

## Chapter: 838

The sudden intrusion of these two foreigners broke the calmness of the scene, causing serious dissatisfaction with Smith, Connor and others.

Especially when the Chinese are present, they are even more angry. How can these noble white people show such a flustered side? Isn't that a joke by the Chinese!

Smith cursed angrily at the moment: "Arisk, Angus! What are you two panicking, has the earth been attacked by Martians!?"

Connor was also full of dislike, waiting fiercely for Arisk and Angus.

They ran up, they were scared by Lin Ziming just now, gasping for breath, ignoring the anger of Smith and Connor and others, after they gasped for breath, they said loudly, "No. That's a Chinese man, it's coming up!!!"

"what?"

Smith was stunned at the moment, he was a little stunned, unable to react for a while, and said, "Which Chinese?"

Because of their panic, they attracted other foreigners, including many Chinese who were enduring humiliation and working, and they also looked over at the same time.

Especially when they heard the words "Chinese", they were very concerned. Angus swallowed hard, and said, "It's the Chinese who defeated Mr. Connor last time. Now he is here!"

When this word fell, the audience suddenly quieted strangely. Everyone opened their eyes and stopped talking. As long as Connor, his face suddenly became gloomy, and the corners of his mouth twitched fiercely! The words Angus said just now, like a slap in the face, slapped him hard on the face.

Smith reacted. He opened his eyes wide and said, "You mean that Lin's name..."

He didn't even finish his words. At this moment, there were footsteps and screams from the corridor outside the door.

Arisk and Angus' faces suddenly changed, they began to panic and frightened, their bodies trembling, and they said, "Here, he's here..."

For a while, everyone's eyes looked towards the door.

Soon, in everyone's sight, there was a scene that shocked and angered them. I saw two foreigners with their upper bodies covered in blood at the same time walking in front. Their bodies were covered with wounds, and the blood was still pouring out, dripping on the ground bit by bit.

These two people are naturally Tony and John!

Behind them were four foreigners who were equally frightened, with their legs swaying. They were also scarred, and Lin Ziming gave him a severe lesson.

From behind, Lin Ziming walked in slowly with his hands in his pockets.

"Smith, Mr. Connor, save me, save me..."

“Please save me, devil, that Chinese is a devil!”

Tony, John and others, seeing their companions in a room, showed a strong appeal for help, and ran towards them with the strength of feeding.

This scene was extremely shocking to everyone in the room, especially those Chinese who were working, they were dumbfounded.

Because they have worked here for so long, they have never seen such a miserable and embarrassed foreigner, especially their kind of fear and panic, which deeply stimulated their nerves.

In their impression, foreigners are extremely arrogant and arrogant, even in China, they are walking sideways, most people can't help them.

But now, there is someone who abused them like this?

For a time, these Chinese people focused their eyes on Lin Ziming. When they saw Lin Ziming coming by himself, they were surprised and shocked, and they began to worry and despair again.
