

## Ancient ST 2121

### Chapter 2121 - You Are No Longer A Virgin

Qing Shui shook his head. At this moment, he noticed Nuo Lan's expression which looked like a smile, but also not like it.

However, Beihuang Yu said persistently, "I won't quit. It doesn't matter if you like Nuo Lan, we can fight for her fair and square.

Qing Shui looked at Beihuang Yu, "Do you really find that necessary..."

Bei Huangyu looked at Qing Shui, speechless expression covering his face, "What's wrong? Are you thinking that Nuo Lan won't fall for me? Girls don't necessarily like men who only know how to fight."

Qing Shui smiled. To think that he would also have times when he behaved like a scoundrel. When they first met, Qing Shui thought that he was a simple-minded man who had a good heart. But from the way he was speaking now, he might not necessarily be the same as how he looked.

"For now, I can't promise you anything. Let's just go with the flow. What's yours, will always be yours. You can't force it."

"The truth is one must fight for their own destiny even against the heavens. Happiness must be pursued. Sometimes, if you don't do it, you will end up regretting in the end." It's obvious that Beihuang Yu didn't agree with what Qing Shui had said.

Naturally, Qing Shui also understood what he meant, in fact, fighting for your own destiny might sometimes determine the outcomes of everything. Qing Shui was only saying the things before from his heart, and it was also a method of retreating first in order to advance further. In addition to that, for the time being, Qing Shui also didn't know how he could fight for Nuo Lan.

After all, he wasn't just toying around with her. Qing Shui had treated all of his girls seriously. If he liked a woman, he would treat her very well for the entire lifetime. Alas, he was no longer able to give a woman his perfect love, thus, he could only devote his full heart to each of them.

"Alright, let's stop talking about this and drink some wine. Though I may not be a good man, truthfully speaking, you are the first person who managed to earn my admiration." Beihuang Yu said.

"Hearing your tone, it seems there is someone who you don't admire from your heart." Nuo Lan said at this moment.

"Of course there is. The young master of Demons Gate for an example. That dude is crazy, plus his age is double mine. Though he may also be young, if I am the same age as him, it's unknown who will be the stronger one between us. However, I can confirm one thing. If you are at the same age as him, even if I fight together with him, we still won't be able to beat you." Beihuang Yu said speechlessly.

Beihuang Yu was unaffected by it. He was also a straightforward person and would say whatever that went into his mind. Sometimes, this was how humans tended to act. Two people, who could be considered love rivals with each other, were also able to become best friends.

For the time being, Qing Shui wasn't sure if he could be considered friends with Beihuang Yu, but he didn't repel him. Even though Beihuang Yu might have a high status, and his strength was also formidable, because of how the Divine Palace was related to the Taiyi Immortal Palace, the each shared a good relationship with each other up to a certain extent. At the very least, they could be considered allies.

"Let's just drink here. There is no other place better than here." Qing Shui concluded.

"Hmph, I would have forgotten if you never mentioned about it. People always said that this place has delicious food as well as a Miraculous Physician working here. Since I have been very busy, I never had the time to taste it. Let me confirm whether the rumor is true today! Oh yes, are you really a Miraculous Physician?" Beihuang Yu gave Qing Shui a suspicious look.

"Of course!"

"Then can you please prove it to me? I am very curious, considering how formidable your cultivation is, how do you have the time to learn about the way of medicine?" Beihuang Yu asked curiously.

"You aren't a virgin anymore." Qing Shui said seriously after observing Beihuang Yu for a while.

"Sh\*t!" That word immediately came out of Beihuang Yu's mouth. He was shocked speechless.

Nuo Lan shot a grumpy look at the both of them, "Can both of you please act more seriously?"

Without a doubt, when it came to the food and wine, no complaints could be made to the Imperial Cuisine Hall. The moment Beihuang Yu put the food into his mouth, he immediately looked at Qing Shui, "Did you prepare all of these?"

"Precisely." Qing Shui proudly looked over Beihuang Yu.

"I must admit that your cooking skills surpass even your cultivations!" Beihuang Yu said in a serious tone.

"I have always been proud of my cooking. It is indeed because all of my women have tasted my sinful cuisine that they realized their life will become very boring after I left. That's why each of them made up their mind to marry me." Qing Shui said as he reminisced the past.

Both Beihuang Yu and Nuo Lan stared blankly at Qing Shui. Moving on, Beihuang Yu once again moved his sight onto Nuo Lan who was happily enjoying her meal. Her feelings of enjoyment were written all across her face. Seeing her expression, he finally believed what Qing Shui said, "Brother, I must admit that you are the smarter one. To earn a woman's heart, you must start from their stomach. I am known by people as the mad cultivator. If I had known, I would have learned to be a chef instead. That way, maybe Nuo Lan would have....."

At the moment, Nuo Lan didn't know what she should say. Naturally, she was able to tell that the two were joking with each other. She shook her head.

"Actually, you made the right decisions by cultivating. That's exactly where your talent is. If you really want to learn cooking, at most, you will only become a third-grade cook. This also requires one to have talent. In fact, it's even stricter than cultivating." Qing Shui chuckled.

Was this a joke? The young master of Taiyi Immortal Palace learning to cook? This would definitely make everyone drop their jaws.

“For now, you aren’t just a chef, but a vicious one as well. I can’t help but wonder how many people at my age can beat you. Initially, I thought that this should be a firm victory for me, but I never expected myself to be utterly defeated. Oh yes, that demonic beast of yours is also terrifying, but it needs your cooperation. If the two of you work together, I am sure the opponents will be driven crazy by you.”

Qing Shui understood Beihuang Yu’s words. If he didn’t act in concert with his demonic beasts, Beihuang Yu would get a chance to escape, but if he did, the chance of that happening would immediately drop down to zero. If Qing Shui hadn’t weakened Beihuang Yu, he would definitely be utterly defeated by him, so much that he might not even be able to withstand three blows.

Beihuang Yu was also aware of it. But the fact was, Qing Shui was indeed that capable. What made him even more upset was, as Qing Shui grew, he would also continue to develop. But if there ever came a time when he fell behind in terms of cultivation, his factor of appeal would directly diminish by half without even looking at Qing Shui’s progress in it. How was this fair?

“In the future, I will be coming from time to time to take some food back with me.” Beihuang Yu said before he left.

“You are only allowed to do it once a week.” Qing Shui said firmly. Actually, he knew that it would be difficult for Beihuang Yu to come every now and then considering how occupied he was with his cultivations.

“Alright, don’t hesitate to come to Taiyi Immortal Palace whenever you are free. I can at least treat you some wine.”

“Sure!”

“And, Nuo Lan, I know that this brat may be very popular among women, but you must control yourself. Believe me when I say that no men would love you more than I do. I will keep waiting for you. I hope that you can really consider me... Little brother, since you already have so many wives, can you please let go of it just this once and spare me?” Beihuang Yu was unwilling to give up. Qing Shui never expected for him to have such a naggy side.

“Your Yang Qi is leaking out every night. It is obvious that one woman isn’t enough to satisfy your desire. If you really are a virgin as you said, I can’t say anything but look at you in admiration. Since that was not the case, even though you may not be married yet, I know that you are just like me, or maybe even better. It has been a few years since I last had that kind of pleasuring occasion.”

“It seems you are also just another pathetic man...” Nuo Lan chimed in. Beihuang Yu was totally speechless this time.

After Beihuang Yu had left, Qing Shui noticed that Nuo Lan was looking at him. This caused him to be quite confused, “Why are you looking at me?”

“I always used to think that you are inferior to me in terms of strength. Who would have expected for you to hide so much of your power? To think that even Beihuang Yu would be beaten by you.” Nuo Lan seemed to want to see through Qing Shui.

“He got careless. Frankly speaking, there is quite a huge gap between our strength. I just happen to be able to restrain him.” Qing Shui said casually, a slight grin on his face.

### **Chapter 2122 - The Five Tiger Immortal Sect Is Related to Five Tiger Immortal Palace**

Without realizing it, a week had passed. The Imperial Cuisine Hall ran its business just like every other day, and its reputation was slowly increasing. Naturally, there would still be some fools trying to challenge the hall. But most of them would end up in a very miserable state.

There were also some troubles with people wanting to buy the foods by force. For example, there had been people, who proclaimed themselves to be of high status, coming and demanding to buy the food only to realize that it had been sold out. Those people would then start demanding Qing Shui to prepare it on the spot in great amounts. Naturally, things also didn't end that well for those guys.

Seeing that the hall was earning so much money, there would naturally be a lot of people wanting to take it over for themselves. Those who lived in the lights, as well as those who lived under the spotlight, had come. But in return, all that they got were paybacks. Naturally, those with wicked intentions suffered greater pain whereas the injuries of those, who didn't harbor any bad intentions, weren't as serious. But they still couldn't get away from having one of their legs snapped at the very least.

“Qing Shui, I have already managed to get some news about it.” On this day, Nuo Lan looked for Qing Shui, saying this to him.

“What news?” Qing Shui was stunned.

“News about the Five Tigers Immortal Sect.” Nuo Lan answered back.

Qing Shui immediately overwhelmed with excitement. He said hurriedly, “Tell me about it!”

“The Five Tigers Immortal Palace is related to Five Tigers Immortal Sect. The Five Tigers Immortal Sect stands directly under the Five Tigers Immortal Palace. In other words, the two are actually one entity.” Nuo Lan said.

Qing Shui knitted his brows, “I am a bit confused.”

“The clan that once ruled over the Five Tigers Immortal Palace established the Five Tigers Immortal Sect. However, the person leading the Five Tigers Immortal Palace has changed now and is no longer from the clan that ruled it once before. Despite that, the Five Tigers Immortal Sect is still a branch of the Five Tigers Immortal Palace. They are quite strong and have quite a high authority in the immortal palace itself.” Nuo Lan explained to Qing Shui.

