

Chapter: 975

Hey, it seems that he is really a lover, unknowingly, there are many more women around him.

After experiencing so many things, Lin Ziming has become more and more stable. He never puts eggs in a basket. Even if there are neon clothes to help him, he must prepare for both. Taking advantage of this time, he did it again. Many charities have further consolidated his social status, and his popularity in the circle has slowly increased. In this way, when Luo Tian organization really wants to move him, he will have to weigh it carefully.

Lin Ziming is now the fighting instructor of Xuanyuan 3rd place, and he has to coach at least twice a month.

Since that day, after he abused all the soldiers of a group with one enemy and one hundred, his reputation has also risen in the third place of Xuanyuan. When many people saw him, they were very polite and called instructor Lin respectfully.

Especially those soldiers in the fourth group are now convinced of him, and in front of him, they no longer have a temper.

Of course, there are also people who disagree with him. It is the Fang team at Xuanyuan No.3. They nodded at most when they saw Lin Ziming. When they were in a good mood, they would call out instructor Lin. Ignore it.

Lin Ziming didn't know anything about this phenomenon. Anyway, he came to Xuanyuan 3 places just to be an instructor. Besides, he didn't have any position. As for the Fang team, he didn't have too much interest. .

Now that he has consolidated in the fourth stage of the Innate Realm, he has slowly begun to explore the fifth stage, the realm of Dzogchen.

On this day, he finished teaching the last day of the month and was about to pack his things and go home. At this time, there were a few hurried steps towards his dormitory.

"Instructor! Instructor! It's not good, something happened!"

"Instructor, something went wrong!"

"The people in the Fangs group are too much, they actually used such a heavy hand, it's damn..."

"Instructor..."

After a while, four people hurried into his dormitory. It was his soldiers. Their faces were full of anger, and they clenched their fists.

Lin Ziming was taken aback when seeing them like this, and asked, "What happened?"

One of the soldiers came out and said angrily: "Instructor, Daniel and the others were beaten by members of the Fang Team!"

The soldier next to him also said: "Yes, they are too much, they beat Daniel and the others particularly badly."

"It's not a big deal, the point is, they still curse, saying that our fourth team

is all rubbish, and they say that the instructor is rubbish too! They are simply deceiving people too much!”

For a moment, the four soldiers all spoke excitedly.

Under their explanations, Lin Ziming probably understood what happened. It turned out that it was the soldiers of the Fangs team and abused the soldiers of the fourth team. The reason was that there were some quarrels, their fangs. The group was particularly arrogant, hitting people when they didn't agree with each other, and the shots were heavy, and they also said a lot of ugly things.

Lin Ziming frowned after hearing this. He knew that there would often be fights in the three places of Xuanyuan. As long as they didn't cause too much damage, they wouldn't care much.

“Listening to what you just said, it's a dozen of you, but you can't beat the three of them?” Lin Ziming stared at them and said.

After they heard it, they immediately blushed, lowered their heads, and muttered in a low voice. They couldn't talk about him.

Seeing them like this, Lin Ziming knew that he couldn't ask anything. He stood up and said, “Okay, you don't have to be like this, take me to see.”

When they heard Lin Ziming's intention to intervene, they immediately became overjoyed. In their opinion, if Lin Ziming made the move, then the gang of fangs team would definitely be unlucky!
