

## Chapter: 840

Liu Jie is a university student from the countryside. Ten years ago, he came out to work in Hwaseong with lofty ambitions. He believed that with his hard work and wisdom, he could create a world in Hwaseong.

But it turned out that reality gave him a slap in the face. After he came to Hwaseong City, he was frustrated everywhere, and his original passion was wiped out. Then slowly, he confessed his fate, especially when he invested in a business two years ago. His failure caused him to owe a debt. Several times he thought about giving up on himself, but for the sake of his wife and children, he could only stand up and go to work.

But at his age, he has no special expertise, and he can only get paid by selling his labor.

This way money is too slow, too slow...

Finally, four months ago, he saw the recruitment here and asked for a cleaner, with a monthly salary of 13,000 yuan! This salary, in Hwaseong City, was considered a middle-level income, and his heart was instantly moved. Without talking about work, he signed the contract without seeing it clearly.

He originally thought this was the beginning of his good luck, but he never thought that this was just the opposite, it was the beginning of his nightmare. There are more than 20 foreigners here, all of whom are tall and mammoth men. They are extremely arrogant and domineering, and they like to curse at every turn. They are also extremely ugly, and sometimes they beat people with their hands.

Several times he thought about quitting his job, but for the 13,000 yuan monthly salary, he gritted his teeth and stood up.

But as a result, these foreigners actually refused to pay their wages, so they paid one or two thousand yuan every month to hang them!

Especially what happened today made him feel desperate. He hated this group of foreigners so much. He had thought more than once that a powerful Chinese compatriot appeared, and he severely taught this group of arrogant foreigners!

He is not the only one who has this idea. Almost all Chinese people have had this idea, but they all know that it is unrealistic.

But what they didn't expect was that such a person actually appeared, appeared strong, and beat a few foreigners, especially the two named Tony and John, it was too miserable.

When they recovered, they were extremely excited and clenched their fists, especially when Lin Ziming yelled out those words, their whole body began to boil with enthusiasm!

Liu Jie was even more excited and shed tears. He felt that the blood that had disappeared deep in his heart was awakened by Lin Ziming!

He threw the rag in his hand vigorously and yelled, “Well said! You foreign devils, who gave you the courage to bully my compatriots on the territory of my country!!!”

Liu Jie stared at all foreigners including Smith and Connor.

His performance has awakened the passion of other Chinese people. As for those foreigners, their complexion is even more ugly.

In the eyes of these foreigners, Liu Jie was just a beast at work. He even dared to resist them, so he was looking for death!

Immediately there was a tall white man, pointing at Liu Jie and cursing: “Liu Jie, Hua Guozhu, you dare to offend our noble white man and look for death!”

With that said, he was about to act on Liu Jie.

However, the other Chinese beside Liu Jie now stand up together, throwing away the working tools, rags, brooms, and mops all on the ground, and they stand in front of Liu Jie. , Straighten your chest to face the white man, it means you dare to move Liu Jie and go together.

When the white man saw this scene, some fear flashed in his eyes, and he dared not act rashly.

Lin Ziming’s eyes were deep. At this moment, he felt a kind of national meaning, and the blood on his body was boiling. This was something he had never experienced before.

In the past, China was backward and was indeed bullied and beaten by foreigners, but now, after a hundred years have passed, China has become stronger. The blood, backbone, and pride of the nation have all recovered at this moment. Why should you be afraid of foreigners!

“Good! Good! Good!”

Lin Ziming said three good words and walked over to Liu Jie and his fellow citizens, his eyes filled with appreciation and excitement, “You dare to stand up and resist, it’s all good.”
