

ARMIPOTENT Chapter 155

Name: Li Na

Class: Summoner

Age: 20

Affiliation: Tang Empire

Level: 59

Talent: Swiftiness

Attribute Point: 0

Strength: 74

Agility: 75

Vitality: 23

Stamina: 22

Magic Power: 100

Sense: 10

Skill Point: 20

Skill: [Basic Detection] [Celestial Summoning] [Infernal Summoning] [Summon Space - Lvl 1] [Mana Mastery (Apprentice) - Lvl 1] [Mana Perception - Lvl 1] [Mana Shift - Lvl 1]

Summon (1/3): [Mystical Bear - Lv 50]

Leaning her back against Moon's thick fur, Li Na opened her screen status. She barely reached 100 Magic Power again after blood and sweats, now Moon was about to evolve again.

"Fortunately, he taught me [Mana Perception], I can increase my Magic Power by training," her face reddened slightly the moment she mentioned him. The fact, Tang Shaoyang let her learn [Mana Mastery] while the other captains did not learn the skill.

Fyuhh!

Moon seemed to be able to read her mind, he blew her hair through his breath, "I have become a lot stronger now, he will look at me soon!" Li Na retorted back to the bear. Despite the strong retort, her tone lacked confidence.

The Mystical Bear snorted in return, clearly did not believe what his Master told him.

"Hahhh..." Li Na let out a long sigh, "I am afraid. He has two beautiful girls on his side, sexier than me also," the girl looked down at her chest. She was not flat C if she guessed right, but her C was nothing to the two girls on his side.

Once again, Moon blew Li Na's hair through the nostril, warming her face at the same time. In her mind, Moon's words were transferred.

—You haven't tried yet but you are already giving up! No matter how strong you have become, he will not look at you if you keep acting cowardly like that. A true man will have at least seven women in his life, now he only has two, you should try and take the initiative.

Li Na rolled her eyes at the bear, "Who says a true man should have at least seven women? Where did you learn such a nasty thing?"

—I am a True Man...

The bear paused for a while, he realized his bad choice of word. After a moment of pause, he continued.

—Ahemmm... I am a True Male Bear and my instinct tells me that I should have at least seven mates to be a True Male Bear!

Moon corrected his mistake and continued with his principle of life.

"Alright, stop with your perverted thoughts. Let's think about your evolution instead, are you ready?" Li Na shook her head and got to the main topic.

—Of course, I am ready! Once I reach adulthood, you don't have to worry about these weaklings, I will fight and protect you, Master!

"Good. I will wait for that day to come," Li Na smiled as she opened Moon's status screen. She proceeded through the bottom of the screen and pressed the [Evolve] button.

[Do you want to consume 50 Magic Power to evolve your summon "Moon" to stage-3? Y/N?]

Li Na let out a relieved sigh internally when she found out that it only consumed 50 Magic Power for the second evolution. She immediately pressed the "Y" button.

[You summon "Moon" has undergone an evolution to stage-3!]

[Your summon "Moon" will be forced to stay in the Summon Space during the evolution! (2:59:59)]

"So it takes three hours for the second evolution," Li Na muttered, standing alone in the middle of the forest, "I will head back for now, and try to recover the losing Magic Power,"

*** **

Zhang Mengyao was activating [Mana Perception], absorbing the mana around her. Her mana whirlpool was much smaller even than Tang Shaoyang's mana whirlpool.

However, when she activated [Mana Perception], the whirlpool rotated much faster than Yu Shun, absorbing more mana into her whirlpool. Her whirlpool was growing bigger as she continued.

"Fyuhhh!" She let out a long breath and opened her eyes.

[You have entered training state for "3:12:30", you gained 47 Magic Power]

She widened in shock when she heard the notification. 47 Magic Power, that was a lot of attributes, she did not expect to get this much in her first meditation, 'What's wrong?' She asked herself, trying to find what caused her Magic Power to increase that many.

"I should ask Shaoyang, or maybe this is because of my first meditation," she muttered in a low voice.

At this moment, the door opened. Kang Xue entered the wooden house, "Sister Mengyao, when do you want to collect the herbs?"

Zhang Mengyao looked up, she remembered that Tang Shaoyang tasked her to brew the antidote, 'But why Xue'er ask? Does she want to follow me?'

"Now!" Zhang Mengyao stood up as she replied, "Then, can I join you?" Kang Xue requested to join, "As a doctor, I think this is my responsibility but I will learn how to brew the antidote from you,"

Zhang Mengyao nodded, "Okay! Let's go, I will lend my note to you too later,"

The main team was enjoying their break for the time being while waiting for Wei Xi to recover.

*** **

Meanwhile, on the other side of the Clarity Forest

Lu An's team, Yan Sheng's team, and Tian Donghai's team had met and regrouped. They decided to merge into one team after Lu An told them how strong the Beast King was.

The reason why they split rather than entering together the portal was to finish the objective faster. However, the side objective was not that easy to clear now, regroup was a must if even Lu An was having a hard time to kill one.

Tian Donghai and Yan Sheng knew their limit so they decided to regroup. After a few hours of venturing in the Clarity Forest, they found what they were looking for, the Beast King.

The Beast King was resembling the wild boar with two big tusks that came out from the side of its mouth. It had brown-red hair and also a single horn on its forehead.

[Beast King - Wartusk]

Affiliation: Clarity Forest

Level: 94

Evolution: Stage-5

Skill:???

Wartusk, five meters tall, and it had a two and a half meters wide body. Lu An, Yan Sheng, and Tian Donghai were exchanging glances while Wartusk eyed the large group with its red eyes.

"Spread!" Lu An took the leadership position as he instructed the people to spread, "Bai Yuan, Hu Feng, and Wu Xing! You join us to probe the Beast King's strength!"

The young man then directed his gaze to the people he did not call, "You guys spread and act accordingly, hit if you have the chance, and run from it after that. Hit and run, that is our tactic for now!"

Despite his young age, everyone listened to him. They spread out, leaving six people behind to face the Beast King.

Huff! Huff! Huff!

The Wartusk released a strong gale of his breath from his nostril. Then he tapped the forehoof to the ground before it charged forward. The Wartusk had an amazing speed that caught the six men off guard.

Hu Feng quickly reacted as he moved forward. It was his class to tank the enemy's attack, Shield Bearer. Holding two rectangular shields, he placed the shield forward to block the incoming Wartusk.

[Enhanced Defense]

He did not forget to activate his class's only skill.

Bang!

The Wartusk slammed his snout to the shield. Hu Feng was holding his ground but he was being pushed back by the Beast King. They stopped after ten meters, Hu Feng stopped the Wartusk.

"Good job, Uncle Feng!" Lu An appeared next to Wartusk and landed the first strike to Wartusk's thigh.
