

Chapter: 846

The audience was silent.

The white supernatural person died in front of Liu Jie and the others, and the hideous expression left an indelible impression on them.

Now they looked at Lin Ziming and couldn't describe it as shock.

At this moment, in the huge field, there were only Chinese standing still, and 26 corpses lying on the ground, all foreigners.

Lin Ziming adjusted his breathing slightly, regardless of what he had done just now, the appearance of a lot of exercise, in fact, for him, it did not consume a lot of physical strength. Even his clothes are very clean now, like doing a trivial thing.

He now sees Liu Jie and the others in fear, but he has a headache. His performance just now scared these ordinary people.

So he smiled like a spring breeze, and said with a smile: "Don't be afraid, they deserve it."

After hearing Lin Ziming's words, they slowly recovered, but they did not dare to speak immediately. Instead, they lowered their heads and dared not look straight at Lin Ziming. After a while, it was still Liu Jie who spoke first, "Mr. After so many foreigners have died, I am afraid that they will be sentenced. Otherwise, you should run, we will not betray you."

His words attracted the approval of other people, and they also echoed: "Yes, boss, you should run away, if you are caught, you will be shot!"

"Boss, you must not put yourself in..."

They persuaded Lin Ziming with every word and word, making Lin Ziming's heart warmer, and he could see that these people really thought about him.

He smiled again and said: "Don't worry, I'll be in trouble. If a policeman comes to you, just record the confession according to the facts, don't hide it."

"Boss..."

With tears in his eyes, Liu Jie stepped forward to hold Lin Ziming's hand, "You made a lesson to these foreign beasts because you saved us. If we still betray you, are you still a human! Mister, you should go. We will always remember your kindness and will never forget your unyielding and pride as a Chinese!"

Others also surrounded Lin Ziming one after another, thanking and admiring Lin Ziming, and told Lin Ziming to leave as soon as possible, so as not to be caught.

Lin Ziming was also moved. For the first time, he felt the most sincere feelings between being a Chinese and his compatriots!

He also looked down and said, "My fellow citizens, don't worry, I really won't be okay."

Those people didn't seem to be joking when they saw Lin Ziming's seriousness. Yeah, with Lin Ziming's performance just now, perhaps, it was really nothing.

At this moment, in their minds, Lin Ziming has become a god-like existence. Two minutes later, Lin Ziming and the others left.

The two men and women in military uniforms just came up and saw the corpses all over the floor, and their faces showed shocked expressions!

"This Lin Ziming, with such a big hand, actually killed so many foreigners... Isn't he afraid of getting into trouble!"

"It seems that we still underestimated him. He just discovered our existence and guessed our identity. He was so bold, and even deliberately showed it to us! No wonder he can cultivate until he is young. At this level, even Wu Meizi is not his opponent."

"This Lin Ziming is really a big trouble! What should I do now?"

"What else can I do? Call the boss and let them deal with it. However, Lin Ziming did a good job this time. The foreigners themselves had murders, especially this one named Kang Na. I didn't know that he killed us. How many boxers are still doing majestic blessings in China, bullying the people, and punishing them!"