Qing Shui knitted his brows. It seemed the things this time wouldn't be as simple as he thought. If he wanted to help Tantai Lingyan solve her problems, he would have to face off against the Five Tigers Immortal Palace. But the current Five Tigers Immortal Palace shared a close relation with Demons Gate. Even if the Divine Palace and Taiyi Immortal Palace were to combine their forces, they still wouldn't stand a chance against those two.

Nuo Lan knew that there had been conflicts between Qing Shui and Five Tigers Immortal Sect before. But judging by how the current situation was, it seemed that he wouldn't be able to solve it immediately. Thus, after a moment of hesitation, she said, “Since you have waited for so many years,

you should be happy to finally get to hear some news about them. The time is on your side anyway. Why don't you take it step by step?"

Qing Shui felt warm hearing these caring words. He nodded. Indeed, it was a thing to be happy about. However, Qing Shui never planned to tell Tantai Lingyan about it for the time being. He should wait for a suitable time and only tell her when he was strong enough to handle her mortal enemies.

"Thank you!" Qing Shui sneaked a smile.

"Here you go again with your formality." Nuo Lan let out a sigh of relief when she saw Qing Shui doing so. She was honestly worried that Qing Shui would go and look for the Five Tigers Immortal Palace directly.

"You are the female owner after all."

"Do you feel uncomfortable not being able to take advantage of me?" Nuo Lan wasn't angry. She gave Qing Shui a kind of seductive look.

Seeing that, Qing Shui immediately avoided contact with her eyes. While in front of this woman, he was not only unable to take advantage of her after being seduced, but he would also end up embarrassing himself.

Nuo Lan could tell that Qing Shui was being shy. Moreover, his desire to investigate her body wasn't really that strong. He was just like a big baby. Actually, under these circumstances, it was not that he never thought about it, but it had something to do with his conscience. Despite being already married and have his own children, he would still feel a bit shy at times. Nevertheless, he was still, already completely different from the teenage boy he once was.

"Are you really married?" From Qing Shui's look, she could tell that he wasn't faking it. Before this, Nuo Lan even suspected Qing Shui to be a virgin.

Thinking up to this point, Nuo Lan gave Qing Shui an even weirder look, so much that she began examining his body from the top all the way down. Could he have problems in that department? Otherwise, how else could she explain his bashfulness despite being so outstanding?

In just a blink of an eye, Qing Shui managed to understand how Nuo Lan felt by looking into her eyes. He immediately got upset. How could a man be underestimated like this? While thinking about it, he felt a sort of reaction at the bottom part of his body. Slowly, it erected, "I am a normal man....."

Nuo Lan shot a gaze at Qing Shui. When she saw the tent sticking out at the lower part of his body, her face reddened, and she opened her mouth slightly. Shortly after, she turned around and vanished.

Qing Shui lowered his head to look at his 'lil bro'. By now, he had also calmed down. He didn't know why he got so agitated before. Also, when Nuo Lan had been staring down right at his erected manhood, her surprised look alone was enough to snatch his heart away. Until now, the scene still hadn't left his mind.

Qing Shui calmed himself down. Now, he was filled with motivations once again. In the past, he had made up his mind to help Tantai Lingyan solve the things in her heart. At one point in the past, the Five Tigers Immortal Sect slaughtered everyone from her clan. Naturally, she must avenge her family.

What went beyond Qing Shui's expectations was that the things revolving Tantai Lingyan would actually relate to the Demons Gate. Even if Tantai Lingyan's problem never existed, the Divine Palace would continue to battle against the Demons Gate. Naturally, Taiyi Immortal Palace and the Five Tigers Immortal Palace also wouldn't just sit still and watched as the battle unfolded.

This was great, it had encouraged Qing Shui even more to obliterate the Five Tigers Immortal Palace and Demons Gate. Considering that the Five Tigers Immortal Sect could get along well with Demons Gate, they would naturally not be any upright organizations.

The Demons Gate called themselves the Saintly Gate. Due to the Demon Lords Blood within them, they did things based on their own desires. It was in their nature to find it hard to resist any form of seductions. For example, if an ordinary man saw a beautiful woman, he wouldn't dare to do any sh\*t because there were too many things which he must worry about.

However, the people of Demons Gate wouldn't hesitate to violate the poor woman. To them, the most important thing was their own self-satisfaction. It was precisely because of this that the Demons Gate became arch-enemies with the Divine Palace. In the righteous world, the actions demonstrated by Demons Gate was considered to be immoral, uncivilized, and intolerable.

There were too many human beings across this world. In comparison to this huge number, the amount of people in Demons Gate was infinitesimal. Thus, even if a lot of the people from Demons Gate were to do bad stuff, it wouldn't halt the society from developing, let alone some of them would even be stopped by other people. Even without the people of Demons Gate, things like a massacre, being raped or kidnapped were also happening every day.

Not long after, Nuo Lan came down from upstairs. She looked very normal. Qing Shui was the one who looked awkward when he saw her. He said embarrassingly, "Sister Nuo Lan, I was not trying to be rude, I just wanted to prove it to you that I am normal."

"What? Just prove it to whoever you want. What does it have to do with me." Nuo Lan was speechless.

"I would love to prove it to you. It's like if I don't, I will keep feeling something strange in my heart. Now that I have let you know that I am in perfect shape, there is nothing more which I shall worry about." Qing Shui shamelessly blurted, as though he were the all-knowing wiseman.

For a moment, Nuo Lan choked, "You are starting to step over the line now!"

"Alright, alright, I'll stop talking about this. Speaking of which, who made an appointment to see me today?" Qing Shui changed the topic.

"You know this person. She is also very unusual. She is the mistress of Rain Flower Pavilion." Nuo Lan chuckled.

Qing Shui was stunned. The Rainflower Pavilion wasn't exactly a sect that was considerably powerful in Northern Emperor Domain. However, it could still be considered one of the first-class sects, as they had a lot of influence around the area. The sect was also formed solely by women cultivator. It might not be an Immortal Sect or an Immortal Palace, but it could count as an existence which could rival them.

The people in Rainflower Pavilion were all beautiful women. They didn't put any restrictions on each of their members. The women were allowed to get married, and even after they had given birth, they

could still be a member of the pavilion. The people in Rainflower Pavilion worked together as one. Among these women, a lot of them had gotten married into aristocratic clans or disciples from certain sects. Slowly, they started forming their connections and expand their networks, so much that they might even have hidden power which no one knew about. As of now, it was already almost at the same level as Divine Palace and Taiyi Immortal Palace.

The main thing about the Rainwater Pavilion was that it had a lot of influence on the area around it. If anyone stupid were to lay their hands on the Rainwater Pavilion, they would likely suffer a pathetic death. This knowledge had been passed on for a very long time. According to rumors, it was even said that the mistress of Rainwater Pavilion had a lot of trump cards up her sleeves. Qing Shui had heard many things about the group, but yet he had never interacted with them. That was why this time, he didn't know what the mistress could be asking for by coming here. He had already stated specifically that he would only attend to terminal illnesses.

### **Chapter 2123 - Rainflower Pavilion's Pavilion Mistress, Two Divine Square Cauldrons**

The idea of this had made Qing Shui curious. He wondered if the Rainflower Pavilion's Pavilion Mistress had gotten some kind of terminal illness and came looking for him. It should be a good thing. He should be able to obtain quite a lot of benefits from getting to know such a person.

Two hours later, the Rainflower Pavilion's Pavilion Mistress arrived at the Imperial Cuisine Hall.

When Qing Shui saw this lady, he was astonished. She looked like how a woman in her 30s would appear in his previous life. However, the same couldn't be applied to this world. Still, from her vitality, Qing Shui could tell that she was in her prime.

The lady was very dignified and well-embodied. Her beautiful hair was done up and her snow-white neck was long and slender, translucent and flawless like jade. Her eyes were very beautiful, clear yet with a hint of coldness. However, the corner of her lips was slightly curled upward.

This formed a mysterious charm along with her slender waist with her well-rounded butt and straight legs. Qing Shui couldn't tell that she had gotten some kind of terminal disease just from her appearance, but still stood up and got her to come in anyway.

"Sister Nuo Lan! Miraculous Physician Qing!" The lady spoke up. There was a mature charm in her voice.

"Sister Man Jing!" Nuo Lan gave the lady a hug happily.

Qing Shui didn't expect that the two of them were on such good terms. He nodded, "Hello."

"Sister Man Jing, what happened to you? This is a place to treat terminal diseases." Nuo Lan asked worriedly.

"Mine isn't a terminal disease, but I do hope that Miraculous Physician Qing can help me. On Nuo Lan's account, please help me!" Man Jing looked toward Qing Shui and said softly.

Qing Shui felt that this lady was good with her words and didn't pressurize him with her identity but instead, brought Nuo Lan into the picture. This made Qing Shui felt very good. He nodded, "Alright, go on. How do you want me to help you?"

"I want to have a child."

Qing Shui almost stumbled and even Nuo Lan was stunned. She looked at Qing Nuo, her expression was a mix of being puzzled, surprised, and stunned.

Man Jing then noticed her choice of words and quickly said, "I meant that I can't get pregnant. I've looked up many physicians and alchemists, but it's useless. I heard that Miraculous Physician Qing has amazing medical skills and came to try my luck."

Qing Shui heaved a sigh of relief, nodding, "Let me take your pulse."

Man Jing rolled up her sleeves to reveal a part of her snow-white wrist. Qing Shui placed his hands on it and frowned for a while before letting go.

"How is it, Miraculous Physician? Can I still be a mother in this lifetime?" Man Jing asked, worriedly.

"Let's put it this way. Your body is short of a meridian channel that's required for giving birth." Qing Shui used the simplest way to explain the situation.

Man Jing's countenance turned a pale. This was the greatest blow to a woman who wished to become a mother. She won't be able to give birth to and dote on her own child in this lifetime. The thought of that warming scene made her heart felt as if it was being torn up into pieces. When she looked at how other families had parents and children, how there were young children playing around... That domestic bliss was one which she had yearned for the most.

