

Chapter: 812

The man in the suit and sunglasses didn't give Lu Fan any face, making Lu Fan instantly lose face, his mouth twitched twice, especially when Tao Sanniang was here, his face was even more unbearable, and his face was cold now. Said: "Hey, show me respect when you speak!"

Then he straightened his waist, coughed twice, and said proudly: "My name is Lu Fan, the vice president of Chenxi Group!"

However, the man in the suit and sunglasses sneered disdainfully, "I have never heard of any shit Chenxi Group. Hurry up and roll me aside, or I will throw you to feed the fish!"

The man in a suit and sunglasses has a tough attitude, and he swears when he points to Lu Fan's nose.

Now Lu Fan's expression became even more unbearable. The other Tao people in the room looked at him with suspicion, especially Tao Sanniang's sneered expression, which made him even more uncomfortable. He immediately increased his voice and said in annoyance: "You are so courageous, even I dare to threaten? It seems that you are living impatiently!"

The man in the suit and sunglasses was a little bit embarrassed when he saw Lu Fan's so confident look. Could it be that Lu Fan is really a big man he can't provoke?

So he asked in a deep voice: "Dare to ask you who?"

Seeing that the man in suit and sunglasses eased, Lu Fan regained his pride, "Listen well, my uncle is the lord of Yuancheng City, Lu Yingjie! I said you are very courageous, dare to be on the ground in Yuancheng City. With loan sharks, 30 million in principal, dare to roll to 100 million? Still dare to threaten Tao Ziqiang's life safety in front of me? I don't know if I tell my uncle, the city lord, what will happen to you? Yeah!"

When Lu Fan said these words, he was full of official tone and full of domineering, which excited all the Tao family members present. Tao Ziqiang flushed with joy and wept with joy, thinking that he was saved.

Feeling the admiration and gratitude of the Tao family to him, the smile on Lu Fan's face became even more intense. At this moment, he felt that he was the savior of the world.

However, Lin Ziming could see that the other party didn't even place Lu Fan's identity, his face was just a little surprised, and he didn't have any fear. "City Lord Lu Yingjie is your uncle?" The man in suit and sunglasses asked with a smile.

Lu Fan was trembling now, as if he had seen the scene of the other person being scared and asking for mercy, so he didn't see the other person's expression, it was not fear at all.

"Yes! Why, are you afraid now?" Lu Fan sneered and said, "Unfortunately,

it's too late. This is an illegal act for you. It's enough to catch you and get hold of it!"

Tao Ziqiang was even more excited when he heard it. He quickly said to Lu Fan, "Fortunately, Mr. Lu, you are here. You are my savior. Yu Rong is really a blessing for her to marry you for ten lifetimes!"

Other Tao family members also flattered, "Yeah, yeah, Lu Gongzi is really amazing, and their identity scares them stupidly."

"I think, you should tell Lord City Lord, bring them to justice and take them to jail!"

Peng Yulu also stood up and said, "Lu Gongzi, this time our Tao family really thank you so much. Let's stay overnight tonight. I will let Yu Rong make your bedding."

When Lu Fan heard this, his eyes lighted up. As an adult, he didn't even know what Peng Yulu meant. It was to let him and Tao Sanniang cook mature rice.

He couldn't help looking at Tao Sanniang, and seeing Tao Sanniang's hot body, his heart was hot and he swallowed constantly.

At this moment, the man in the suit and sunglasses burst into laughter. Not only him, but the other men in the suit also laughed. Looking at Lu Fan, he seemed to be watching a joke.

Lu Fan was upset in an instant, he cursed: "Hey, the surname is Ding! You still dare to laugh, do you really think I dare not tell the city lord!"

The man in the suit and sunglasses stepped forward, staring at Lu Fan, and said disdainfully: "What big person I said, it turned out to be Lu Yingjie's wasteful nephew, cut it!"

He called the city lord a trash, and his attitude was full of disdain and contempt. He didn't put Lu Yingjie in his eyes at all, making Lu Fan stunned in an instant.

As long as the other Tao family members had their eyes wide open, they couldn't react for a while. In their opinion, City Lord Lu Yingjie was the most powerful person in Origin City. Now, President Ding, dare to insult Lord City Lord in public?

Even Tao Sanniang was surprised. As a native of Yuancheng, she naturally knew what the city lord represented.

"You, you..." Lu Fan was furious, pointing to the nose of the man in suit and sunglasses, and yelled, "You dare to insult Lord City Lord in public, you are looking for death! I fucking call the City Lord now, Let him punish you!"

With that said, he was about to take out his cell phone and call the city lord. The man in the suit and sunglasses didn't stop him, and he looked at Lu Fan coldly, just watching a jumping clown.
