

## ARMIPOTENT Chapter 395

The army looked toward their Lord in admiration. It took them great effort to break into the city, but the man was here subduing half of the zombie's army alone by himself here.

What shocked them, even more, was that he did not kill the zombies. He cut all the zombies' limbs for them to kill. It showed that their Lord was caring about them.

Su Hong looked toward the Lord in admiration mixed with envy. He desired to be in that place. Why was Tang Shaoyang, not him?

"What's that?" Suddenly Su Hong heard a voice that immediately turned into a ruckus. He immediately found out the cause of the ruckus, it was something that was made of flesh.

From the appearance, it was clearly not a creature or even a zombie. However, the thing was made of flesh, he could see the trickling blood from the big hole. Something unknown appeared before them, it was normal for them to panic.

Even Su Hong's complexion paled at the sight of this thing. Zombies were enough to cause big distress to them, now a new thing emerged. The bulging pinky veins that decorated the thing only made it look scarier.

"Quiet!" Wei Xi shouted toward his men, he raised his voice to the top. The noise calmed down as everyone had their attention to their Vice General.

"Don't you hear the order? Kill the Zombies!" Only after that, the people moved to kill the powerless zombies.

Many of them tried to take a peek at the thing, but many avoided the unknown thing. Some were curious, but some would rather avoid the disgusting thing.

Yu Shun watched everything from the top, it confused him, "Why don't you kill the zombies by yourself, My Lord? Don't you need to level up as well?"

"These zombies barely help me to level up, it's better given to them so they can level up instead. The war just started, we should get them prepared for a bigger battle!" Tang Shaoyang expressed his thoughts to the young man.

Yu Shun was itching to ask Tang Shaoyang's current level, but he knew that it was something he should ask. He shook his head and guessed himself, "He must be over level 200 if these zombies barely help him."

The stage-2 and stage-3 zombies could give him a big experience if there were thousands of them. It was him who was currently at Level 181. However, The Lord said it barely helped him to level up. It was easy to guess, Tang Shaoyang should be over level 200.

'How can he reach that high-level, really!?' Yu Shun thought to himself.

Soon the thousands of zombies were killed. The first official clash against the Daian Kingdom ended with victory.

Tang Shaoyang watched everything through the Spirit Eyes. When the last zombie was killed, he was about to walk into the air until he heard a notification.

[Congratulations! You have taken Jiaxing City from the Daian Kingdom!]

[Jiaxing City will be under your authority until the winner of the Territory War Game is decided!]

[Protect The City Steele from the invasion to maintain the authority!]

"City Steele?" Tang Shaoyang muttered in a low voice. He was about to look around, but then a red arrow projection appeared in his eyes. The red arrow pointed in a direction.

He looked toward the direction where the arrow pointed at. The arrow was pointing at a building, shorter than his main base, but the building was firmly standing even though the surrounding buildings were damaged to such an extent.

Tang Shaoyang followed the red arrow while Yu Shun followed him, "Where are you going, Boss!?" He immediately covered his mouth. He was not used to the change so sometimes he would call him Boss.

'If the others hear me, I will get scolded...' he thought to himself while following Tang Shaoyang. Fortunately, the people were too busy killing the zombies, so no one noticed.

Tang Shaoyang stood in front of the building. The building was the arrow pointed at. He entered the building and found black Steele. It was more like a small pillar at the center of the first floor.

He approached the black Steele, and information appeared in his eyes.

[Jiaxing City's Steele]

[Protect the City Steele to maintain your authority over Jiaxing City!]

Tang Shaoyang frowned at how the game worked. With their limited people, they had to protect the city's Steele. That meant he had to divide their force if he wanted to look or attack another official city.

They were at a disadvantage in the game for sure. It was the complete opposite of the Zombie Kingdom. The Zombie Kingdom had millions of zombies, added with the Zombie Consort. They could afford a big army to protect one city.

On top of the number disadvantage, there was a time limit as well. With a limited amount of time, he has to conquer at least four other official cities in thirty days to win the Territory War Game.

This thing disturbed his plan to keep marching toward the opponent, "I have to make a change of plan..."

\*\*\* \*\*

Zhang Mengyao and Wei Xi stood side by side as ten Captains reported the aftermath.

The ten Captains were Tian Donghai, Qin Shoushan, Su Hong, Cao Yuntai, Fan Rui, Zhao Zhong, Hu Feng, Fu Dandan, Dai Wenqian, and Tao He. These ten were the selected Tarrior appointed to be a 100-men commander.

Ten Captains reported in turn, reporting to the Supreme General the aftermath. Mostly about casualties, and they suffered zero casualties from their first clash against the Daian Kingdom.

Hearing the report, Zhang Mengyao was relieved to hear this. The first clash against the zombie horde was disastrous. It became one of her darkest memories as many lives were gone because of her.

While she managed to overcome the guilt because of the support of Tang Shaoyang. That memory still haunted her even now.

Zhang Mengyao then glanced at Kang Xue. She was asking about the Healer Division.

Kang Xue signaled an okay gesture as she smiled in return, "We are good, zero death. However, this is their first war, so they are exhausted, mentally and physically. They need some time to overcome their first experiences in the war."

"I am afraid it's not for me to decide," Zhang Mengyao shook her head as he pointed at the flesh thing, "That flesh is Zombie Consort, an exclusive facility for the zombie kingdom. Lord Shaoyang informed that the Daian Kingdom produced their army with Zombie Consort. It can produce a stage-3 zombie with level 60! We have to hunt these things down quickly before they can produce too many zombies for us to handle."

The ten Captains, Wei Xi, and Kang Xue were shocked to hear this. If zombies could be produced, then it was an alarm for humans to eradicate the zombies before these zombies took over the world.

At this moment, Heron came out from the shadow and stood next to the ten Captains, "General Zhang, General Wei, Commander Kang, and Wen. Lord Shaoyang wants four of you to come. This is important! Please follow me!"

"You three go ahead, I am going to arrange for the [Spirit Summoning] first!" Zhang Mengyao told Wei Xi, Kang Xue, and Wen to go first.
