.

“Now Ziqiong Media has reached a bottleneck in its development, and it should suffer from a lot of joint strangulations of its peers. Now stop for a while, throw out 30% of the stocks on your hands, and cut a wave of leeks. Next, there should be a wave of tough battles. If you want to fight, everyone must prepare for the battle.”

Hearing this, everyone was dumbfounded, what's the situation? Now Ziqiong Media is developing well. The market value is rising every day. The situation is very good. How can it be a bottleneck? Many professionals have analyzed that the market value of Ziqiong Media will be at least 12 billion.

But now Lin Ziming's decision is obviously to restrain himself and abolish his martial arts.

So the conference room was quiet for half a minute. Almost everyone was puzzled and dissatisfied with Lin Ziming's decision, but they didn't dare to put forward a rebuttal immediately because Lin Ziming's coercion was too great. Now Lin Ziming stood there, like a mountain, pressing them out of breath.

Finally, a senior management majoring in finance and the stock market raised a question and said in a cautious tone: “Chairman, according to my experience, the company is now dealing with the development stage, and more than 90% of the projects are in our hands. Among them, it also creates value for the company continuously, and the relationship with peers is also very good. Forgive me for my ignorance, shouldn't it be the case that we should increase large-scale development? How can we sell stocks and stop expansion? Up?”

Another management also said: “Yes, Chairman, the subordinates don't quite understand, is there a problem in which link?”
