

ARMIPOTENT Chapter 310

"Marriage Oath?" Zhang Mengyao was interested to hear more while Kang Xue was also awake after the exhausting night.

"Yes, it's like a wedding ceremony, but this is not just an empty word as the oath is under the system's watch. If you broke the oath, you will get the consequence," Tang Shaoyang remembered this because Old Man Rick tried to have him and her daughter do Marriage Oath to replace their Swordmaid Bond.

Of course, they never had a chance to do that since the Guardian Knight and the Royal Knight hunted them down.

"Let's do that," Zhang Mengyao immediately agreed to do the Marriage Oath. Kang Xue also raised her hand, "Me too."

Tang Shaoyang did not mind the Marriage Oath even though it made the girls look like they did not trust him. Of course, he understood their feeling, after all, polygamy was not something that could be accepted that easily by the women.

"But I don't know how to do it," he might make an oath with many people, but he never initiated the oath by himself. It was always the other person who did that for him, "We can ask Arina or Selena, they are Cleric so they should know to initiate the oath."

As soon as he mentioned the two names, the two women's eyes went wide and stared at him, "Which one Selena? And which one Arina? Also, did you really meet a real Dragon?"

Tang Shaoyang grinned ear to ear as he was quite proud of his journey in Arkania Continent. He told them the story from the start, how he started the journey as an adventurer.

It took him some time to finish the story, how did he meet with the fake gods, the Dragon, and the game that just started in the Arkania Continent. As for what the world name was, he did not know much about the whole world since Waskin City was the only city and the Orin Forest where he was hanging around.

"What about you two? You two come back as a group, so how's the journey?" Now he wanted to know what they experienced on the other side too. Especially to Zhang Mengyao, her change was too big for him to not notice.

"Sister Mengyao did amazing work, she led thousands of knights and the army in a war. W-we are..." Kang Xue was so excited that her words blurred.

"Hoy calm down, calm down," he caressed Kang Xue's back to calm her down before he glanced toward Zhang Mengyao, "So how's your adventure?"

The story started within the kingdom that was in a war against the neighborhood kingdom. The kingdom she was within was big but surrounded by five smaller kingdoms.

The surprise was that their group was all women. Since the kingdom was in the war, they were recruiting everyone capable of fighting. The five women were recruited into the army and fought their way to the rank.

The most noticeable among the five was certainly Zhang Mengyao and Li Na. Their accomplishment in the battle could not be denied and soon they were rewarded for their contribution.

It was a captain of ten people at first. She led ten people and four of them were her original friends with six otherworlders. In a week in the battle, she was titled as Knight. In a month, she led a thousand people into the battlefield.

She was called the Invincible Knight, undefeated in a fight and invincible on the battlefield. In the two months, she led ten thousand of the army and won her last battle.

It explained why she changed so much despite the short two months. Two months might be short, but it was eventful for the girl.

"I have a class too now, Light Possessor. Apparently, this is a rare class, I can heal and also fight at the same time," Kang Xue joined the conversation, "You don't have to have the Cleric Class for me, you can let the others have the class."

"I see, I wonder what your class does?" Kang Xue's class remembered him Kairu's and Wen's classes. It was just the three that had three different elements. Wind, Fire, and Light. He wanted to know also the difference between Elementalist and Possessor. Both classes controlled the nature elements.

"I can use my light to reinforce my weapon to strengthen the attack and use the light to heal too. I can even regenerate the missing body parts or even use them to support you or Sister Mengyao," Kang Xue was excited about her class, "There are more but I just haven't learned it."

"Good, you take it slowly to learn about your class," Tang Shaoyang praised her before looking toward Zhang Mengyao, "What about you? Do you learn something new too?"

"My class is mutated into Shadow Knight and..." Zhang Mengyao was hesitating to continue.

"What's wrong? It's okay if you don't want to tell me though," it was understandable for Zhang Mengyao to not share anything about her new class or anything new about her ability.

"Look at my eyes!" She pointed at her eyes. Tang Shaoyang and Kang Xue looked at the eyes. Both soon noticed that her eyes changed. It was not black eyes anymore but red blood pupils.

Tang Shaoyang was surprised but soon he realized what happened, "Did you get a bloodline power?"

"How do you know?" But soon she realized Tang Shaoyang's eyes had turned purple too, "Do you have a bloodline too?"

Tang Shaoyang smiled, "It is an incomplete bloodline, but it is a strong bloodline, Dragon Bloodline."

"Did the bloodline change your race too?" Zhang Mengyao immediately asked. This was the thing she worried about, the bloodline changed her race. She was no longer a human but a half-vampire. Yes, she got Vampire Bloodline, and she got self-healing ability from the bloodline.

"Change my race?" Tang Shaoyang asked back, he did not understand what she talked about, "Yes, did it change your race on the status screen?" She nodded her head worriedly. This was the thing she worried about the most. She was afraid that she would be isolated since she was no longer a human.

"Nope," he shook his head, "It still says I am a human. Does your bloodline change your race?"

"Will you leave me? Do you think I am weird?" She was concerned more about this.

"What are you talking about? You are still the same Mengyao. Right, Xue'er?" Tang Shaoyang shook his head as she was concerned about something she should not.

"Yeah, we are not going to leave you just because you are not a human. You are still the kind Sister Mengyao I know," Kang Xue assured the insecure Zhang Mengyao.

"Nah, if I want to be honest, I am envious of you," Kang Xue moved her hand to touch Zhang Mengyao's very smooth cheeks, "Maybe the bloodline that makes you even prettier."

"I am serious, I am a Half-Vampire now," Zhang Mengyao tried to show her canine tooth that got slightly longer. She was truly worried about that but these two looked like they did not take this matter seriously.

"Maybe because my bloodline is still incomplete, that's why my race does not change yet," he suddenly realized that his bloodline was incomplete while Zhang Mengyao received a complete bloodline.

"Anyway, who cares if you are a human or a half-vampire, you are my Supreme General and my woman! It does not change anything but you are getting stronger," he caressed her hair that had gotten longer.
