

Chapter: 682

After Tao Sanniang was gone, Lin Ziming was really relieved and rubbed his slightly swollen temples. He was really helpless. I never thought that Tao Sanniang really liked him. , And have to come to the door in the middle of the night to dedicate himself.

If his willpower were not strong enough, this would have been a big mistake. But Tao Sanniang's charm is really big, she can be called a fairy, if you change to another man, you can guarantee that you can't resist it, and you have already started to make mistakes.

As for being seen by Du Xinli again, he didn't take it to heart. Compared to Gu Xuan, Du Xinli was just an ant, not worth mentioning.

There was a fire in his dantian, so he had to take a cold bath and put out the fire forcibly, otherwise he wouldn't have to sleep tonight.

After Du Xinli returned to his room, he lost his temper, smashed a lot of things, and hated Lin Ziming.

Because he entered the hotel very early after he arrived today, he didn't know about Gu Xuan and Lin Ziming. He thought that Lin Ziming was just an ordinary person. He made ten thousand determinations in his heart. He will officially participate in the hunting contest tomorrow. It is still cruel to kill Lin Ziming, so that he can vent his hatred!

Soon Lin Ziming got rid of all distracting thoughts and re-entered the state of lucidness. After another two hours of meditation, he began to go to bed.

In fact, when he reached his state, even if he didn't sleep for three days and three nights, he could still maintain a full spirit.

But tomorrow will be a fierce battle with Gu Xuan. He must improve his state to the best. Normally he can display 100% of his strength, but now he must display 120% of his strength.

Finally, when the first ray of sun shone into the room, Lin Ziming seemed to have a reaction, and opened his eyes on time.

Then he got off the bed, briefly moved his bones, put on his clothes, and started going downstairs...

When I came down for breakfast, I could find that the atmosphere now was more solemn and hotter than last night, and many people couldn't hide their excitement on their faces.

Du Xinli saw Lin Ziming, he walked over, stopped next to Lin Ziming, and deliberately said gloomily: "You are dead, I will cramp you and let you die in despair and pain."

Facing Du Xinli's threat, Lin Ziming frowned slightly. He became a little impatient, and said directly to him, "As you know you, Sanniang Tao, I don't want to be familiar with you. If you really If you dare to trouble me, I'll interrupt your doglegs. Okay, now I'm going to fuck you."

Du Xinli's eyes were fierce, and Lin Ziming's remarks were simply looking

for death, and he smirked, “Well, you will wait for Lao Tzu. If you don’t cramp you, Lao Tzu will not be named Du.”

Faced with his threats, Lin Ziming responded with only two words: “Sabi.”

This time Du Xinli gritted his teeth even more with anger.

He has never hated a person so much. Lin Ziming is the first one. When the hunting competition starts, he wants Lin Ziming to live rather than die. Anyway, in the hunting contest, there is an unwritten rule that murder is tacitly approved, and even if you return to the society, you can’t be held accountable!

Many people have also noticed the tit-for-tat between Du Xinli and Lin Ziming just now. They all looked at Du Xinli with weird expressions, thinking that Du Xinli was a fool, knowing that Lin Ziming is a master of innate realm at the same level as Gu Xuan, you What kind of enthusiasm is a kid at the peak of the day after tomorrow?

It’s a pity that Du Xinli didn’t know about this. Seeing everyone’s eyes, he thought these people were a joke. He was provoked by Lin Ziming, which made him even more determined to kill Lin Ziming.

After eating breakfast, how long does it take for the hunting contest to begin. After the organizer’s introduction, Lin Ziming thoroughly understood the rules of this hunting contest.

After listening, it was really exciting.

It turns out that the so-called rules in this hunting competition are that there are no rules, and all participating players can hunt as much as they want. Pay attention to hunting prey, not limited to these beasts in the forest, but also prey in the eyes of the contestants, regardless of type. This means that people can also be hunted.

Of course, it is not endless hunting. Each person can only hunt two people at most, and each player has an alarm device. If this alarm device is pressed, it is equivalent to withdrawing from the game. Others cannot Hunting again, once the hunt is forced, it will be hunted down by the organizer.