Qing Shui looked at Man Jing's expression before coming up with something and said, "It's not impossible, but you'd have to put up with a great deal of pain and you will also lose something in the process."

Upon hearing Qing Shui's words, Man Jing looked at Qing Shui hopefully, "I'm not afraid of pain. I can afford to lose anything."

"I can help you to mend up this meridian channel by replacing it with another. When I do, your cultivation will be affected. You'll probably lose around 10% of your strength and it might also affect your progress in attaining breakthroughs in the future." Qing Shui explained.

"I'm willing to give up all of my strength, let alone just 10% of it, as long as I can get pregnant." Man Jing said earnestly.

Qing Shui had underestimated a woman's resolve when they wanted to become a mother. He then suggested, "You better discuss this with your husband first. It'll be best if he can come here as well."

"That's not an issue." Man Jing nodded and got someone to notify her husband.

It wasn't long before Man Jing's husband arrived. This man was very mature and had a strong businessman aura. His cultivation was around Peak Martial Emperor, but he had an indescribable disposition. He was mature, reliable, and very handsome, giving off a very comfortable feeling.

Upon seeing Man Jing, he didn't attempt to hide the love and pity he felt for her. "Man Jing, I have said it before. It's fine if we don't have kids. I'm satisfied with just having you by my side."

"You weren't willing when I asked you to get married again. Zhong Clan's line will be broken like this." Man Jing said softly.

"Countless family lines gets broken every day in this world. Since things have come down to this, I'll accept it. Don't be like this in the future. My heart aches whenever I see you like this." The man smiled dotingly.

Qing Shui now understood. Women wanted to be pampered on, even if it was a poised and mature woman like Man Jing.

"Miraculous Physician Qing says that he can treat my condition. We can have our own kid now." Man Jing said happily.

Qing Shui explained the situation to this man again. The man looked at Man Jing and knew that he won't be able to stop her and thus agreed to the condition. He understood Man Jing too well. In order to get a child, she could give up on everything. She could even sacrifice her own life for her child's, even if she would only be able to enjoy a single day of being a mother.

What was important wasn't how long one's life was, but rather, if one had beautiful memories and a resplendent point in their life.

Qing Shui got to it very quickly. This was the first time he had attempted to change one's meridian channels like this. He even brought out the Life and Death Needles which he had rarely used.

The extraction or connection of meridian channels was a painful process. Although Qing Shui tried to stop the pain, it wouldn't remove all hints of the pain completely. However, Man Jing clenched her teeth and persisted on.

After two long hours, the process was completed. Qing Shui kept the Gold Needles and the Life and Death Needles, letting out a long exhale as he did so.

Man Jing's body was a little weak and would need to take a few days to recover. However, she was a strong cultivator and her recovery abilities were much stronger than ordinary people.

"Miraculous Physician Qing, how can I ever thank you for this?" Man Jing smiled and looked at Qing Shui.

"It won't be too late to give me your thanks after the child has been born." Qing Shui joked.

"I saw at the door that you accept cauldrons. I happen to have two here. Let me give them to you! I'll come and thank you again if I really were to give birth to a child." Man Jing handed Qing Shui two Divine Square Cauldrons.

Qing Shui was very pleased. This was the thing he was short of the most.

To Qing Shui, these two Divine Square Cauldrons were definitely enough for the treatment fees. It was a lot better than what he had expected.

"It's enough. I need this thing right now and just these two is enough for the fees." Qing Shui said seriously.

"I got these from a Divine Temple's relics. If you need them, I can help to keep a lookout for you. They are good to look at but pretty useless otherwise." Man Jing said.

"Thank you very much."

"You're welcome. If you have anything you need help in the future, just get Nuo Lan to let me know. If it's something I can do, I'll definitely help you out." Man Jing said happily.

Man Jing left with that man. Qing Shui looked at the two Divine Square Cauldrons in his hand and felt especially happy. Right now, it would take two Divine Square Cauldrons to increase one grade for Divine Weapons. Now that he had two, after being put through the Treasure Basin, could they be able to increase the grades by two?

### **Chapter 2124 - Treasure Beast Advancing Divine Worm**

Qing Shui didn't expect that Man Jing would have the Divine Square Cauldron. This item was the most precious to Qing Shui at the moment and it was also something which he had desired the most. If his Flying Sword Divine Weapon could be upgraded by a few levels, his abilities would rise significantly.

Although he had defeated Bei Huangyu, he knew that he had just entered that circle and his strength was at the very bottom. After all, he had some techniques and abilities which he needed time to perform. If he wasn't given the chance to do so, he could do nothing but be killed instantly.

Qing Shui placed the Divine Square Cauldrons into the Treasure Basin, planning to use them to upgrade the Flying Sword after their quality had been improved.

He was in a very good mood. The Rainflower Pavilion's Pavilion Mistress had even said that she would keep a lookout for the Divine Square Cauldrons and she would further thank him after she had gotten a child. However, Qing Shui had already decided that the two Divine Square Cauldrons from earlier was sufficient for the medical fees. If there were more Divine Square Cauldrons in the future, he wouldn't refuse them nor would he let them lose out.

"Are those little cauldrons very useful to you?" Nuo Lan sat opposite Qing Shui and asked.

"Mmm, they are. I have a technique which requires me to deplete these things." Qing Shui didn't tell the whole truth, but it wasn't exactly a lie neither.

"I see. I'll help you find more of them. I remember one of my friend having it in the past. It looked the same. She only kept it because she thought that it looked nice." Nuo Lan recalled and said.

"Can you help me ask your friend then? I'm willing to have a trade with her. I should have many things that she should be interested in." Qing Shui gave it some thought and said.

"Don't worry. It'll be fine with me around, assuming it's still around. You'll still have to thank me after this." Nuo Lan smiled and looked at Qing Shui. She felt that this young man was getting more and more mysterious and it seemed that his medical skills were too heaven-defying as well. The same went for his alchemy and cooking.

What else could she do? She knew that it wasn't a good thing to be overly curious about a man, but there were situations where one wouldn't be able to pull away despite knowing this logic. She was able to stop herself from prying too much, but there was no way that she could stop the curiosity that was growing in her heart.

"How do you want me to thank you? Why don't I gift myself to you?" Qing Shui gave it some thought and said seriously.

"That'd be nice, but I can't afford to accept it." Nuo Lan said a little dejectedly.

Qing Shui found it really funny. He hadn't expected that Nuo Lan could say something like this.

"Qing Shui, I've gotten some news. Are you interested to hear about it?" Nuo Lan suddenly said. There seemed to be hope flickering in her eyes.

"What news is that? Is it so good that it can light up your eyes like this?" Qing Shui smiled and asked.

"A treasure beast has appeared in Redcloud Valley. Are you interested?" Nuo Lan didn't make things clear. She clearly wanted to let Qing Shui ask her questions.

"Oh? Treasure beast? What kind of treasure beast?" Qing Shui's interest was piqued. The Dragon Slaying Beast was an evolved form of a treasure beast and of course, he would be very interested in them. Such heavenly and earthly treasures were extremely rare and since he had encountered them, he would have to go and try out his luck.

"An Advancing Divine Worm!" Nuo Lan's eyes gleamed as she said this.

"What is it? What uses does it have?" Qing Shui hadn't heard of the Advancing Divine Worm before and although he wouldn't underestimate worms, he didn't think well of them either.

"Their usage is very simple. They can be engulfed by demonic beasts, allowing the demonic beasts to evolve into a new grade. Their aptitude would increase by a notch, although the actual amount of increment is unknown. At the very least, their overall strength would double." Nuo Lan said with great yearning.

Qing Shui's interest was piqued. This thing was definitely considered to be a great treasure. His demonic beasts would need them. For example, the Demonic Dragon Spider, Long Zhu`er, Dark Phoenix, and Little Rin needed them. Even if he were to raise the grade for the weakest one, the double in strength would still be very useful. Moreover, this thing had a decisive effect in increasing demonic beasts' aptitude thereafter.

"How many Advancing Divine Worms are there? Are they big? Are they strong?" Qing Shui asked curiously.

"Advancing Divine Worms are considered to be in the greatest numbers amongst the treasure beasts. Some people actually don't fancy it as it only has an effect on demonic beasts with a strength that's below 20 billion Dao force. It's considered to be quite a good medicinal herb amongst the heavenly and earthly treasures, but when it appears, there would often be at least three of them and not more than eight. Their sizes are that of a cow and they aren't strong, but they can dig holes and it isn't easy to catch them. Most importantly, there are a lot of people after them and there would be many people fighting for and snatching them." Nuo Lan explained briefly.

Qing Shui now had a general understanding. Treasure beasts tend not to be strong, but their abilities to escape and protect themselves were what made them tough.

Qing Shui now had a great interest in the Advancing Divine Worms. He decided to make a trip to check them out and get his hands on a few of them to make his demonic beasts stronger. By then, he should be able to stand his ground, even if he was only relying on the few demonic beasts.

"Let's go try our luck. They might just end up belonging to us." Qing Shui said happily.

"I'll be satisfied with just having one to give to my little fox." Nuo Lan's eyes had narrowed into a crescent slit, appearing extremely seductive. Qing Shui could not help but think that she was a great demoness whose seduction was greater than even Qing Hanye's.

Although Qing Hanye had the Nine Yin Body and a pair of beautiful eyes, the martial technique she had cultivated wasn't one that charmed others. It was different for Nuo Lan, whose physique was the most seductive Immortal Fox Physique and she even cultivated the most seductive martial technique. Thankfully, Qing Shui had good self-control and both his Heavenly Vision Technique and Yin-Yang Image had a mind-clearing effect.

"Oh? When are we going to set off?" Qing Shui gave it some thought and asked.

