

## ARMIPOTENT Chapter 182

[You have destroyed Level 3 Troll Village]

[Congratulations! You acquired 3 Skill Points]

"This is the twentieth level 3 village, we should get back now," Zhang Mengyao was quite concerned about their time. Four minutes needed to travel between the Level 3 Troll Village, and it took them another two minutes to destroy the village.

They spent eighty minutes traveling around and forty minutes destroying twenty Level 4 Troll Villages. Two hours after they finished all Level 2 Troll Village. Now they only had a little over one hour before the next wave. Considering their people's condition, Zhang Mengyao thought they had to go back now.

Tang Shaoyang agreed to go back until Lu An came back with vital information, "I found something big, Boss!"

Lu An brought them deeper into the forest, around seven minutes, the young assassin stopped and pointed in the direction ahead.

They found another village but not a village. It was surrounded by wooden walls, taller than the Level 3 Troll Village, around ten meters tall. Four watchtowers were placed on the front, they could see also there were more watchtowers on the side of the village.

Unless this was not just a village. There were the words on top of the establishment that was not just a village, but [Troll Tribe Capital]. Tang Shaoyang immediately cast [Basic Detection] on the establishment.

-----

[Troll Tribe Capital]

Level: Capital

Lord: Stage-6 Troll Warlord

Population: 400x Stage-2 Troll Warriors, 200x Stage-3 Troll Champions, 50x Stage-4 Troll Berserkers, 5x Stage-5 Troll Great Berserkers

-----

"Save this for the last," Zhang Mengyao still thought they had to leave now even though the Troll Tribe Capital might be the last place they should destroy in the southern forest.

"No! We will attack the capital!" Tang Shaoyang shook his head as he determined to destroy and end everything with the Troll Tribe now. Since they were here might as well finish it once for all.

Of course, he had considered everything including how they would fight. He estimated thirty minutes was needed to destroy this Troll Tribe Capital. Then they would have thirty minutes to rush back to the fort.

"Moon will destroy the four watchtowers," he pointed to the watchtowers, "Then we will take the main gate and let them come to us! We can use the gate to our advantage so we will not get surrounded by the Trolls,"

It was the same battle but a different location, they should be okay to fight, at least that was what Tang Shaoyang thought.

—You should not attack carelessly like that. The villages have five Beast Kings and one Guardian Beast kind of monsters, are you sure to fight them at once like this?

Zaneos was quite concerned as the Demon Swordsman spoke in his head. This time he has to agree with Zhang Mengyao's words to retreat.

'We should be fine, especially we have acquired a lot of Skill Points,' Tang Shaoyang was confident his team could take down the last home of the trolls, 'Moreover, I have you, Teacher. If something happens, we can try our integration,'

"Alright, I want you guys to use your skill points before we attack the last troll village! I want all of you ready in three minutes!" He notified his people to strengthen their skills before they launched an attack.

A wide grin formed on his lips as he looked at his new status screen, 'Do you think I will lose against the stage-6 Troll Warlord with this kind of attribute?'

While looking at his attributes, he tapped on his new skill, [Flash Step].

[Do you want to level up [Flash Step - Lvl 1] to [Flash Step - Lvl 2]? Y/N? (10 Skill Points)]

While he was at it, Tang Shaoyang leveled up the newly acquired skill that he never put into use since the enemy he faced so far was weak, 'I think, I am ready,'

Zaneos did not speak anymore as it seemed he was convinced by the attributes on his screen status. "Are you ready?" He turned around and asked his subordinates.

They did not answer him but they formed a disciplined line with their weapons in their hands, indicating they were ready for the table.

Tang Shaoyang came closer to Moon and hopped on him, "Let's start Big guy," he caressed the smooth fur.

Moon understood Tang Shaoyang's words as he immediately charged forward toward the troll village gate. The big guy did not bother with the trolls on the watchtowers as he let out a big roar, notifying the enemy of his arrival.

"Quite cocky, heh~," Tang Shaoyang smirked as he stroked the smooth fur around his neck, "But I like it!"

Roar!

Moon tapped his two paws to the ground. He was familiar with the sign, and he looked to the two watchtowers near the entrance. He thought the two watchtowers would explode, but it was the two watchtowers far to the sides that exploded as a torrent of flame burst out from the ground.

Right after that, Moon leaped into the air. At the same time, a giant two paws made of flame formed above them.

Wham!

The two flame paws landed together with them. While they landed in front of the gate, the two big flame paws crushed the two watchtowers near the entrance. It burned the watchtower down as the fire spread to the wooden wall.

"Good Job~," Tang Shaoyang petted the bear before he leaped off the bear. He stomped the ground with his right foot as he landed.

[Earth Split]

The ground shook fiercely, as the crack spread further from his right foot. It cracked and split the ground, reaching into the village. As the group split up, the gate also broke apart into two and collapsed.

[You have leveled up!]

[You gained 2 attribute points!]

[You can allocate the attribute point by opening the status screen!]

The notification rang, indicating he killed a few trolls with his skill. The grin was getting wider on his lips as he tested his newly upgraded skill.
