

## Chapter: 983

In particular, Lin Ziming's majesty simply didn't put Changfeng, Green Wolf, and Agni in the same place. He was completely teaching these three naughty bear children as an elder.

For a moment, everyone's eyes looked at Lin Ziming, and they began to change, and they no longer had the contempt that they had just now, and unconsciously, they were a little more in awe. As for the soldiers in the fourth group, it goes without saying that they worship Lin Ziming to the extreme now, and the light in their eyes can't stop them! And they are proud from the heart, this is the instructor of their fourth group, invincible instructor!

Both Changfeng and Qinglang's expressions became extremely solemn at this time, and they no longer had the contempt that they had just now. They had no idea that Lin Ziming was so powerful that even the fire was in his hands, and he did not fight back. Power.

However, among the three of them, Agni is not the strongest, but the weakest. Changfeng is the strongest, even if asked in the Fangs group, they are all ranked.

Faced with Lin Ziming's provocation, Chang Feng laughed suddenly, not having the smell of gunpowder just now, but with a little more respect and said, "I looked down on you just now. I didn't think you still have some skills. In this way, for today's things, let's leave it alone, and we will leave now."

After speaking, he turned around, ready to leave.

But how did Lin Ziming let them go, and immediately said, "Want to go? Yes, you have to apologize to every soldier in the fourth team."

Chang Feng frowned, looked at Lin Ziming coldly, and said, "Instructor Lin, I admit that you have some skill. I told you the wrong thing just now. But, I advise you, just accept it if you see it right. , Our Fang team never apologized to the other four teams. This is the rule set by our chief instructor."

He directly moved the chief instructor of the Fangs group out, trying to scare Lin Ziming back.

However, he still underestimated Lin Ziming too much.

"I count to three, you don't apologize anymore, don't blame me for teaching you." Lin Ziming said lightly.

Qing Lang said to the side, "Chang Feng, I'm afraid that he will be an egg. If the three of us get on together, why can't we beat him?"

Agni also gritted his teeth and said: "Yes! The three of us are playing together, even if the innate realm masters have to retreat by three points! This guy is just a little stronger, and the fighting level is just as good!

He lost a big face in Lin Ziming's hands just now, and wanted to find the

place back all the time!

Chang Feng was said to be moved, his eyes gleamed with all kinds of brilliance, staring at Lin Ziming, and finally he snorted and said: “Toast without eating or fine wine, green wolf, raging fire, let’s go together, let him see and see. Our Fang team is really amazing!”

“Great!”

“Great!”

Both the green wolf and the raging fire became excited, and in their eyes, there was an infinite fighting spirit and a raging fire.

Everyone present felt their boiling fighting spirit, forming a mental storm that shocked everyone.

Lin Ziming sighed, shook his head, and said, “You don’t shed tears without seeing the coffin. What’s more, I will replace the instructor of the Fang team today and teach you a good lesson.”

When Lin Ziming’s words fell, Changfeng, Qinglang, and Lihuo all rushed towards Lin Ziming, attacking from three different directions at the same time. The speed was fast to the extreme, and the coordination was excellent and flawless. This is the unique combination technique of their Fang group, which has increased the power several times.

But for Lin Ziming, there were too many flaws. It was just a thought. He had at least thought of no less than a hundred methods that could be cracked in his mind.

But he still used the simplest and rude one. He suppressed it with his strength. When the three of them arrived at the same time, he kicked out with three kicks, kicked them on their lower abdomen, and kicked them upside down. , Formed a parabola, and flew more than ten meters in the air before falling.