"Let's set off now. Someone came across an Advancing Divine Worm yesterday and I reckon that everyone's headed over there right now." Nuo Lan started to feel anxious upon saying this. If they were to set off late and others were to get their hands on the Advancing Divine Worms because of that, she would be very upset.

Things were on the right track and Qing Shui didn't need to be constantly here. Anyway, the people who came would take queue numbers and Qing Shui would inform them to come forth when he was free. After all, treatments of terminal diseases came with unclear payments requests. Therefore, he was usually not busy.

After cleaning up the place briefly and informing the others, Qing Shui left together with Nuo Lan.

The Redcloud Valley was situated between the Northern Emperor Domain and the Northern King Domain. Therefore, Qing Shui had to be very careful this time around. After all, it wasn't such that only people from the Northern Emperor Domain would go. People from the Northern King Domain would be going as well. Other than these people, he wasn't sure if people from other places would also be going.

On the surface, it appeared as if the Northern Emperor Domain's Northern Emperor Domain was the strongest city, with the strongest Divine Palace and Taiyi Immortal Palace. However, other than the Northern Emperor Domain, there were many other cities and it was unknown what kind of powerful experts and other existences had kept themselves concealed. After all, not all powerful influences were willing to head to the Northern Emperor Domain.

There were capable people who had hoped to forget about the secular world by staying in the seclusion in their own world, but the greatest and most capable recluse were the ones who stayed reserved in the open, amidst a lair of hidden talents. Back when he was at the Divine Palace, the Golden Battle God had claimed that he only knew of three influences that could be stronger than the Divine Palace, and two of them weren't in the Northern Emperor Domain. He didn't mention anything else.

The Golden Battle God was only trying to tell Qing Shui that as a Divine Palace's Battle God, one mustn't be arrogant and think that the Divine Palace was the strongest and almighty. Even if they were on very

good terms with the Taiyi Immortal Palace, there were still existences that could afford to offend the Divine Palace and the Taiyi Immortal Palace.

News of the Advancing Divine Worms had spread out and there were definitely a lot of people wanting to lay their hands on them. Its effect on demonic beasts with a strength below 20 billion Dao force could attract 99% of the people. After all, there were not many people who had demonic beasts with strengths of 20 billion Dao force and many people needed the Advancing Divine Worms. Moreover, the Advancing Divine Worms were heavenly and earthly treasures and could be made into some of the most precious alchemy ingredients.

### **Chapter 2125 - Golden Horned Black Mountain Python's Golden Horn**

Qing Shui thought of the big monkey which belonged to Beihuang Yu. He had no idea what it was, but its strength was definitely over 20 billion Dao force. It must be some kind of mutated species, like a blown up version of a snub-nosed monkey. It was extremely agile but had the strength of a King Kong.

Qing Shui brought along Nuo Lan and used the Nine Continents Steps to arrive at the entrance to the Redcloud Valley immediately. It was the place where he had encountered the Battle God Team previously. There would always be many people here every day.

There were towering mountain peaks, sparse trees, and thriving grass. The natural carpet, in addition to the radiant sunlight shining down, made the place look very radiant. It was already the afternoon and many people were resting under the trees. Occasionally, there would be people who exited and entered.

Qing Shui and Nuo Lan didn't stop and entered directly. The people outside were those who wouldn't enter the Redcloud Valley. It was more dangerous inside and it would be too dangerous for most of the people, outside given their current strength.

The Redcloud Valley was still very far from this place. After all, it was the depths of this mountain range.

"Qing Shui, be careful. I saw people from the Demon Gate previously." Nuo Lan reminded Qing Shui.

Qing Shui, upon hearing that, recalled the black-robed man he had seen earlier. He did not pay it much heed back then and only felt that the other party was very strong. Qing Shui wouldn't use his Spiritual Sense on every single person since it wasn't a very polite thing to do. It could even bring him trouble. Therefore, unless the situation called for it, he wouldn't casually use his Spiritual Sense to observe others.

Thinking back, he felt that that middle-aged man in black robes should be from the Demon Gate.

Qing Shui nodded, "Our targets today are the Advancing Divine Worms."

"Alright, I hope that we are lucky today. I'll be satisfied with just being able to get one."

"If we only got our hands on one, who would it go to?" Qing Shui wondered.

"Well, we can decide over a rock-paper-scissors game." Nuo Lan jokingly answered, as if she had thought of the best method to resolve this.

Qing Shui rubbed his head, stunned, "This is really a good method."

...

### Redcloud Valley!

This was the first time Qing Shui had seen the Redcloud Valley. The skies were really filled with red clouds, as if the clouds were on fire. Even the entire valley was covered in a red color. This place had a very beautiful feeling but as time passed, one would feel unaccustomed to it.

The ground and other aspects of the Redcloud Valley weren't any different from other places. It was just that they were reflected in a red color coming from the clouds in the sky. However, the red on the ground was slightly lighter. The plantations here were still green.

Only the Redcloud Grass was red. Qing Shui had already received some and he had no idea if these Redcloud Grass were red because of the red clouds in the sky, or if they were red to begin with. He didn't give it much thought way, as it was just a passing thought.

The valley was very big and there quite a number of rocks that were several meters tall. Therefore, it wasn't that easy to spot it, unless the person was in the most spacious spot. Qing Shui looked at the towering peaks in the area and the occasional large-scale demonic beasts that would fly by occasionally.

"This place is so big. Where can we go to look for the Advancing Divine Worms?" Qing Shui looked around and tried to search for the Divine Worms that were the size of cows that could burrow underground. This was like searching for a needle in the ocean.

"Let's just try our luck. It's not easy for us, but it's not easy for others either. However, there's a rumor that Advancing Divine Worms like the Red Swamp that's located in the depths of the Redcloud Valley. If my assumption is correct, everyone should be trying their luck there." Nuo Lan looked toward the depths of the Redcloud Valley and said.

"Oh? Then let's head to the Red Swamp. Is that swamp big?" Qing Shui asked.

"Yes, it's very big. You'll know when we arrived Nuo Lan smiled and took the lead to bring Qing Shui to the Red Swamp.

Qing Shui let out the Dragon Slaying Beast. This creature was also a treasure beast and might be able to find some kind of treasures.

15 minutes later, a huge roar suddenly rang out and a giant demonic beast appeared before them.

### Golden Horned Black Mountain Python!

This Golden Horned Black Mountain Python's head was the size of a house and its huge body was speechlessly thick and strong. Its several hundred meters body coiled around and it had one huge golden horn on its head that was bright, shimmery, and over ten meters long.

It was pitch black all over and had a pair of eerie-looking eyes. Right now, it was letting out resonating cries. Legend had it that it was a cross breed between the Black Mountain Python and the Golden Horned Tiger, and that it was extremely strong. Its horn was extremely sharp, and it had a strong venom.

Nuo Lan wasn't very worried. Although this Golden Horned Black Mountain Python was very strong, it didn't pose much of a threat to Qing Shui and Nuo Lan.

Qing Shui saw how it was blocking their path so arrogantly and reached out toward it with his Dragon-capturing Hands. The Dragon Slaying Beast charged out as well.

In an instant, its head was smashed completely, bashed up brutally by the Dragon Slaying Beast. It was very easy to deal with this Golden Horned Black Mountain Python. Qing Shui walked over to pick up its huge golden horn, the most valuable thing on this Golden Horned Black Mountain Python. It was even more precious than that of a Golden Horned Tiger.

It didn't take them too long and the two of them went on their way again. They would just deal with demonic beasts that didn't know any better and stood in their way. Before it was dark, they had already arrived at the Red Swamp.

Qing Shui was astonished at the sight of the endless swamp. Even the mud in it was a fiery red, looking as if it was boiling. Right now, many people had set up their tents at the entrance and there were also quite a number of figures darting around in the Red Swamp. After all, the Advancing Divine Worms weren't really strong and only had excellent digging skills. Therefore, many people were holding a special kind of net, hoping to catch them directly with the net if they were to encounter the Advancing Divine Worms.

The Advancing Divine Worms' bodies were said to be the smoothest material and even blades would slide off their bodies if one were to slash at them. Moreover, their bodies could change from the size of cows into snakes that were the width of one's finger or even smaller. They could slide away, burrow through the ground, rocks, and water, but they couldn't fly.

Therefore, some people who didn't know any better who were holding the nets didn't know that it would be useless, even if they were to successfully catch the Divine Worms with their nets.

It was even harder to catch with one's bare hands, no matter how strong one was. Confining typed moves were useless as well. These things were of extremely low levels and wouldn't be affected by any kind of spiritual sense. They were immune to spirit energy and attacks would slide off from their bodies upon contact. It was even harder to capture these Advancing Divine Worms in this Red Swamp as the Advancing Divine Worms were also a fiery red color. There were also lots of holes in the soil in the swamp. One might not even notice if an Advancing Divine Worm were to appear right in front of you. They were covered in the mud from the swamp and could also take all on different shapes and sizes.

"If the Advancing Divine Worms were to enter the swamp, we won't be able to capture them. Those things have amazing speed underground and even people who are masters of the earth element won't be able to catch these Advancing Divine Worms." Nuo Lan brought Qing Shui to a relatively quieter place and said this.

People who were masters of the earth element could move about in the ground like how masters of the water element could in water. However, it was harder to comprehend the earth element compared to the water element. A mediocre level of mastery wouldn't work. Even now, Qing Shui had yet to acquire the actual earth element which could allow him to move about underground.

Qing Shui's mastery of the earth element was only in the earth element techniques, especially in the Five Elements Divine Refining Technique.

### **Chapter 2126 - Coincidental Catch, Demon Gate's Silver-Eyed Demon King Came Snatching**

The Dragon Slaying Beast could dart around in the swamp. This wasn't much problem for it, and even if it was a swamp, at the Dragon Slaying Beast's level, it would be able to move around on the swamp as if it was on land. After all, it could even fly, let alone walking on swamps.

