

Chapter: 985

The people in the other three groups are particularly envious now. They all know that what makes the Fang group apologize obediently is because of Lin Ziming's face.

"Okay, all are gone." Lin Ziming saw that the matter had been resolved, and waved to let them all go.

Changfeng, Qinglang, and Agni now completely lose their tempers and have to leave in a desperate manner.

Lin Ziming did not continue to stay, but walked out of the training hall. Behind him, a dozen soldiers from the fourth group followed.

When they reached the dormitory all the way, they were still following. Lin Ziming couldn't help but stop, frowned, looked at them and said, "What are you doing with me?"

Daniel came up, bowed deeply to Lin Ziming, and said sincerely, "Instructor, thank you so much just now!"

The others also bowed together, full of gratitude and admiration.

Lin Ziming showed a helpless smile, and said, "As your instructor, I should give you a helping hand. Don't thank me."

Daniel shook his head and said: "It's not like that, instructor! Before you came, we were rarely bullied by the Fang team, but our former instructors never dared to help us out."

Lin Ziming was taken aback when he heard this, and asked, "Why?"

Liu Feng took a deep breath and said, "Because of the instructor of the Fang Team."

Hearing this, Lin Ziming was so clever, he immediately guessed that he was very clever.

"Yes, the instructors of the Fangs group are notoriously short guards. Anyone who bullies his soldiers will be punished by him, even the instructors of other groups are no exception."

"Before, our instructor didn't dare to offend the instructor of the Fangs team. Even if we were beaten, we didn't dare to stand up for us."

"Not only our fourth group, but the instructors of other groups are the same. The instructors of the Fangs group are too domineering, and even Chief Sun dare not offend him much."

"Instructor, you are the first instructor who dared to stand up for us, we, thank you very much!"

They all expressed their gratitude to Lin Ziming in every word.

Lin Ziming smiled, and he waved his hand and said, "I can't control what other instructors do. Now that you are my soldiers, you have been bullied. I will naturally find the place back."

When they heard Lin Ziming's words, they were even more moved, and at the same time they became more worried. Daniel sighed and said, "Ah!

Instructor, you can find a place for us, but we are causing you trouble, Fang. This instructor of the group is very difficult to deal with.”

“Yeah, we are all to blame...”

They began to feel guilty, and when they thought of the short-guard temper of the tusk group instructor, they all became worried for Lin Ziming.

Lin Ziming was a little interested seeing them like this, and asked, “The instructors of the Fang Team are terrible?”

All of them nodded vigorously, their eyes showed awe, admiration, fear...

At the same time, on the side of Changfeng, Qinglang, and Agni, they returned to the Fangs group with many people pointing on the road.

They looked like this, and they were immediately spotted by the other Fang team members. Someone frowned and asked: “Chang Feng, Green Wolf, Agni, how did the three of you do this? You were bullied by that group of Dragon Blood team? ”

The Dragon Blood Team was another top team at Xuanyuan Third, and its overall strength was not below the Fang Team.

Seeing that Changfeng, Qinglang, and Agni were seriously injured, they immediately thought of the Dragon Blood Team.
