

Apocalypse 178

Chapter 178

“Just look at that” Liao Xing said, “their reward was eternal life, who wouldn’t go crazy for such a reward?”

Ye Fei Li: “There’s also such powerful Professionist weapons, even Fuxi Empire couldn’t make things like that”

“Do you believe it? Do you believe in eternal life?” Gu Qing Shan glanced at everyone around.

Zhang Ying Hao scoffed: “All I see is over ten thousand people dead”

Ye Fei Li thought about it and muttered: “My life span... I think after evolving to a certain point, I won’t need that anymore...”

“I actually want to try to see what kind of feeling eternal life is, but I’m not a Professionist, so to go there is just suicide” Liao Xing said, regretfully.

“Very well, seems like we can continue” Gu Qing Shan said.

“But that weapon looks really awesome” Ye Fei Li was also a bit regretful.

“If it’s weapons, we can make it ourselves not long after” saying so, Gu Qing Shan remembered a certain person.

Fuxi Empire’s Grandmaster smith, Du Guong Qiong.

Some things must be done by the people of this world themselves.

Rather to give them fish, it’s better to give them the way to fish.

“Impartial Goddess” Gu Qing Shan shook his head and spoke.

It’s still too early, the System is still only in its early stage, there are still numerous things he has to do, it’ll be quite a while before it gets to that stage.

[I’m here, please give your orders sir] Impartial Goddess spoke.

“Search for me, where is the person called Ou Yang Fei Yu currently at”

[From his name, deducted that he’s a person of Fuxi Empire, searching their database for such a person’s name]

[Elapsed time 2 seconds, found 5 people with the same name]

Liao Xing suddenly gave a piece of paper in his hand and spoke: “Impartial Goddess, you can search further with his appearance”

On the paper, Ou Yang Fei Yu’s face was drawn.

“Your art skills aren’t bad” Zhang Ying Hao praised.

“Ridiculous, of course it’s not bad, this face of mine...” Liao Xing stopped halfway.

Impartial Goddess continued: [According to his portrayal, 4 people has been crossed out, leaving one person a match]

[Ou Yang Fei Yu, 69 years old, a wanted criminal in Fuxi Empire, Elementalist, 20 years ago he killed over a dozen Professionalists, escaped from Fuxi Empire’s pursuit a number of times and is still in hiding]

[After using 31 satellites to scan designated areas, this person has been located in Fuxi Empire, Southeast county, Ming Yang city]

Gu Qing Shan stayed silent.

As the other three didn’t know what he was thinking about, they only stared at him.

Zhang Ying Hao couldn’t stand it and asked first: “What are you thinking?”

“The game had taken the initiative from us and put up a front of eternal life...” Gu Qing Shan muttered.

Pacing back and forth, he suddenly exclaimed: “Then we must get even”

“How do we do that?” Zhang Ying Hao asked.

“Our target is this guy who obtained eternal life” Gu Qing Shan said.

Liao Xing very quickly understood and asked: “So you want to kill him?”

“Correct” Gu Qing Shan answered, “if he’s really going to be hailed as a hero, more and more people will want to enter the Game of Eternal”

He squints his eyes and sharply spoke: “Over ten thousand people had died, and yet he received eternal life for all that slaughter, being the center of attention”

“We cannot let this notion continue, humanity has already gone mad, if a second person like this were to appear, humanity will lose any semblance of a break it has left”

Ye Fei Li nonchalantly said: “If it’s murder, I’ll be more than willing to”

“You’re my first choice, right now, our highest fighting strength is you” Gu Qing Shan said.

“Then how do I leave?” Ye Fei Li looked outside towards the black empty space.

“I’ll send you to Fuxi Empire’s Ming Yang city through the central warp device” Liao Xing spoke.

Please support our website and read on novelbold

Everyone there stared at him.

“Warp devices are usually installed on interstellar warships” Zhang Ying Hao spoke, “I’ve never heard of any city in Fuxi Empire having this kind of thing?”

Liao Xing lightly scoffed, then turned to ask Gu Qing Shan: “Do I count as your business partner?”

Gu Qing Shan patted his shoulder and replied: “You are, quite an important one too”

Liao Xing then lifted his head and gloated: "Brat, let me tell you something, be it the Holy Empire, Fuxi or the Confederate, I've set up a small-scale warp device in every city in every large country there is"

"...When did you do that?" Zhang Ying Hao asked.

"30 years ago" Liao Xing answered.

"Then they're probably broken already" Zhang Ying Hao said.

"For 30 years, I've used the maintenance of my little toys as a way to stay off my boredom"

"Every single one of my toys have an automatic robot specifically for its maintenance, the paperwork for it are regarded as top-secret for every country, as an individual file that no one has the authority to see unless they're involved in it. The system automatically maintains them periodically, the government signs the paper, and taxpayers pay for it" Liao Xing explained.

"Technology is a very scary thing" Zhang Ying Hao mumbled.

"That is to say, I can go anywhere I want?" Ye Fei Li was very intrigued.

"No wonder they found it so hard to capture you" Gu Qing Shan also praised him.

"If that's the case" Zhang Ying Hao, "then there's no need for Ye Fei Li himself to go, anyone of my subordinate hitmen can kill that guy off"

"No" Gu Qing Shan spoke, "we still need Ye Fei Li to go himself"

"Why?"

Gu Qing Shan answered: "The Game of Eternal is building up role models for their brand of eternal life. But we, we need to build an image of a harbinger of death"

He waved his hand, bringing up a steel Mech armor that was 5 meters tall.

The Blazing Angel's prototype model.

The finished product was already given to Su Xue Er.

This prototype model had a few too many weapon systems, so it was left here by Gu Qing Shan.

Lightly caressing the cold steel outer layer of the Mech, Gu Qing Shan said: "If eternal life is capable of driving them into madness, then the fear of death shall make them regain their senses"

His figure disappeared into the shadow that the giant Mech cast on the ground, his voice was low and calm.

"You mean..." Liao Xing stared at him, and had a look of respect for the first time.

"That's right, I want to show the entire world. That a person who would enter the Game of Eternal, who would be willing to show their fangs to countless of their own fellow humans does not have the right to live in this world" Gu Qing Shan spoke.

"Impartial Goddess, please connect to Mr. Liao's network of warp devices.

[Yes]

“And also, you’ll be helping me make something”

[Please tell me what you need sir]

“Dismantle the prototype’s weapon system, we need to redistribute them once again”

[Why do we need to make it again?]

“I want to give Ye Fei Li a Mobile Mech that is specifically for defensive purposes and is able to block out his form”

He gestured for Ye Fei Li to come forward.

“You’re making me a Mobile Mech? I’m not hearing it wrong right?” Ye Fei Li was hesitant, showing a rare look of nervousness.

A light appeared out of the air and scanned him from top to bottom.

[Personal model has been mapped] Impartial Goddess reported.

“Please also consider his bone wings on his back” Gu Qing Shan reminded.

[My apologies, let us do it again, Mr. Ye Fei Li, please spread your bone wings]

Ye Fei Li complied and spread his bone wings, but couldn’t wait and asked: “What you said, it’ll be a real Mobile Mech?”
