

ARMIPOTENT Chapter 531

Derekh Malone felt a pang of sharp pain right where he got kicked. His body shot backward and rolled over the ground. However, he quickly found his balance and stood his ground. The same for Duran Malone.

Derekh Malone looked down at his belly and found his armor dent in the shape of a human's foot. A deeper frown formed on his forehead, not expecting the Grade A armor would dent with one kick, "Be careful, don't underestimate him. He is stronger than I thought,"

??

There was no need for Derekh Malone to remind him, Duran was aware that the man was not normal from the first exchange. However, his eyes moved to the other individuals, scanning the group one by one. The scout was not lying when there were two demons within the group, "Don't forget, our target is the demon. From their aura, they are around Epic Rank... We need to tire them with the knights if we want to kill them..."

"This will be a tough battle, but it's worth a try. Let's do that," Derekh Malone agreed to use the knights to tire them out. The opposite group was less than twenty individuals, five thousand knights were overkill for sure.

Meanwhile, after landing the kick, Tang Shaoyang returned to the group, "There are weaker than I thought," That was his comment for the Epic Rank. They had a quick reaction as Derekh Malone managed to react to his [Flash Step], but they were still slow to respond with his following attack.

"You should not underestimate them, they haven't used a single yet or their Elemental Power," Ashley responded to the comment, "Moreover, my Father has mastered the Frost Sword as well. No, he is much better than me. As for Derekh Malone, he is known for his exquisite control over his Elemental Power, The Wind. The reason he could react to your initial attack was thanks to his Wind Elemental Power that boosts his movement,"

Tang Shaoyang noted the reminder but more importantly, "Are you fine? I think you can stay back and protect Selena instead," he was concerned with the girl after what happened just now.

"No, I am fine. I will fight as well!" Ashley pulled out the sword and made a stance. She was ready to join the battle anytime. She was shocked by the revelation for sure, the true color of her father. However, that only made her even more determined that she was on the right side. Her father did not deserve to remain alive after all he said about her mother, "You can do whatever to him, I don't care!"

"There's no need for you to say that, I am going to crush them for sure," Tang Shaoyang looked toward the opposite party. They were moving forward, trying to encircle them. The fight had started. He then glanced toward Zowen, "You can start now!"

"Finally!" Zowen yelled loudly as her figure floated to the air. She raised her hand upward dramatically.

The figure that suddenly floated to the air surprised the knights. They halted their advance as everyone was looking at Zowen. To everyone's surprise, the sky above them suddenly darkened and thunder crackled beyond the dark cloud.

Rumble! Rumble! Rumble! Rumble!

Along with Zowen's pose and her background, it looked so dramatic that everyone's attention was drawn toward Zowen. Yes, none of the knights tried to stop her, even Derekh Malone and Duran Ambrose rooted on the spot. It was until the yellow thunder formed in the sky, forming into the sword shape. Twenty meters long and eight meters wide, the crackling thunder noise filled the sky.

Duran Ambrose snapped out of his thought as he raised his shield upward, "Raise your shield! Set up the defense! Don't daze around, you fools!" As he said that, a layer of ice formed above him and the other knights. The other knights that had defensive skills started to activate their skills as well. Layers of shield formed above them.

Instead of catching them off guard, Zowen waited for them to form the shield as she created more thunder swords. She was not going for the kill, but to attack the enemy's mind. He wanted to shake them with her mega attack.

Thirty-five thunder swords of the same size formed in the sky. When the layers of the elemental shield had formed, only then Zowen made her move. She moved her two hands downward toward the shield and the first thunder sword shot down toward the shield. The sword struck the shield and exploded.

Kaboom!

"KACHABOOM!" At the same time, Zowen made a sound effect with her voice as well.

The sword exploded as the thunder crackled in all directions. Through his [Spirit Eyes], Tang Shaoyang could see that dozens of elemental shields crumbled. But it did not stop there as the second thunder sword struck down at the elemental shield. Another explosion followed up. More shields crumbled within the second attack. It was then followed with more thunder swords.

Ashley, Selena, and the others had to close their eyes as it was too bright for them to keep their eyes open. Only Tang Shaoyang was the only one who managed to see what happened through [Spirit Eyes].

"Muahahahaha! This is not over! Accept all my thunder! Taste the power of Magus!" A peal of crazed laughter filled the air along with the explosion. Zowen was so excited that she did not bother with her image anymore. She was laughing loudly like a crazed murderer.

On the tenth twentieth Thunder Sword, all the elemental shields but the Ice Shield created by Duran crumbled. The last layer of protection for the knights was in Duran Ambrose's hand.

Kaboom! Kaboom! Kaboom! Kaboom!

Meanwhile, in Biaska Town, Biaska Inn, Tristan, Roan, and Carl could see the thunder swords that formed in the sky. The sky suddenly darkened in a certain area, so they immediately noticed when the thunder swords formed in the sky.

The three old men looked at each other, "It's where the Malone Family and the Ambrose Family's camps are, right?" Carl was the first one to open his mouth and asked Roan for confirmation.

"Yes," Roan looked toward Tristan, "Should we check?"

Tristan nodded his head in response, "Yes, let's check what they are doing there," the three old men rushed toward where the thunder swords formed.
