

Chapter: 596

Yan Chuang smiled and said to Lin Ziming: “These people you brought don’t seem to be good enough. Even the weakest member of the Northern Sky Club can’t beat me. With your strength, what do you use for security? What to protect the employer and to influence with love? Haha.”

His words aroused a lot of ridicule from the Northern Sky Club.

Even Wang Shougui’s face was hard to look. He clenched his fists and blushed. Originally, he was a good-tempered person. At his age, he has experienced too many things, and his mentality has long been put in a good mood. Angry. But now Yan Chuang’s mockery made him involuntarily angry. If he had this strength, he would want to beat Yan Chuang severely!

But he didn’t dare to do this. At his level, he was afraid that he would be beaten to death by someone.

Therefore, he is also increasingly unable to understand Lin Ziming, leaving good entertainment companies and advertising companies not to do it, and intervening in the security industry. This is not something that cultural people like them can do!

As for Xu Hua and others, they became even more angry, and they all stared directly at each other, and the anger was about to burst out.

But no matter how angry they were, they would not dare to play again, because they knew that they would be beaten when they came out.

In the end, it was the bodyguard team led by Instructor Chen. In view of Wang Shougui’s face, he sent a person to the court to give Lin Ziming a step down. In the end, he was punched by the tower man.

Wang Shougui gritted his teeth, sighed for a long time, and said to Lin Ziming: “Chairman, I said that this road will not work. The security industry is too deep, and it is impossible for us to get the Beitian Conference. Allowed. Why not go back?”

Lin Ziming didn’t speak, and frowned slightly. He didn’t know what he was thinking. Wang Shougui couldn’t help feeling resentful when he saw him like this! I felt that Lin Ziming was too arrogant, and he never took his advice seriously.

Yan Chuang smiled and said: “Wang Shougui, the security industry is not as simple as you think. It is not something you can play with if you have money. I advise you to go back and stop playing security ideas. Fortunately, take a seat today. The person in the branch is me. If I changed to Gu Hanxing, I would have beaten you all before throwing it out.”

When Lin Ziming heard the name Gu Hanxing, his eyes flickered, and he said, “What is your relationship with Gu Hanxing?”

Yan Chuang glanced at him sideways and said, “What does it have to do with you. Now your people have lost, so hurry up and don’t try to protect yourself anymore, you know!”

Now everyone is looking at Lin Ziming, watching a joke, including Xu Hua and others.

Wrong, you Lin Ziming is chairman Ziqiong, very rich, billions of dollars in net worth, but so what? Isn't it the same as being a grandson, or is it the same as being ridiculed? And in front of so many people, the face lost even more!

Xu Hua Lin Ziming comments on maximum, he thought Lin Ziming was his rival, not a good thing, he was just the man to beat Tower, purely Linzi Ming provoke the disaster, the more beaten see Lin Ziming, the more happy for him.

However, at this moment, Lin Ziming smiled, "Who said that my people have lost?"

Yan Chuang said: "It seems that you don't see Huang He's heart dying. Okay, then I will let you give up and see if any of you can beat the big bear, just stand up."

No one dared to stand up, everyone in Lin Ziming's camp even took a step back, saying that they had no fighting spirit.

Seeing this scene, Yan Chuang showed a joking expression, and said: "Your people are already counseled, and they dare not go to war, what else do you have to say?"

Lin Ziming answered right away, but took a quick sip of the tea, put it on the table, and then walked out slowly, saying, "The people I'm talking about include me."

Everyone was stunned when they heard what he said, including Yan Chuang, there was no expectation that Lin Ziming would do such a move.

Then, there was a heat wave of laughter from the audience.

"Hahahaha...I heard it wrong, right? His feelings mean, is he going to challenge Daxiong?"
