

Chapter: 683

In fact, every year, contestants will die in it, some are hunted, and some are killed by wild beasts.

Anyway, in a word, this is a very primitive and cruel game. People who are not very courageous and confident enough in themselves would not dare to participate in such an exciting game!

This year there are a lot of people participating in the competition. There are four to five hundred people in total. Most of them are masters in the master realm. A small part of them are ordinary people who only reach the level of martial arts. There are also some masters of the acquired peak. As for the extraordinary masters of innate realm like Lin Ziming and Gu Xuan, there are very few.

Most people have armed themselves, all kinds of high-tech equipment are put on them, and there are many weapons with great lethality. However, the organizer stipulates that guns cannot be used, at most only crossbows can be used.

As for Lin Ziming, he just took two daggers and went in, and there was nothing on his body that was impervious to high-tech battle suits. In his realm, wearing these is not useful.

His real threat did not come from the beast, but from Gu Xuan.

The people around him felt that he was too arrogant when they saw him playing so lightly.

After everyone selected equipment and weapons, they boarded the helicopters and dropped them into different places in the deep forest.

The large forest chosen this time is particularly large, with an area of hundreds of kilometers. Different players are placed in different areas to ensure relative 'fairness'.

Then, on each player, there is a nameplate that says his identity.

And this nameplate can be obtained by grabbing each other. In the end, whoever has the most nameplates is the leader of this hunting competition, that is, the champion.

The champion can get a mysterious gift from the organizer.

This is another important reason why so many people come to participate in the hunting contest every year.

Excitement, prizes, and a channel for revenge.

After Lin Ziming figured out the rules, he was also very excited.

The organizer stipulates that players can act together in a team, and the maximum number is no more than five people. Most of the players are teams in threes and fives.

A few people like Lin Ziming walk alone.

Lin Ziming was thrown into the deep forest. As soon as he jumped from the

plane, he encountered a group of wild wolves hunting. Seeing him appear, the group of wild wolves rushed over.

He couldn't see it. When the two wolves rushing in front of him rushed in front of him, he kicked out with two legs, kicked on the heads of the two wolves, and flew out directly, killing him.

When the other wild wolves saw this situation, they were all frightened, screamed, turned and ran.

This hunting competition lasts for one week. During this week, all players must stay in the forest, eat and drink Lazarus in it, and completely restore the life of primitive people. If you can't make it any longer, press the alarm device. , Soon there will be staff to rescue, but it also means losing the qualification for the game.

Already this week, everyone is heading towards the center of the hotel. There will be no people who retire at that time. They will run into each other and grab the nameplates until the last person is left, who is the leader.

Lin Ziming was not interested in this leader, he just wanted to kill Gu Xuan. Two days later, Lin Ziming had already killed two wild wolves, a wild boar, and a brown bear. As for other animals that were hostile to him, he had let them go.

Finally, on the third day, he met the first player gang. It wasn't anyone, but it was Du Xinli. This was a coincidence.

Du Xinli was also taken aback when he saw him, and then burst into laughter, showing a hideous, cold expression.