"Nuo Lan, can a dead Advancing Divine Worm be absorbed by demonic beasts to give them the advancing effects?" Qing Shui asked.

"It can. Many people would capture and subsequently kill them. After all, they would disappear if you aren't careful. Therefore, people find it safer to kill them and then toss them into an interspatial silk satchet. With this, it doesn't matter if they are dead or alive. The most important thing is the Advancing Divine Worms' Origin Essence Pills. Although their bodies would also have a great effect, their Origin Essence Pills are still the most important component." Nuo Lan explained to Qing Shui. This was no secret and was known to many people.

Looking at this endless stretch of the Red Swamp, Qing Shui had no idea where to go to even began looking for the Advancing Divine Worms.

Nuo Lan, on the other hand, was very calm. She looked at Qing Shui and assured him, "We don't need to be in a hurry. We can't rush these things. Those people are waiting and so can we. The Advancing Divine Worms can't be underground for over two hours. This means that after every two hours, the Advancing Divine Worms must come up for a change of air. However, they usually come up for only a short period of time, about the time taken to drink a cup of tea."

Hearing this, Qing Shui heaved a sigh of relief. It seemed plausible. The time for one cup of tea wasn't short, but he was only worried that these creatures would hide in very concealed places and revealing only their heads. It would make them very hard to find.

Qing Shui mentioned his concerns to Nuo Lan.

Nuo Lan laughed and said, "No many how sly the fox, it won't be able to win against a good hunter. People have studied this before. The instant these creatures come up for a change of air, they would fully appear on the surface, with a thickness of a person's waist and over four meters in length, similar to a size of a big buffalo. However, they would only remain in that state for the time to get a breath, and then they'd be able to change their forms. They can even dart into the swamps. Even if they just came up, they can still go back in. However, if they don't stay on the surface long enough, they won't be able to remain underground for two hours. Therefore, even if they were to dart back in again, they usually would have to come up for another breath of air not long later."

Therefore, people would usually stay in a spot for two hours and if there aren't any motions then they would change location. Everything depended on luck.

Qing Shui felt that his luck wasn't bad, but he still felt that the chance for this to happen was too slim. However, the moment it appeared, if the person was strong, there would still be high chances of

capturing them. However, they would need help to surround the worms. Despite all these, the chances of the worms escaping would still be very high.

"There's one over there! It disappeared again after a short appearance!" A voice rang out in the distance.

Someone shouted and many people headed over. Qing Shui looked at Nuo Lan, "Should we head over?"

"Let's go over and take a look. It might just happen to appear before us." Nuo Lan said, not minding it much.

Some things tended to be so mysterious and amazing. They didn't leave. Qing Shui felt a mysterious wave not far away and hit out with a Dragon-capturing Hands. And then, Qing Shui was greeted with a surprising scene.

It really appeared here. This should be that one which had been noticed by others previously. After all, it wasn't especially far away and it wouldn't be strange for it to disappear from there and appear here. Qing Shui had used his Dragon-capturing Hands to capture this big silvery-white worm.

Stun was not effective!

This Advancing Divine Worm was immune to any kinds of attack. Qing Shui felt the thing in his hand was very slippery and he was unable to have a firm grab on it. However, the worm would disappear the moment he were to drop it and he couldn't possibly throw it somewhere. Soil and rocks were all counted as the earth element and this fellow could enter the ground and disappear.

Qing Shui anxiously brought out the Primordial Demon Refining Furnace and placed the Advancing Divine Worm into it, and then tossed the entire thing into the Realm of the Violet Jade Immortal.

The Realm of the Violet Jade Immortal was an amazing thing. Most interspatial objects didn't allow one to put in any sort of lifeforms in them. All kinds of lifeforms would be repelled. Qing Shui didn't dare to place the Advancing Divine Worm in the Realm of the Violet Jade Immortal just like that since there was also soil in the realm. If it were to disappear in his Realm of the Violet Jade Immortal, then he wouldn't be able to do anything about it either.

Therefore, he thought of the Primordial Demon Refining Furnace. With this, the Advancing Divine Worms could only wait quietly for Qing Shui's decision on how to deal with it.

Nuo Lan was also surprised as she looked at Qing Shui, "Did we just get a hold of one so easily?"

"You saw it yourself. I caught it by accident." Qing Shui shrugged.

"Ridiculous. What do you by accident? If others were to hear that, they'll be driven to their deaths." Nuo Lan said. She also felt very happy.

"You won't drive others to their death. If you don't hand it over, the two of you might be the ones to die today." At this moment, a voice rang out. A middle-aged man in black robes had suddenly appeared nearby without them noticing.

When Qing Shui saw this person, he recognized that he was the black-robed middle-aged man he had seen earlier--the person from the Demon Gate.

"Oh? Who are you? Why do I have to hand over something I caught myself?" Qing Shui looked at the black-robed middle-aged man seriously and asked, smirking.

The middle-aged man had a pair of lifeless bulging eyes, with especially big scleras that made him look very terrifying and others would feel uncomfortable. Qing Shui recognized who this guy was. Or rather, it could be said that Qing Shui found out what Demon King Inheritor this person was.

Silver-Eyed Demon King!

It was said that the eyes of the Silver-Eyed Demon King were very amazing. It was a pair of extremely powerful and mysterious eyes that could reduce the opponent's speed and control their mind. It had a lot of effects and were also very big. However, one's strength was also very important. If the difference between the two were too great, the effect would be a lot weaker.

Nuo Lan frowned. This wasn't the Northern Emperor Domain, but they managed to encounter the Demon Gate's Silver-Eyed Demon King. They had no idea if there were any other members of the Demon Gate here. Not to mention, even this Silver-Eyed Demon King's strength was stronger than her.

"It's unsure who'd be the one dying here today. I wonder if the Demon Gate would feel sad over your death if you were to die?" Qing Shui continued the provocation.

"Seems like you know a lot. I'll give you the time to drink half a cup of tea to consider. Otherwise, I won't be able to guarantee what will happen." The man said very happily and even stared at Nuo Lan with his pair of sanpaku eyes, as if wanting to eat her up.

Qing Shui gestured to Nuo Lan. Now that things had come down to this, there was no other way to handle it. Many people had crowded around, but most of them were just wanted to watch the excitement. After all, this black-robed man had already stepped in.

"If you were to hand it over now, I can spare your lives. If you don't, I'll kill you right before her eyes. But before I do that, I'll have some fun with her in front of you." The middle-aged man's eyes gleamed.

Qing Shui was still considering how he should be making his move earlier, but now, he took action immediately. Buddha Diamond Seal!

Emperor's Qi! Art of Pursuing!

Qing Shui used all these techniques at once. However, the Silver-Eyed Demon King suddenly looked toward Qing Shui. At this moment, Qing Shui had the feeling as if his clothes had been tugged off from him. Not only so, he felt that his body was a little stiff and this feeling was getting increasingly intense.

Area Dominance!

After Qing Shui removed the external forces from his body, he felt a lot more relaxed. By this time, the Silver-Eyed Demon King was holding onto a white short sword. Although it was called a short sword, it was two feet long. Moreover, Qing Shui could sense the chilling aura coming from it. This sword was extremely sharp. Qing Shui could sense that the greatest trait of this weapon was its sharpness.

**Chapter 2127 - The Prowess of the Flying Sword, Spiritual Weapon Realm?**

Qing Shui's expression changed and he dodged it ever so slightly. He felt a cold feeling on his arm before a gush of blood splattered out.

While Qing Shui was performing weakening techniques on his opponent, the other party made his move as well, causing his body's reaction to become stiff. That sword attack was aiming toward his chest, but thankfully, Qing Shui managed to dodge it. By now, Area Dominance had already removed the negative influence applied to him.

When Nuo Lan saw blood spurting out from Qing Shui's arm, she wanted to take action. However, Qing Shui tapped on his acupuncture points and stopped her. "It's fine now. Let me do it."

Qing Shui had no idea how strong Nuo Lan was, but if they were overly negligent, they could die. Qing Shui's Paragon Golden Armor allowed him to have one extra life. Even his defensive abilities were a lot stronger than Nuo Lan right now. However, the other party was very powerful and his weapon was also very abnormal. If he managed to strike the heart, without the Paragon Golden Armor, Qing Shui had the feeling that the other party's weapon would penetrate through very easily.

The middle-aged black-robed man felt his body becoming very heavy and uncomfortable, and he had gotten a lot weaker as well. Despite so, he still felt that he wouldn't have many problems in killing this young man.

Qing Shui no longer held back and called out the Dragon Slaying Beast and Long Zhu`er. However, the other party also called out his own demonic beasts. There were three of them, and they were the same—three Golden Dragon Leopards.

The Golden Dragon Leopards had a body length about ten meters and were completely covered in golden light. Their appearance looked like that of a leopard, but had a dragon's head. They had powerful energy and lightning speed with strengths that were around ten billion Dao force.

Qing Shui felt his body stiffened up, as if he had been locked on. This guy, working together with these three Golden Dragon Leopards, became like the sharpest sword. Not only did Qing Shui find them extremely hard to handle but even Nuo Lan felt very worried.

The only thing which made Qing Shui felt better was that the Dragon Slaying Beast could weaken creatures' overall abilities by 20% if they had dragon's blood lineage.

Powerful demonic beasts tended to have blood lineage of either dragons or phoenixes. Of course, it didn't mean that powerful demonic beasts must have the blood of either dragons or phoenixes in them, but dragons were lustful by nature and thus there were more demonic beasts with dragon's blood. Most ancient mutated species would have their own legacies, but there weren't many of them.

Although many powerful species had become extinct, there would also be new mutated species appearing in the world.

They could have been products of evolutions, mutations, or were new specimens evolved after having obtained heavenly and earthly treasures. However, the formation of a new species would require time, and it was even more so for the passing down of a legacy.

Formations! Qing Shui added on weakening effects!

