

ARMIPOTENT Chapter 393

Reading the message, Zhang Mengyao did not doubt Delia's vision. The dot in the sky should be Tang Shaoyang for sure.

She immediately called Wen and her call was immediately answered, "How is the situation? Do the zombies go back to the central area?"

—Yes, a part of the army swarmed back to the city. Should I check up on the situation?

"There's no need! Keep on watching them, we will launch the attack immediately so get ready!" Zhang Mengyao commanded the Jade Eagle.

—Alright!

Wen answered quickly and closed the call afterward.

After the call, Zhang Mengyao looked toward Yu Shun, "How many traps Shredder has uncovered? We don't need to uncover all the traps, but make sure to make a path to reach the gate for our people!"

"Alright!" Yu Shun transmitted the order through telepathy.

"Also, prepare the Keepers to destroy the towers, all of them!" Zhang Mengyao gave another quick command to Yu Shun before calling Liang Suyin, "Suyin, get ready to destroy the towers!"

"Why are you in such a hurry?" Wei Xi asked out. She said just now to be patient and get more information about the zombies. Now she told them to get ready to attack the city.

"Your Lord initiates the attack! He is now in the city already, we should assist him quickly," Zhang Mengyao was shaking her head.

'My Lord is your man,' Wei Xi thought to himself. Of course, he did not dare to say it aloud. On the outside, he just nodded his head.

"Get them ready! We will start the attack as soon as Shredder makes a path for us!" Wei Xi nodded and went over to the army to set the command, "Don't forget to tell them about the traps!" She added.

"What about me? Should I join the army to attack or can I move on my own?" Yu Shun, who stayed silent on the side, asked out.

"Get your two Zombie Orcs and two Zombie Trolls to protect Delia and Elin! Then you can do whatever you want after we break into the city!" Zhang Mengyao gave her command to this lone guy.

Tang Shaoyang agrees to Yu Shun's request to not put him into any team. The guy could move on his own in the battle. Not that they worried about him, his zombie army was quite terrifying.

"Roger that!" Yu Shun commanded four three meters figures with a black cloak to move toward Elin and Delia.

"I hope Lord Shaoyang does not kill the zombie lord in the city. I want to take him to my collection," Yu Shun muttered in a low voice.

Zhang Mengyao observed the city, next to him were Yu Shun and Liang Suyin. The others were ready to march toward the city.

Since this was war, she had her armor on her body. Holding the shield in her left hand and the lance stuck on the ground. They were waiting for Shredder to get the work done.

"Why don't you send Heron to help Shredder?" This took too long, she became impatient. The reason was that Tang Shaoyang was in the middle of the enemy's territory.

"I already sent him to help Shredder," Yu Shun nodded. Heron with his weird shadow movement had long gone to help Shredder.

As the waiting continued, Zhang Mengyao received another message from Tang Shaoyang. He was sending her the information about the new zombies, Shooter and Piercer.

She furrowed her brows when she read these Shooter and Piercer were being mass-produced with the building made of flesh.

The Shooter caused their upgrade on Warrior to get countered for sure, but thankfully they upgraded Guard to Elite Guard as well.

"The path has been made, General Zhang! We can go now!" A few minutes later, Yu Shun reported the good news.

"Good, destroy the towers now! Prioritize the defense tower!" Zhang Mengyao gave a green light to Yu Shun and Liang Suyin to attack the towers.

In the span of fifty meters, there were many towers. Two watchtowers and one defense tower with ballistas in the middle. In total, Yu Shun and Liang Suyin had to destroy fifteen towers each.

"Leave that to me," Liang Suyin tapped her red robe to assure Zhang Mengyao.

"Consider it's done!" The young man smiled.

The three came out of their hiding spots and walked forward. The distance to the wall was too far for them to use their spells to destroy the towers. Zhang Mengyao led the two people to protect them, though it seemed her protection was unnecessary because Yu Shun's zombies should be enough to protect the two.

The distance between the wall and where they gathered was around three hundred meters away, "100 meters or else my spell will not be accurate!" Liang Suyin told Zhang Mengyao.

"My Keepers are not as potent as Sister Suyin. 50 meters is the range for my Keepers," Yu Shun also spoke to Zhang Mengyao about the requirement for his zombies to cast the spell.

The three were walking calmly even though they were about to enter the enemy's vision.

Meanwhile, back in the army, many of them questioned the three's decision to walk openly, "What are they doing? They are in the open area!"

The one who spoke was one of the Squad Captains under Fan Rui's command. Fan Rui was in the same team as Liang Suyin when they entered the fifth portal of the Survival Game.

He was the lucky guy to be in his Boss's team. Fan Rui knew more about Liang Suyin than the other people here, "Tsk, you just don't know those three well. Commander Liang's title is Fire Witch, that title is there for a reason. As for the other two, those two should be stronger than Commander Liang."

Next to Fan Rui, Su Hong listened attentively to the explanation. This ambitious man wanted to know more information about his superiors, searching about the classes so he could obtain the right class.

"But still, they are vulnerable to attack. Those zombies have a crossbow as their hand," Fan Rui's subordinate seemed to not believe those three were capable of fighting against many zombies, especially the weird zombies such as Shooter.

"Just wait and see, you will know soon!" Fan Rui shrugged. At this point, the explanation was useless. They should witness those three words with their eyes.

"The zombies are attacking!" At the voice, Fan Rui and his subordinate saw the zombies releasing a volley. The zombies shot their crossbows at the three.

Hundreds of bone bolts sped up toward the three people. They thought the bone bolts would possess a threat to the three until Zhang Mengyao cast her skill, [Shield Wall].

The transparent blue wall formed, protecting the three from the bolts. The bone bolts were reflected by the wall. None of them could break the [Shield Wall]. The volley was easily negated until the three stopped walking.

Zhang Mengyao, Yu Shun, and Liang Suyin stopped fifty meters away from the city wall.

Yu Shun immediately ordered the nine Keepers to destroy the towers. Each Keeper summoned four giant fire spears around them. The nine Keepers then aimed the fire spears toward the tower.

As for Liang Suyin, she extended her hand toward one tower. Then her palm discharged a fireball, a giant fireball with five meters in diameter.

Just like that, the nine Keepers and Liang Suyin kept shooting the towers with the fire. Soon, the thirty towers were on fire.
