

ARMIPOTENT Chapter 333

'Huh!?' If the Chimera disliked him because of his race, 'Then why did you accept the contract?' Tang Shaoyang was confused as to why the Chimera agreed to be his contracted spirit. He could not understand that.

—It's because you radiated a similar aura as Feera. we thought you were good like Feera so we agreed with the contract.

Their reply was like an innocent kid, too naive to believe someone they just met.

'I am not as good as Feera to help a stranger, but I am very good to my people. So, if you follow me, then I will treat you better. I will be protecting you from any dangers,' Tang Shaoyang went serious with his words.

'As for the normal life you want, I can tell you how humans normally live. I am good at it, but you need to be resurrected first before we can go for that.'

—Resurrected?

The Chimera sounded surprised when they heard that.

'Yes, we can talk about that later. I should give you a good name before I draw more beasts toward me,' Tang Shaoyang thought of a name, but then he reminded that the Chimera had been living with the mother till their adolescence, 'Didn't your mother give you a name?'

—We, Chimeras, will get our name when we reach adulthood, so my mother has not named me yet...

The beast went into a pause at the last part. Tang Shaoyang soon realized that he just entered a sensitive topic for the young Chimera. The spirit beast was emotional for an infamous fearful creature.

—But she has prepared a name for me, though I never heard the name since she and I died before I could reach adulthood.

The young Chimera continued with a sad voice. All three male voices were wavering, almost sobbing. However, the young Chimera managed to hold back from crying.

Tang Shaoyang had a good idea for the Chimera's name, but it was not an original name, 'What about Feera? Why don't you continue that name and also her will with you?' He tried to change the topic so the young Chimera would not be sad anymore.

—C-can we?

Their wavered voices rang in his head.

—No, we can't. We are a cursed creature, we don't deserve to have her name...

'Didn't Feera tell you that you are not a cursed creature? Shouldn't you trust her than the people who tried to kill you? Shouldn't you trust your family more?' Tang Shaoyang shook his head at the traumatized young Chimera.

The young Chimera spent most of his life hiding. Maybe that changed his beast nature, Chimera was supposed to be wild and fierce, but this one was living under constant fear.

'If you like her, you should take her name, and I believe Feera would not mind,' he persuaded the ancient beast. There was no reply from the young Chimera but he was sure they liked his idea.

'Alright, from today onward, you are no longer nameless, you are Feera!'

[You have named the spirit, Feera the Chimera!]

[Your contracted spirit accepted the name!]

Two notifications rang in his head as soon as he locked the name.

—We are Feera~

He could tell that the young Chimera was excited though it was a pity that he could give them his original idea.

After his business with the new spirit was over, he rose from the ground, "Let's go back before another swarm comes."

Only then he noticed that Li Na was sleeping with her head and back leaned against Moon. Tang Shaoyang shook his head and picked her up. He put the girl on top of Moon's broad back before they headed back to their temporary sleeping quarter.

It had been twenty days, as they stayed longer in the Fallen Land. They noticed that their smell seemed to grow stronger to the beast and monster. After fifteen days, they did not need to look around as the swarm of the beast and monster came for them instead within a certain period.

It was convenient but it was not the best idea if they wanted to look for more treasures. The Boss never went together with the swarm, it was mostly the army without the Boss. There was no Boss such as the Ant Queen which generated a treasure within the swarm.

Tang Shaoyang and Moon returned to their temporary base. It was square-shaped but made by Tang Shaoyang. Not the best hut they had ever had but much better than sleeping in the wild.

He built the hut next to the river, it was a shallow river with no creatures inside. The river was around his calf and he had cleared all the dangers around the area. A safe place for them to rest.

The feeling of succeeding in building the hut on his first try was quite satisfying. He stood in front of his shabby hut with his hand on his waist, smiling proudly upon his finest creation.

Tang Shaoyang picked Li Na from the Moon and carried her inside the hut. There was a wooden bed inside with leaves. That was the best he could do for their bed.

—Fortunately, we come back with the girl still asleep, or the first thing Feera would learn is mating, Kuhuhu...

Karan let out a chuckle. Even though the hut was built for them to rest, this was more like a love nest instead. Tang Shaoyang and Li Na had been doing it in the spare time they had.

No one responded to Karan's joke but one spirit, Feera. They seemed to be clueless about mating.

Tang Shaoyang ignored the spirit's talk as he placed Li Na on the bed and went out. Moon was lying on the front of the door, just like a dog guarding the hut.

"I will prepare the food, you guard her!" He instructed the Mystical Bear. After Moon nodded and prepared the meal for them, this was how they had been living in the Fallen Land.

*** **

The night arrived, moans could be heard from the hut. Moon, who was guarding the hut, heard her Master moaned in pleasure. He shook his head and walked away from the hut.

'Hah, what a hopeless Master. I told her to capture his body, just it's her body captured by the man,'

Inside the hut, Li Na was lying down with her back facing Tang Shaoyang. He was on top of her and kept pistoning from the back. Their bodies were completely pasted on each other.

He was about to come, but then he heard a voice inside his head. It was Feera's voice.

—I am curious, what are you doing, Master? Is this the mating that Karan has been talking about?

Tonight, the naive Chimera learned how humans mating.

*** **

Five days later

Tang Shaoyang and Li Na were doing it in the shallow river. She was holding on to the edge of the river while he pushed her from behind. It was truly like a honeymoon trip than a survival game.

"Hahh..." Tang Shaoyang released everything inside the girl while Li Na also released a long moan.

After he was done, he let himself fall into the water. After exercising, soaking inside the water was so refreshing. Li Na was still holding the edge while her butt was still sticking up. He could see the white liquid fell from her vagina.

At the unexpected moment, he heard the young Chimera's voice again.

—What is that white liquid, Master? Is that human's blood? I thought human's blood is red?

'Damn, I forget to shut off our connection...' learning from his experiences in the last few days, he had to shut off their communication while doing it with Li Na or the young Chimera would keep interrupting his good deed.

*** **

Ten days left until the sixth portal was over, Tang Shaoyang and Li Na were battling against various kinds of beasts and monsters in the plain.

Next to Li Na, Moon was standing straight with legs while swinging his big arms. Moon was now stage-7, he had evolved yesterday. From the evolution, he gained a beastmen form. He was walking like people with two legs and two arms.

Along with his seven meters massive size, he easily smashed the smaller beasts and monsters. Sometimes he would spew blue fire and burn dozens of his enemies in front.

On the thirtieth day, it seemed their smells were getting stronger and stronger. The swarms of the beasts and monsters kept coming at them every six hours. This was getting worse as they stayed longer in this Fallen Land. It was also stronger beasts that kept coming.

It was still like farming for Tang Shaoyang, he easily killed them with a swing of his battle-ax.

*** **

The last day

Tang Shaoyang and Li Na were getting cornered into a limited space. Even though he had chosen a vast plain as their battlefield, they were still getting surrounded by the monster and the beasts.

Through the [Spirit Eyes], Tang Shaoyang saw that the plain was covered by the beast and monster. He could not find a sport without a monster or beast.

It was fortunate that Li Na had been leveling up since the first day. While it was tough, she managed to stand her ground. She was now holding a spear in her left hand and a sword in her right. She ran out of an arrow a long time ago, so she had been fighting in close range with Moon next to her.

Zaneos, Karan, Malki, Zowen, and Feera joined the battle with [Spirit Avatar]. Even though all of them joined hands, they could not come out of the encirclement. They killed dozens, dozens came to fill the hole. Even Zowen's area spell was not effective, it was an endless swarm as if the Fallen Land tried to kill the foreign invaders that entered their world.