At this moment, his opponent made his move. A cold gleam shone in Qing Shui's eyes as he used the Buddha Bright Seal. A sharp glow then appeared.

Divine Weapon Flying Sword!

The Divine Weapon Flying Sword was now at grade three. With a rapid flash, it pierced through the head of one of the Golden Dragon Leopards.

The Flying Sword could become either big or small and when it penetrated through the Golden Dragon Leopard's head, it caused the Golden Dragon Leopard's head to explode.

The eyes of the Silver-Eyed Demon King who had been ready to attack suddenly narrowed and shuddered. Right now, Qing Shui's Divine Weapon Flying Sword was floating before Qing Shui, leaving behind only the Golden Dragon Leopard's which was still twitching. If it wasn't because its corpse was still around, he would have suspected if it was all just an illusion. Everything happened too quickly, so much so that it was unbelievable.

Qing Shui hadn't expected that the Divine Weapon Flying Sword at grade three would have the speed that was at least double of that when it was first forged. This made Qing Shui felt even more hopeful. If its grade were to continue to rise, after reaching grade 13, would it be able to kill everything in its way, including gods and demons?

Following the sword, Long Zhu'er had started to attack. She spewed a stream of spider thread toward the other two Golden Dragon Leopards.

The Golden Dragon Leopards were agile and they dodged with great flexibility. Qing Shui looked at the Silver-Eyed Demon King, not knowing if he should kill him now. However, Qing Shui didn't want to alert his enemies too soon. He didn't want to enter the situation where he would have to fight with the Demon Gate to the bitter end so early.

"Qing Shui, it's best that we don't kill him. If the balance is thrown off, it won't be good. The Divine Palace is now a little weaker compared to the Demon Gate now." Nuo Lan said quietly.

Qing Shui nodded and kept his Flying Sword. He looked at the black-robed man, "Silver-Eyed Demon King, I don't wish to kill you now. You better not appear before me anymore. Regardless if you believe it or not, killing you to me is as easy as killing a chicken."

The corners of the Silver-Eyed Demon King's lips twitched and he felt like cursing. Having reached his age, this was the first time he had been compared to a chicken in his life.

"Nuo Lan, let's go. We'll check out other places." Qing Shui didn't care about that Silver-Eyed Demon King. He called back his demonic beasts, and then headed for the depths of the swamp.

Nuo Lan walked next to Qing Shui, looking at him occasionally. How many more secrets did this guy have? Was that a Spirit Sword condensed from spiritual Qi? Could he already have reached the Spiritual Weapon Realm?

"Go ahead and speak up your mind. Don't hold it in." Qing Shui said without even turning his head. He knew that Nuo Lan would have many questions to ask after witnessing the fight.

"You've reached the Spiritual Weapon Realm?" Nuo Lan asked in surprise.

Qing Shui knew about the Spiritual Weapon Realm. It was a Realm at the later phase of the Divine Grade. However, only 1% of the people would be able to attain this realm and even if they did, many people weren't able to reach a desirable prowess. However, it would still be a significant trump.

After reaching a certain level in the Spiritual Weapon Realm, one would be able to condense their Origin Qi into their own weapons, using spiritual sense to control their attacks. The condensed weapon would be able to destroy anything and its speed would be many times faster. It would also be able to neglect a certain amount of defensive abilities. Therefore, cultivators who had reached the Spiritual Weapon Realm would be able to go up against multiple opponents of the same level as themselves. Their opponents could potentially be instantly killed if they were careless.

However, there was one downside. The depletion required to activate the Spiritual Weapon was especially great. Most people would use it as a final trump which aimed to kill the opponent the moment it appeared. Otherwise, with the great amount of depletion, most people would find it hard to activate it three times a day. It showed that even after having reached the Spiritual Weapon Realm, one might not be able to handle this rate of depletion.

Qing Shui had used it once before and in principle, he would be able to use it for another one to two times. Of course, Qing Shui wasn't exactly sure how many times he could use it. He took note of his depletion when he was attacking so that it was at a rate that he could handle. He would have no problems attacking several tens of times. His Origin Qi storage was many times more than people of his level. Moreover, his depletion was reduced by about 10%. For other people, even if they were to have treasures or possessed heavenly techniques, they would only be able to use this for two to three times and their Origin Qi would be completely depleted after three times.

There were even people who could only use it once.

The Spiritual Weapon Realm was very powerful, but ordinary people wouldn't be able to sustain such a high rate of depletion unless they were old monsters who had cultivated in the Spiritual Weapon Realm for many years. Of course, there were also exceptions and Qing Shui was one such example. There were other people as well, but whether or not one could come across such people was hard to say.

"No. My Spiritual Weapon isn't condensed from Origin Qi. Therefore, I have no idea if I'm at the Spiritual Weapon Realm either." Qing Shui said.

Qing Shui understood that his Divine Weapon Street was much stronger than Spiritual Weapons. It was an undeniable Divine Weapon Street, and as its grade increased, it could definitely win over those weapons condensed from spiritual Qi by a huge gap.

"You've given me too many surprises. What other things do you know? I feel that you seem to know everything, and that there aren't anything that you can't do." Nuo Lan said.

### **Chapter 2128 - Hundred Treasure Chest, Firecloud Palace**

"You've given me too many surprises. What other things do you know? I feel that you seem to know everything and that there aren't anything that you can't do." Nuo Lan said.

"A formidable person will be able to kill me instantly with a single move." Qing Shui shook his head. He didn't see himself as being invincible. People might not be able to kill him with a single move since he

had the Paragon Golden Armor, but there might be experts out there who could kill him within two moves, or deal an attack that was beyond what the Paragon Golden Armor could handle.

"How could there be so many experts? It's only now that I know that you won't be any weaker than Beihuang Yu even if you were to face him head-on."

"I do understand a little about the Taiyi Immortal Palace. The Taiyi Divine Sword is very terrifying. This time around, after Beihuang Yu comes out from his seclusion, he'll definitely become stronger. If he were to have further progress in his sword arts and reaches the stage of State of Swordless Heart, then his battle prowess will increase by at least double." Qing Xian recalled the scene of his battle against Beihuang Yu.

"The fact that you can tell what realm Beihuang Yu is at means that your realm is higher than his."

"I'm only at a slightly higher realm than him." Qing Shui wasn't trying to be humble. In terms of their Heavenly Dao, Qing Shui wasn't that far off from Beihuang Yu, and might even be slightly worse off than him.

They encountered quite a number of people on their way; all of whom were searching for the Advancing Divine Worms. In such a big place, with only three to five, or a maximum of seven to eight Advancing Divine Worms appearing each time, it was really hard to catch one. However, there were still a lot of people who came to join in.

"There are so many people here that it requires a great deal of luck to be able to catch one. These people are all here to try their luck. It seems that they are all very free." Qing Shui looked around and shook his head, not understanding this. After all, many people seemed as if they were here to watch the fun.

"You don't understand this, right?" Nuo Lan looked around and smiled.

"I don't!"

"The more people there are, the higher the chances of being able to catch the Advancing Divine Worms. Some experts could find out who were the ones who had captured the Advancing Divine Worms and then obtain the worms through some other means. For example, they could kill the person who had caught them, buy the worms from them, or trade with certain conditions. When some people got their hands on the Advancing Divine Worms, they would immediately use them to exchange the things that were currently the most useful to them. Therefore, many people would come to join in the fun. People who eventually caught the Advancing Divine Worms in an area would tend to share some benefits with the people around them." Nuo Lan chuckled.

Qing Shui thought of the scene earlier. If it wasn't because of the appearance of the Silver-Eyed Demon King, there would probably be people who would come to ask for some benefits. Although there weren't any people around Qing Shui at that point in time, that Advancing Divine Worm had come from the direction of a group of people and by right, he should share some benefits with them.

After having experienced the battle from earlier, none of those people went to approach Qing Shui to get some benefits from him. If they were to anger him, not only would they not get any benefits, they might even risk losing an arm or a leg.

They continued to change their locations occasionally, and without realizing it, it was already at the latter half of the night. However, the bright moon hung high up in the sky, casting a snow-white glow on the ground. It wasn't as bright as it was in the day, but it was still very bright. It was much brighter than some of the weaker light bulbs in Qing Shui's previous life. Moreover, as it was a snow-white glow, so it appeared even brighter.

Beautiful ladies would be reflected with even greater beauty under the moonlight. Qing Shui now felt that Nuo Lan was just like a fairy. She was wearing a dress made from snow-white translucent silk to begin with, and it made her appear even purer. Her features were really contradicting, having a pair of charming eyes yet filled with a hint of apparent coldness. It was such a combination that brought about such a lethal attraction. She didn't need to intentionally reflect her seductive side to be able to get people to fall to her charms.

Qing Shui already felt that it was extremely lucky to have gotten one Advancing Divine Worms. Qing Shui didn't feel too disappointed that they hadn't found any others. He felt that the chances were very slim and it was impractical to wish for a few more.

"Another person caught one!"

Just then, a commotion broke out in the distance. If it wasn't because Qing Shui and Nuo Lan had a good sense of hearing, they wouldn't have heard it. Therefore, after exchanging a glance, they ran toward the voice.

"Our Firecloud Palace will take your Advancing Divine Worm. State your condition!" A man dressed in luxurious clothes stepped forth and said.

Qing Shui and Nuo Lan had arrived nearby at this time. Many people had also appeared. The person who had caught it was a middle-aged man who looked very muscular and had a face covered in beard. However, his eyes were very bright and his clothes seemed very ordinary. He was now holding a big strange box and the Advancing Divine Worm was stored in it.

Qing Shui was a little curious about this box. Ordinary boxes wouldn't be able to trap the Advancing Divine Worms.

Hundred Treasure Chest!

When Qing Shui saw this, he was stunned. He then continued to look at it.

It could expand or contract in size, and its size would also change as its grade increases. After it recognized its owner, the person would be able to obtain the treasure in the treasure chest. It was made of special materials and was a box used to store treasures in ancient times.

