

Chapter: 626

The Ugly Master said meaningfully: “Master Nishang is also for your own good.”

Lin Ziming was noncommittal and said, “Make arrangements for me. I want to see her.”

The ugly master was silent for a while, and said: “When the time is right, Master Nishang will come out to see you.”

Now that the Ugly Lord’s words are all here, then Lin Ziming has nothing to say.

Reason tells him that this so-called adult in neon clothes should be malicious to him, and one day, he will be able to see neon clothes.

What he needs to do now is to improve his strength in the shortest possible time!

After Lin Ziming and Chou Ye left, Ouyang Feng and Ouyang Xuehai also had a chat.

“Father, it seems that Lin Ziming is very loyal to his wife. It is not easy to recruit him through marriage.” Ouyang Xuehai said with a worried look on his face looking at the direction where Lin Ziming and Chou Ye were leaving.

Ouyang Feng said: “There is no absolute loyalty in this world. As long as the temptation is big enough, Lin Ziming will definitely be tempted.”

Ouyang Xuehai said again: “Father, I don’t understand. Does Lin Ziming really have such a great value? Our Ouyang family is also one of the best in the south. As for us to win him with such a low profile?”

Now Ouyang Xuehai has the loyal and honest appearance in front of Lin Ziming, frowning, and his eyes are full of wisdom. Indeed, a person who can achieve his position can’t be as simple and honest as the surface, he must have enough city government and scheming, otherwise he will be played to death every minute.

“Hahaha...” Ouyang Feng suddenly laughed, full of breath, not at all like an old man in his eighties, and then a terrifying spirit burst into his eyes, and said: “Two The eighteen-year-old master of the innate realm is a rare and rare existence! Besides, he still swallows the innate realm that the superb cleansing pill has broken through. Such a talent, looking at the whole country, may only be him, Lin Ziming! You! Say he has this value?”

Ouyang Feng stared at his son with piercing eyes.

Ouyang Xuehai was also shocked by what his father said. After thinking about it carefully, he still had some doubts and said, “My father, I don’t understand that innate realm is really that powerful? It’s the 21st century. In the era of hot weapons, personal combat capabilities can no longer play any role, right?”

Indeed, this is something that Ouyang Xuehai still didn’t understand. After

he learned about Lin Ziming's life, he admired Lin Ziming very much and knew that Lin Ziming was an individual talent, worthy of the Ouyang family to recruit. However, talents belong to talents, but it is not enough to let the Ouyang family put down their attitude and recruit them through active marriage, right? Besides, Lin Ziming is already married. If this spreads out, it will have an impact on the reputation of Ouyang's family.

Ouyang Feng shook his head and said, "Xuehai, you have been in business since you were a child, and have never practiced, so you are not interested in martial arts. If you don't take it seriously, it is normal.

After a pause, Ouyang Feng continued: "Under the peak of the acquired day, they are all mortals. No matter how they can fight, they are just a martial artist. It is not worth our Ouyang family to draw in like this. This is a good thing. However, when it comes to the innate realm, then It's completely different! The innate realm, also known as the transcendent realm, does not exceed three digits in the world for people who can reach this realm. In the innate realm, it is not just as simple as force to improve! The most important thing is right. The human body's thinking, IQ, sixth sense, etc. have all been greatly improved. It is no exaggeration to say that Lin Ziming has jumped out of the category of mortals and is considered a half land fairy. Do you think such a person is worth us? Put down your stance to solicit?"

After hearing this, Ouyang Xuehai was completely shocked!

He opened his mouth wide and his expression was incredible.

Ouyang Fengzheng made a mistake. He had been in business since he was a child and was not interested in martial arts. He thought it was an inferior sport. He had always disapproved of it, so he didn't understand the power and preciousness of the innate realm. Now that Ouyang Feng finished speaking, he was completely shocked and opened up a new understanding.