Status: Yet to recognize owner!

Qing Shui was stunned. This was a waste of a great treasure. This thing still had good stuff stored in it; thus, he must definitely get his hands on it. However, it seemed that this man wasn't that strong. Qing Shui had no idea what kind of existence the Firecloud Palace was, but he must get his hands on the Hundred Treasure Chest. Not only did he want to get his hands on the Advancing Divine Worm, but also on the Hundred Treasure Chest as well.

"It's a fair competition. We mustn't let this brother suffer losses." Qing Shui and Nuo Lan walked out and said, smiling.

"Young man, our Firecloud Palace are bent on getting this Advancing Divine Worm. You better not lay your eyes on it. Otherwise, you might end up losing your life." The eyes of the man in luxurious clothes narrowed as he looked at Qing Shui with an ice-cold gaze, not concealing his killing intent at all.

"Brother, if you wish to sell off this Advancing Divine Worm, why not consider us as well. I guarantee that you'll be satisfied." Qing Shui didn't even look at the person from the Firecloud Palace and said to the middle-aged man who was holding the chest.

"This young man was the one who had gotten an Advancing Divine Worm earlier and even beaten up the Demon Gate's Silver-Eyed Demon King." Suddenly, a voice rang out.

"I remember now. He really is the one. This can't do, he should share some benefits with us. Mister, are there any benefits that we can get to have a share of?"

"That's right, give us some benefits and we'll help you to persuade this person and get him to sell the Advancing Divine Worm to you."

"That's right, that's right..."

The crowd became very excited in an instant. Qing Shui smiled. "Of course there'll be benefits. As long as this brother here is willing to sell it to me, I'll definitely share some benefits with everyone, even double the portion. Moreover, the condition I offer will definitely make this brother satisfied. Everyone can be my witness."

When Qing Shui said this, everyone was overjoyed. A person like him would definitely not scrimp on sharing benefits with others and they wondered what they could get from this. What they would get might even spare them 30 years of hard work...

"This... I don't mind selling it to either of you. I don't have much use of it anyway. I want to use it to exchange with something useful to me." The man was now troubled. He was only in trouble because of his wealth and he couldn't afford to offend others. The moment he did, he would probably get into trouble later on, even if he could get away with it now. After all, there would be people who would hate him for not selling the Advancing Divine Worm to them.

"You must think through this carefully. Our Firecloud Palace has yet to fail to get our hands on something that we want. If you were to sell it to us, we'll also ensure that you'll be satisfied. Just say what you want." The man from the Firecloud Palace, who was dressed in luxurious clothes, said loudly.

"Firecloud Palace? From where? The Northern Emperor Domain or the Northern King Domain? Why haven't I heard of it before?" Qing Shui gave it some thought but still couldn't recall having heard of this force before.

"We're from the Firecloud Domain. You must think through this carefully. Even the strongest forces in the Northern Emperor Domain and the Northern King Domain would have to show us some respect." The man lifted his head and said proudly.

**Chapter 2129 - Gains, Repay, Treating Illness, Master and Disciple**

"We're from the Firecloud Domain. You must think through this carefully. Even the strongest forces in the Northern Emperor Domain and the Northern King Domain would have to show us some respect." The man lifted his head and said proudly.

"Qing Shui, the Firecloud Domain is the closest to the Northern Emperor Domain with the exception of the Northern King Domain. Both the Northern Emperor Domain and the Northern King Domain are right next to each other, one in the east, and one in the west. The Redcloud Mountains is located between them while the Firecloud Domain is to the northeast of the Northern Emperor Domain. Rumor has it that the Firecloud Domain is a little bit stronger than the Northern Emperor Domain and the Northern King Domain. However, no one is exactly sure, they should be about the same. The Firecloud Domain doesn't have many conflicts with the Northern Emperor Domain or the Northern King Domain." said Nuo Lan softly.

"I understand. So they are people from other domain." Qing Shui smiled and said.

Nuo Lan didn't know what to say. When one encountered such events, sometimes, they mustn't retreat. After all, the people here were all from the Northern Emperor Domain or the Northern King Domain. If the people from the Firecloud Domain were to gain the upper hand, it would reflect that they are too useless.

Qing Shui's calm words had its effect. Ultimately, this place was the intersection between the Northern Emperor Domain and the Northern King Domain. If the people from the Firecloud Domain could have their way here, it would be too humiliating for them. Even if the Advancing Divine Worm were to be sold to the people from the Firecloud Domain instead of someone from the Northern Emperor Domain, this man would be shamed and it might be hard for him to progress in the future.

Hearing Qing Shui's words, the countenance of that middle-aged man from the Firecloud Palace changed. He knew that the tables were turned and wanted to say something when the middle-aged man tossed the Hundred Treasure Chest to Qing Shui directly. "Here, take it. I trust you guys. You can decide what price to pay me!"

The middle-aged man knew that this thing was like a hot potato. If he knew that this would happen, he wouldn't have caught the Advancing Divine Worm. The people in the surroundings didn't catch it and didn't get themselves in trouble, but yet they could still make a fuss about it to get some benefits.

Qing Shui hadn't expected things to turn out this way. Nodding, he tossed the Hundred Treasure Chest into the Realm of the Violet Jade Immortal and heaved a sigh of relief. He took out quite a lot of things and tossed them to the people around who had wanted to get some benefits. He also told them that he was a physician of the Imperial Cuisine Hall in the Northern Emperor Domain's Northern Emperor City. Quite a number of people actually knew of it and requested for the benefits to be changed to accumulated points and a chance to seek treatment.

Qing Shui nodded and gave out some tokens. He was considered to have taken out quite a huge sum and finally satisfied these people.

In the end, Qing Shui left with that man and Nuo Lan.

"Mister, you saw it for yourself. Those people won't let things end like this for me. If I knew this would happen, I wouldn't have caught it and bring so much trouble to myself." The middle-aged man couldn't feel happy.

"Are you interested in the way of healing?" Qing Shui smiled and asked.

"The way of healing? I'm interested in medical skills, but I've never picked it up before." The man looked at Qing Shui, puzzled.

"It's good that you have interest. I'm also aware that you're troubled, but I won't let anything happen to you. What other people do you have in your family? Would it be convenient for your family to move to the Imperial Cuisine Hall?"

Although the Imperial Cuisine Hall was small, there was still some free space. The third story was Nuo Lan's and the second story Qing Shui's. There was still a small bedroom on the first story.

"My parents are no longer around. I have a brother but he has set up his own family and moved away. I'm now alone and by myself..." He seemed to find it a little hard to continue on.

Qing Shui smiled and said softly, "I can help you to recover. You'll be able to get married and have children of your own. In the future, you'll become a respected miraculous physician."

The middle-aged man's body shook. When he was young, he had hurt his lower body in a fight against a demonic beast. Therefore, he had never gotten married after all this time. Although his cultivation wasn't high, it wasn't bad either, being at Peak Martial Saint. Other people at his level of strength would usually have great riches and many wives. However, this man couldn't even compare with the most ordinary men. He would rather be an ordinary healthy man...

If it wasn't because of his younger brother, he wouldn't have thought of continuing his life like this. There was no happiness in his life. Many ladies liked him and he had no shortage of money. He was also strong and was still young. However, he knew his own condition. Right now, there was still a lady who was waiting for him. She had waited for him for 30 years and still continue to wait.

"Can it really be done?" The middle-aged man's body was trembling.

"You'll be fine after a while. Come, let's go find a place to take a rest and then I'll help to treat your condition. Your condition might seem so hard to treat if it's in the hands of someone else, but I'm someone who is able to treat conditions that others cannot." Qing Shui chuckled and said.

...

Nuo Lan moved around as if she was also looking for the Advancing Divine Worms, but Qing Shui called for her to leave together.

They came to a relatively secluded place and Qing Shui helped to treat the man's condition. To treat the injured meridian channels were an easy feat to Qing Shui. When the middle-aged man once again felt something on the lower half of his body, his tears were already flowing out.

It had been so many years. Even if he were to grab it with his own hands, he couldn't feel anything. It was as if a dead part, an external object that didn't grow on his body but was just stuck there.

However, he could now feel it very clearly and streams of heat were being transmitted there. In the end, at the sight of it lifting up, tears flowed out of his eyes. Men shouldn't cry easily, but he felt that even if he were to cry it out today, it would be worth it.

"How about it? Do you want to learn from me?" Qing Shui smiled and asked.

"Thank you, Master!" The man immediately knelt down and kowtowed, paying respect to Qing Shui as his Master.

After he was done with his kowtow, Qing Shui helped him up. Although this man was an honest man, he was still someone with intelligence. The reason Qing Shui took him in as a student was not that he wanted to use this as a method to thank him, but on the account of this person's physique. The man had a physique that was suitable for the art of healing. It would be fine even if he hadn't learned it in the past. It would never be too late for a person with his physique to pick up the art of healing no matter when they started.

Qing Shui couldn't really describe this man's physique. However, what he could be sure of was that people with such physiques would be more sensitive toward medicinal herbs. This was why Qing Shui had the thought of getting him to learn the art of healing.

Of course, one of the reasons was also to repay him for earlier.

Nuo Lan felt a little puzzled when she saw Qing Shui taking in this student. However, she still congratulated the two of them happily. She wasn't sure who she was congratulating, but she knew that this disciple had really gotten a great deal to have Qing Shui as his Master.

"Master, do you still need this Advancing Divine Worm?" asked Zhang Yue.

Qing Shui's new disciple was called Zhang Yue.

"Mmm, I do. I need a lot of it." Qing Shui smiled and said.

"I actually know of a way to catch it. I had actually used that method earlier." Zhang Yue gave it some thought and said.

Qing Shui was very surprised, "What method is that?"

"The Advancing Divine Worms likes Fragrant Buddha Wood. With this thing around, the chances of luring it out would increase by many folds." Zhang Yue said this while bringing out a small wooden Buddha, handing it to Qing Shui.

Qing Shui received it and could smell a faint incense fragrance coming from it.

"This Fragrant Buddha Wood might not necessarily be able to lure the Advancing Divine Worms, but it's true that the chances of luring them out would spike a lot higher," said Zhang Yue softly.

"Alright, let's go and try it out." Qing Shui felt a little agitated. If he could get his hands on all of the Advancing Divine Worms here, then he could get a lot stronger. In the Northern Emperor Domain, there were dangers everywhere. The best way to deal with these things was to get stronger.

Earlier on, the Firecloud Palace hadn't taken any action. Even though the man dared to bring out the Firecloud Palace's name for his own interest, he wouldn't dare to report back if there were any troubles. Take today's matter for example. If the news of it were brought back, that man's head might just roll.

Therefore, there was no need to worry about Firecloud Palace. That man was unlikely to report the matter back. Therefore, it was unlikely for them to be troubled by that man in the short term.

### **Chapter 2130 - Effects of the Advancing Divine Worms**

Although the Fragrant Buddha Wood wasn't something that precious, it wasn't something that could be found easily either. There wasn't a lot of this and it didn't have many uses, other than being a type of fragrant wood. Zhang Yue had a piece of it. If they were to go look for one now, they might not be able to find one even if they were to take ten days or even half a month.

Qing Shui now had two Advancing Divine Worms. It was a great gain. Most importantly, there was that Hundred Treasure Chest as well. Although Qing Shui had taken Zhang Yue as his disciple, he would still provide him with compensation and won't let him lose out. Qing Shui planned on keeping the Hundred Treasure Chest. After all, it had been in Zhang Yue's hands for very long and it seemed that he didn't have an affinity with it.

It was unsure if it was thanks to the Fragrant Buddha Wood, but they caught another Advancing Divine Worm three days later. They caught it in a relatively secluded place and no one else had seen it. However, there was a rumor that two other groups had caught two other Advancing Divine Worms as well. The Demon Gate had caught one and the Five Tiger Immortal Sect had caught one as well.

Over the next three days, Qing Shui hadn't encountered any other people from the Demon Gate. Although Qing Shui was considered a member of the Divine Palace, to outsiders, the Divine Palace had now found three Advancing Divine Worms. However, regardless if it was the Divine Palace or the Demon Gate, they wouldn't force the other party to hand the worm over. They could use some other means of compensation provided that both parties were willing to take on the trade.

Of course Qing Shui wouldn't hand the worms over. These Advancing Divine Worms were a treasure to the current Qing Shui, just like the Divine Square Cauldrons. Long Zhu`er was already very powerful now and if she were to become twice as strong, just the thought of it would make Qing Shui very excited. Long Zhu`er now had become Qing Shui's strongest demonic beast.

Although there weren't any accidents and Qing Shui had only caught three Advancing Divine Worms, he was considered to have gotten the greatest benefits from this. In order to prevent any accidents from happening, Qing Shui brought Nuo Lan and Zhang Yue back to the Imperial Cuisine Hall directly.

Qing Shui killed the three Advancing Divine Worms and extracted their Origin Essence Pills. Upon arriving at the Imperial Cuisine Hall, he gave Nuo Lan one of them, "Here, this is for you. Don't mind that it's not a lot."

"Forget it, there are only three. You should keep them for yourself." Nuo Lan gave it some thought and said.

"It's fine. It's already very good that I'm asking for two. I know you want it, so there's no need to hold back. When it's time to take action, you should just do it." Qing Shui pushed it to her.

Nuo Lan looked at the Origin Essence Pill in the porcelain bottle happily, "The benefits that I've received from following you around during this period of time is much more than what I've gotten over the recent few years."

"Alright, we're all tired. Go back and have a good rest then come down to have some food later." Qing Shui brought out some entry-level medicine books and items that can help to differentiate medicinal herbs.

"Zhang Yue, you'll stay in the Imperial Cuisine Hall for now. You must memorize all of these in a week's time." Qing Shui smiled and said.

"Master, I'll do my best to accomplish this."

Qing Shui nodded and entered the Realm of the Violet Jade Immortal the moment he returned to his room.

The two Divine Square Cauldrons in Qing Shui's Treasure Basin was ready to be used since a long time ago. Therefore, the moment Qing Shui entered the realm, he could not wait and used them directly, upgrading the Divine Weapon Flying Sword. It went up by two grades directly.

Earlier on, having just one Divine Square Cauldron had increased its grade by three and now, its grade increased by two despite there being two Divine Square Cauldrons. Qing Shui wasn't surprised. Earlier on, it should be that one Divine Square Cauldron was required for the increment in the first three grades. Now, at the fourth and fifth grade, two Divine Square Cauldrons should be required for each grade increment. Therefore, the Flying Sword's grade had increased by two. If two Divine Square Cauldrons was also required for the sixth grade, then the Flying Sword would have increased by three grades.

Qing Shui was already very satisfied with the increment in two grades.

Big Dipper Sword, Flying Sword!

Grade five!

Allowing members from the party to receive 10% less damage. The effect will sustain throughout the entire battle.

Increase 50% of self-recovery speed, all attacks, and defense by one billion Dao Force, reduce additional damages by one billion Dao Force, and reducing 5% of damage received.

When Qing Shui saw these effects, he smiled. He could sense an indescribable power filling him up. His Flying Sword Divine Weapon had also become stronger, which made Qing Shui feel that it was now sharper. The snow-white blade and the Big Dipper diagram on it made the Flying Sword appear more majestic and rustic.

The upgraded Divine Weapon made Qing Shui's abilities stronger as well.

Qing Shui's attacking prowess, in addition to the enhancement from the Divine Weapon, now reached 2.5 billion Dao Force, and his defense reached 25 billion Dao Force under the effects. However, the Parry Heavenly Fate Treasure Pagoda could further fend off attacks.

The Divine Weapon could reduce 15% of damages, increase the defense prowess by one billion Dao Force, and reduce additional damages by one billion Dao Force. Therefore, even if Qing Shui were to just stand there, neither moving nor applying any martial technique, he would have a defense of about 28.5 billion Dao Force.

The Nine Continents Mountain's attacking prowess had also increased by a little, reaching 12.5 billion Dao Force.

This was when the Divine Weapon was only at grade 5. He wondered if he could get even stronger when the Divine Weapon's grade was to increase in the future. However, Qing Shui knew that it would be hard for his own attacking prowess to become his main force. However, he still had the Divine Weapon and the Dragon Slaying Beast to rely on.

At the thought of these, Qing Shui immediately brought out the Origin Essence Pills. He let Long Zhu`er took one. There was no dispute over this. He must let Long Zhu`er get stronger. As for the other one, Qing Shui hesitated on whether if he should give it to Little Rin, the Dragon Slaying Beast, or to the Dark Phoenix.

Right now, amongst these three demonic beasts, Dark Phoenix and Little Rin were about the same level while the Dragon Slaying Beast was of another category altogether. Under the situation where the target didn't move, the Dragon Slaying Beast would be a massacre machine. Otherwise, it would be very hard for its attack to hit. Heavens was fair. Therefore, Qing Shui felt that even if the Dragon Slaying Beast were to double its current strength, there wouldn't be much point to that.

In the end, Qing Shui gave the Origin Essence Pill to Dark Phoenix.

Long Zhu`er had entered a state like a giant cocoon that was getting increasingly bigger. The spider thread continued to increase in thickness and the powers on her continued to rise endlessly as well. Compared with Long Zhu`er, Dark Phoenix was covered in fierce flames.

However, what that astonished Qing Shui was that there was a layer of sky-blue frost on the surface of the burning flames. This frost seemed as if they existed for ten millions of years already. However, they showed no signs of melting at all.

One day passed by, two days passed by...

Qing Shui had thought that it wouldn't take long, but seven days passed by in the Realm of the Violet Jade Immortal. Qing Shui didn't do anything during these seven days as he observed the changes happening to these two demonic beasts.

Pa!

A crisp and loud sound rang out and Qing Shui's eyes lit up. It finally ended. Long Zhu`er was the first one to come out. Her body didn't become bigger, but her power had increased by more than double what it was before. The nine gleaming golden dragon heads seemed to be bigger than before and more sturdy as well.

Qing Shui looked toward her with his Heavenly Vision Technique and saw her abilities.

Nine-Headed Demonic Dragon Spider!

Strength: 13 billion Dao Force.

Five Qi Origin: Nine-Headed Demonic Dragon Spider's innate battle technique, permanently increases its physical strength by 500 folds and has zero energy depletion.

Regenerating body: Can allow any parts of the body to regenerate three times a day.

...

Unyielding Shield: The Seven-Headed Demonic Spider's defense is extremely strong.

Demonic Spider-Dragon Head: Passive battle technique. Increases the toughness and sharpness of the Seven-Headed Demonic Spider, as well as the sturdiness, stickiness, and toxicity of its web by 200 times... In addition, it increases attacking prowess, endurance, and sustainability by 100 times. Zero energy depletion!

Divine Spider Thread: Increases all of the Nine-Headed Demonic Dragon Spider's abilities by 10 folds. The Nine-Headed Demonic Dragon Spider's toxicity and toughness, as well as the spider thread's stickiness, sharpness, and control increases by ten folds.

Qing Shui was very satisfied. This was her abilities under the Spirit Gathering Lamp's and the Heaven Shaking Drum's effects. He could now see the entire of his demonic beast's abilities and therefore, other than temporary abilities, all other passive abilities would be activated automatically.

A strength of five billion Dao Force was very terrifying to begin with, but now it had more than doubled what it was, even getting close to three times its original strength. Right now, Long Zhu'er was definitely a terrifying existence. After integrating with that tentacles monster, it had allowed her spider thread to undergo a mutation and it was now Long Zhu'er's most terrifying skill.
